Section 3.4 Boards and Commissions

(D) Historic Landmarks Commission

The purpose of the protection radius is to preserve the historic character and allow future development that is consistent with the character of the historic site. The protection radius applies to properties with a historic structure or designated as a historic site when a non-residential development or development for a major residential subdivision is proposed. Adaptive reuse of a historic structure shall comply with Section 8.19 and Appendix C of this Ordinance.

Section 4.14: HISTORIC PRESERVATION

The purpose of this section is to:

1. Promote the general welfare by protecting the integrity of historic resources in Jefferson County;
2. Establish a clear process by which proposed changes affecting historic resources are reviewed by the Jefferson County Historic Landmarks Commission and Jefferson County Planning Commission;
3. Mitigate negative effects of proposed land use changes on historic resources;
4. Encourage the continued use of historic resources and facilitate their appropriate reuse;
5. Tailor protective measures to those clearly delineated historic resources worthy of preservation;
6. Encourage the preservation of historic settings, rural landscapes, and battlefields;

7. Discourage the unnecessary demolition of historic resources; and
8. Minimize development in core battlefields.

This Ordinance encourages the preservation of historic buildings and historic sites and recognizes the Jefferson County Historic Landmarks Commission's Classification of Historic Resources in Jefferson County.

All historic resources in Jefferson County are classified by their Category of Importance. All sites and structures were surveyed by the Jefferson County Historic Landmarks Commission up through 1957 and classified Category I through IV. The list of inventoried resources and their assigned Category of Importance is available through the Historic Landmarks Commission's website and on the Office of Planning and Zoning website. The countywide inventory of historic resources is updated semi-annually.

All inventoried historic resources are assigned a Category of Importance, used to determine the level of protection afforded that resource. The levels are as follows:

1. **Category I.** These are the most important historic resources in Jefferson County. This category includes individually listed National Register structures and properties; Historic Districts including their contributing structures; Federally recognized Civil War Battlefields; and National Register eligible properties. These properties retain a high level of original condition and integrity.
2. **Category II.** These resources are classified as important. This category includes Jefferson County Landmarks, historic resources that may be National Register eligible, and other Civil War battle sites. Resources in this Category may have been altered or changed to such a degree that they no longer retain the same level of integrity as the original condition.
3. **Category III.** These resources have moderate importance.
4. **Category IV.** These are resources that are at least 50 years old, have little or no significance, but are listed on the Landmarks Commission's inventory.

Section 8.19 Adaptive Reuse of Historic Structures on the Historic Landmarks Commission Inventory

A. Adaptive Reuse of Historic Structures

The intent of this Section is to provide moderating regulations to permit a historic building to be used in a manner that protects neighbors while ensuring the protection of a historic resource that adds character to the community. The Historic Landmarks Commission shall make recommendations to the Office of Planning and Zoning on the suitability of a proposed multi-family dwelling or non-residential use for the building seeking adaptive reuse.

1. **Historic Landmarks Commission Findings.** The Historic Landmarks Commission may visit the property and review the proposed land development plan and use for sites designated as Category I or II. The Commission's recommendation to the Zoning Administrator shall include the following findings:
 - a. The suitability of the proposed use is compatible with the historic structure; and
 - b. Any modifications to the building's façade is consistent and compatible with the building's architecture, style, and massing; and
 - c. That proposed parking and other activities are suitably located so as to preserve the character of the structure and its historical setting; and
 - d. That landscaping is located in such a way that masks parking and air conditioning from general view to protect the character of the historic site but does not hinder view of the historic structure; and
 - e. If the building facade(s) was modified in the past in a manner out of character with the structure, the Historic Landmarks Commission may recommend that the property owner restore the facade(s) to its historic condition; however, it shall be at the property owner's discretion to abide by the recommendation or not.

- F. A sign not exceeding 25 square feet on a farm, advertising farm products primarily grown on the premises.
- G. Directional or informational signs of a public or quasi-public nature, such as those containing the meeting date of a community or civic club, or the advertising of a public event.
- H. A temporary real estate sign designating the zoning classification of the parcel, not exceeding 20 square feet and being located on the subject property for sale or lease.
- I. Building contractors', subdivision and/or professional person' temporary signs on buildings or land under construction but not to exceed 100 square feet.

No sign shall be attached to the side of the building that faces an adjoining residence. ~~All signs placed on a property whose use is permitted through the approval of a Conditional Use Permit are subject to Section 10.4E.~~³²
- C. Individual business or industrial establishments may erect a freestanding business sign, provided the lot frontage is at least 40 feet. The freestanding sign shall be located in such a manner that no part of the supporting structure is less than 25 feet from the street right-of-way, and that no part of the sign is closer than five feet to the right-of-way. The total area for any sign or signs on one supporting structure shall not exceed 300 square feet and the total height of the sign structure shall not exceed 35 feet. Businesses or industries having a frontage on more than one street may have an additional freestanding sign for each street frontage, provided that the total area for all freestanding signs does not exceed 600 square feet. Where the lot adjoins a residence and a freestanding sign is on the side of the business lot adjoining the residential lot, the sign shall not face the adjoining residence. ~~Signs whose use is permitted through the approval of a Conditional Use Permit are subject to Section 10.4E.~~ Structures which have more than one use shall be required to use a pylon sign. One is permitted on each street frontage.^{8, 32}

approval by the Board of Zoning Appeals as part of the Conditional Use Permit application in accordance with Section 6.3.^{2, 17, 21, 23, 32}

- F. No outdoor advertising sign shall be placed closer than 300 feet to an intersection on a dual or proposed dual highway or within 100 feet of any other intersection; provided, however, that such signs may be affixed to or located adjacent to a building at such intersections in such a manner as not to materially cause any greater obstruction of vision than caused by the building itself. No business sign shall be so located to obstruct the vision of traffic using entrance ways, driveways, or any public road intersection.
- G. All outdoor advertising, excluding billboards subject to Section 10.4H, shall comply with front yard setback provisions in the districts in which they are permitted.
