Clue

The mysterious "Mr. Covid" has been quietly tormenting the staff at Parks & Rec for some time. Someone has taken it into their own hands, to rid the department of his evil ways once and for all!

It was only a matter of time... everyone has been pushed to the brink.

But murder is murder, and the crime must be solved!

The game is afoot!

Clues are hidden around Sam Michaels Park. Look along the trails, and in public location. ALL CLUES ARE VISIBLE AND OUTDOORS.

If you find a clue, check it off your suspect list. Who doesn't have an alibi? Who did the crime?

Play fair...

DO NOT TOUCH, MOVE, OR REMOVE CLUES!
Don't let the legacy of Mr. Covid win! Be sure to practice social distancing when you are in the parks!

When you know who did the crime, where, and the weapon, send your answers to: info@jcprc.org to be entered to win.

Ten winners chosen at random will win a \$10 gift certificate and other surprises.
