EMS

Jefferson County Commission
Engineering Department/Office of Impact Fees
16 February 2016
Overview

This document constitutes the Jefferson County Impact Fee Program Capital Improvement Plan for Fiscal Year 2018 (which begins July 1 2017). It consists of two categories, those eligible for Impact Fee funding for capital improvements and those ineligible. For the entities eligible for Impact Fee funding, their names and their associated impact fee category are indicated below (impact fee categories noted in square brackets):

- Jefferson County Board of Education [School]
- Sheriff of Jefferson County [Law Enforcement]
- Jefferson County Parks & Recreation Commission [Parks and Recreation]
- Jefferson County Emergency Services Agency [EMS]

The total funding request for all projects over the upcoming fiscal year as well as the next five outlying years is $133,208,490 (up from $112,859,750 in FY 2017). Of this amount, $3,860,500 represents the funding requests for FY 2018 (in FY 2017 the amount was $1,261,500).

The divided sections which follow include the submitted CIP Form 1 (Agency/Department/Office Summary) for each entity as well as the individual CIP Form 2 documents (Annual and Five Year Project Request and Justification) which detail each project listed on an entity’s CIP Form 1. Any supplementary documentation is included with the appropriate CIP Form 2. Proposed projects that directly impact the County Budget also require Form 2B – Budget Impact Analysis; however, the projects submitted for FY 2018 do not require funding from the County’s General or Capital Outlay Funds.

Each entity’s submission is entered into the Capital Improvement Plan database, which permits comments from the Impact Fee Program Specialist to be included with CIP Form 1. In the case of the Board of Education, CIP Form 2 documents are not required. The original submissions received from all entities are on file within the Engineering Department/Office of Impact Fees.
Overview of Funding Options

This document lists planned capital projects within the Jefferson County Impact Fee Program of which some entities have several options for funding available to them. In general, revenues available to fund capital projects may be classed into one of the following categories:

- Direct County support (General and Coal Severance Funds, etc.).
- General Obligation/Construction Bonds (currently only one such bond is in effect for the taxpayers of Jefferson County – a school construction bond). Loans mediated through banks to the County Building Commission also fall into this category.
- State support (usually as School Building Authority grants, or similar grants through other state agencies).
- Federal grants.
- Impact fees (see the discussion on page 11 for details).
- Entity-specific user fees (for example Park & Recreation or Fire/Ambulance fees).
- Donations and gifts (bequeathments, corporate partnerships, etc.).

The major funding mechanisms will be briefly discussed in the following section.

Direct County Support

The County Commission has the authority to use monies from the General and/or Coal Severance Fund to assist with the funding of County projects. Previously, several dedicated Capital Outlay funds have been established for this purpose using General Fund revenue. In prior years, these funds have been used to build the Sam Michael’s Park Community Center, and to purchase and renovate several other buildings. Among some of the other projects which have benefited from these funds includes the Emergency Communications Center, the Sheriff’s Department, and the County Maintenance Facility which are all located in the Bardane Industrial Park. In downtown Charles Town, the Old Jail was renovated for the Circuit Court and most recently, a section of the Briel building was renovated which now houses a portion of the Prosecuting Attorney’s Office. These funds have also assisted with the mortgage payments for the new Emergency Services Agency building.

General Obligation/Construction Bonds

Only the County Commission and the Board of Education may propose special levies to fund capital projects. In both cases the question of a levy must be placed before the County’s voters and must receive a minimum of 60% of the vote.

This type of funding mechanism is rarely used in Jefferson County. The Board of Education has floated several construction bonds of which have funded expansion and renovation projects at Jefferson High School and part of the construction costs at Washington High School.
Jefferson County has an appointed Building Commission. The County Commission, through its Building Commission, may borrow money from any type of lending financial institution or issue general obligation bonds. If the loan is to acquire land or construct a building, the deed to the property is transferred from the County Commission (or other entity) to the Building Commission. Generally, the County Commission funds the Building Commission to provide revenue to satisfy the terms of the loan. Building Commissions were specifically granted this authority in order to prevent County Commissions of obligating future Commissions via the issuance of bonds or by securing mortgages or loans\(^1\).

### State Support

The only significant source of state-supplied capital funding for the County comes from the State School Building Authority (SBA). This entity sets school construction standards and releases funds, generally for entities that bring significant cash matches. In the past few funding cycles, the Jefferson County Board of Education has used collected impact fee monies as a monetary match. The SBA has responded favorably by providing monies for several construction and school expansion projects. No other entity, including the County Commission, has an equivalent state funding agency.

### Federal Support

Unfortunately Federal monies have not been a predictable or reliable revenue stream to fund capital projects within Jefferson County. The Sheriff’s Department has in the past received some Federal monies for capital projects, but historically the funding amounts have been relatively small and random in nature. Federal monies are also available to fund capital projects for EMS entities.

### Summary of Impact Fee Fundable Projects

Table 1 lists all priority 1 projects (described as Urgent/Mandatory on CIP Form 2) as requested by each entity. Not all of these projects are eligible for funding by impact fees, but it is important to note that these projects have been described by their respective entities as having Urgent/Mandatory funding needs. Table 2 lists all capital improvement projects requested by each entity regardless of being fundable by impact fees.

Table 3 identifies only those projects that are impact fee-fundable, which are eligible for funding by available impact fees, either in whole or in part. Emphasis on approving impact fee expenditure on projects requested is suggested to be for priority 1 projects first. The Impact Fee Program Specialist has determined which of the projects that are impact fee fundable for FY 2018 based on the current availability of impact fee funds for each of the impact fee categories and their associated bank accounts, prior and current allocation sources, along with the impact fee collection projections for CY 2017.

---

### Impact Fee Specialist Recommendations – Jefferson County Emergency Services Agency (EMS)

1. **JCESA Building Mortgage**
   - Eligible for Full Funding due to being for new growth
   - As of January 31, 2017, the remaining allocation amount is $302,071 in the “Mortgage Cost Recovery” capital category of this project. This request is fundable up to future growth’s cost of $520,328. However, fully funding the current request is contingent upon availability of funds in the EMS impact fee account; which is projected to have an estimated balance of only $19,745 on July 1, 2017.
   - Therefore, due to limited funds in the EMS impact fee account, this request is approved for only $15,000 of funding in FY 2018, not the full $81,000 request. Another source for funding the remainder of the mortgage payment will need to come from another source.

### Jefferson County Parks & Recreation Commission

1. **Land Acquisition**
   - Eligible for Full Funding due to being for new growth
   - As of January 31, 2017, the remaining allocation amount is $112,973 in the “Park Land” capital category of this project. This project is fully fundable contingent upon availability of funds in the Parks and Rec impact fee account, which is projected to have an estimated balance of $147,085 on July 1, 2017.
   - Therefore, due to limited funds in the Parks and Rec impact fee account, this request is approved for only $100,000 of funding in FY 2018, not the full $200,000 request.

2. **James Hite Park (Picnic Pavilions)**
   - Eligible for Full Funding due to being for new growth
   - As of January 31, 2017, the remaining allocation amount is $47,363 in the “Park Improvements & Rec Facilities” capital category of this project. This request is fully fundable contingent upon availability of funds in the Parks impact fee account; which is projected to have an estimated balance of $147,085 on July 1, 2017.
   - Full funding is available in the Parks and Rec impact fee account for this $35,000 request, in FY 2018.

Impact Fee Program Specialist’s Notes

Overview

One role of the Impact Fee Program Specialist in preparing the Capital Improvement Plan is to indicate which projects, within each category for which impact fees are collected, are eligible for funding by impact fees. There are two important decision points made when considering each project:

1. Does the project represent expansion of an acknowledged capital category?
   a. If the answer is no (in other words the project may represent maintenance or replacement, or an effort to increase the standard of service), then the project is ineligible for funding using impact fees. However, it is important to note that such projects may be eligible for funding by other revenue sources.
   b. If the answer is yes, then the project is eligible, and the second decision point applies.

2. Is the requested project necessary only because of new growth?
   a. If the answer is yes, then the project is potentially fully impact fee-fundable.
   b. If the answer is no (generally because there is a repair, replacement, or increase in the standard of service component), then the project is usually only partially fundable by impact fees.

In cases where a project may be funded using impact fees, the Impact Fee Program Specialist examines the current cash flow analysis to determine how much in collected funds is attributed to the relevant capital category (i.e. schools, land, buildings, equipment, vehicles). The cash flow analysis also tracks fee disbursement over time, so it is a useful tool for providing guidance on overall spending trends. The cash flow analyses for each of the fee categories are presented on the following pages.

Authority

Pursuant to West Virginia State Code, Chapter 7, Article 20, Section 6 (§7-20-6) counties which have enabled impact fees must maintain a Impact Fee Program Capital Improvement Plan. Only the projects listed on this CIP are eligible for funding by impact fees (either in whole or in part). Whether a project may be wholly or only partially funded depends upon whether the project is exclusively needed due to new growth or is only partially required due to conditions of new growth (see §7-20-3 (h) and (i) for definitions of “proportionate share” and “reasonable benefit”).

The requirement for a yearly Impact Fee Program Capital Improvement Plan, and the identification of Impact Fee Fundable projects, is outlined in Jefferson County Impact Fee Procedures Ordinance 2003-1 Section 3(C) et seq.

One of the tasks of the Impact Fee Program Specialist is to identify projects from the Impact Fee Program Capital Improvement Plan which are eligible for funding by Impact Fees (Ordinance 2003-1 Section 6(A)(2)(b)).
Cash Flow Analyses

The following 4 tables constitute the official cash flow analyses for each of the four impact fee categories. The financial data are cumulative from the beginning of the respective fee collection start date through January 31, 2017 (50% of FY 2017). The projected balance runs through the end of FY 2017.

For the purposes of projecting the cash flow analysis from 31 January 2017 through 30 June 2017 (the beginning of FY 2017), it was assumed that the County growth rate for the period of 31 January 2017 through 30 June 2017, will be constant and equal to the same time period last year. During this period, there were 89 new single family detached structures (of which 3 qualified for the Affordable Housing Discount), and 10 new townhouse structures. For projecting the future cash flow from 31 January 2017 through 30 June 2017, we are assumed the following:

- 89 Single-family units
- 10 Townhouse units
- 0 Duplex units
- 0 Multi-family units

While there was some commercial development in CY 2016, the amount of commercial development impact fees collected during the same cash flow projection time period last year is $0.00.

ANNUAL and FIVE YEAR PROJECT REQUEST and JUSTIFICATION

Prepared By: Deborah Lowe
Date this form prepared: 12/16/2016

Project Title: Purchase of Police Cruisers x 18 (3 per year)
Project Type: Acquisition of Major Equipment
Project Location: Jefferson County

Project Rank:  (1) Urgent/Mandatory  (2)Necessary/Needed  Optional/Deferrable

OR provide Ranking Number if using Form 2A:

Project Need: This project does not benefit new growth.
This project benefits both current and new residents and/or businesses.

Budget Impact: This project will affect the county operating budget:  Yes  No
(if Yes - attach Form 2B).

DESCRIPTION AND JUSTIFICATION (See instructions for Form 2 - attach additional pages as needed)

Purchase of eighteen (18) new fully equipped police cruisers to replace high mileage nearly expired vehicles within the Department’s fleet of vehicles and to enable the Sheriff’s Office the ability to assign this equipment to newly hired personnel. Several of the cruisers in use have reached the end of their serviceability and could become a safety liability if utilized beyond their vehicular life expectation.

Estimated Total Cost of Project ($): $1,370,490.00

Funding Request Breakdown by Year ($):

$165,000.00 (FY 2018) Current Request

(if Yes - attach Form 2B).

DESCRIPTION AND JUSTIFICATION (See instructions for Form 2 - attach additional pages as needed)

The Sheriff’s Office has purchased mobile data tablets for all Sheriff Office police cruisers. The mobile dispatching along with the CAD system will enhance our already taxed and limited radio communication networking systems, thus reducing the volume of audible transmitted radio traffic. Each vehicle will be equipped with a tablet over which calls can be dispatched, record and traffic checks performed, and other networking capabilities could be performed from the police vehicle. Police reports could be prepared and directly forwarded to the police facility allowing deputies to remain in specific assigned areas for longer periods of time. The additional costs will be replacement tablet systems and docking stations in newly purchased cruisers.

Budget Impact:  This project will affect the county operating budget:  Yes  No

(IF YES - ATTACH FORM 2B).

DESCRIPTION AND JUSTIFICATION  (See instructions for Form 2 - attach additional pages as needed)

The current base of operations for the Jefferson County Sheriff’s Office was appropriated in the end of FY 2007/beginning of FY 2008. The building is a metal skinned building and even with the Kevlar lined exterior walls, does not meet the current “hardened” requirements and standards for a permanent police station set down by the Department of Justice and the Department of Homeland Security. The current building was bought and remodeled with occupancy accomplished in May 2008. From the date of purchase and throughout the entire process, the current Sheriff’s Office was designated as a “Temporary” Sheriff’s Office. The newly constructed building will meet or exceed any DOJ/DHS standards. The new Sheriff’s Office will be larger than the current 10,000 sq ft to allow room for growth and will be a completely hardened and secure structure.

Estimated Total Cost of Project ($)  $6,000,000.00

Budget Impact:  This project will affect the county operating budget:  □ Yes  ✔ No

(if Yes - attach Form 2B).

DESCRIPTION AND JUSTIFICATION  (See instructions for Form 2 - attach additional pages as needed)

In an effort to improve upon our responses for the public's calls for service and provide Hapers Ferry/Shepherdstown communities with the level of police services that they deserve, a police facility (sub-station) should be placed in close proximity to these communities. In positions such a facility along the Route 230 and Bakerton corridor would allow on duty deputies who are assigned to this area the ability to greatly reduce response time to calls for service and allow for directed patrol activities whenever time allows. Having deputies assigned to this facility will allow for familiarity of the environment and its citizens thereby creating an atmosphere of partnership and ownership between the community and the sheriff's office. Additionally this facility would provide both an immediate safe haven for those persons in immediate critical need of assistance and a location by which citizens and victims alike may meet with law enforcement to address issues, concerns, and to work on investigative matters, and to file police reports.

ANNUAL and FIVE YEAR PROJECT REQUEST
and JUSTIFICATION

Prepared By: Jennifer Myers
Date this form prepared: 11/17/2016

Project Title: James Hite Park (Utilities)
Project Type: Construction
Project Location: James Hite Park

Project Rank: ☑️ (2) Necessary/Needed ☐ Optional/Deferrable

OR provide Ranking Number if using Form 2A:

Project Need:
☐ This project does not benefit new growth. ☐ This project only benefits new growth.
☑️ This project benefits both current and new residents and/or businesses.

Budget Impact:
This project will affect the county operating budget: ☐ Yes ☑️ No
(if Yes - attach Form 2B).

DESCRIPTION AND JUSTIFICATION
(See instructions for Form 2 - attach additional pages as needed)

This represents a long-term ongoing project targeted at alleviating deficiencies noted in the 2016 park master plan.

The project involves planning, construction and improvements to install infrastructure at James Hite Park to begin Phase II development. Improvements may include but are not limited to: electric, water, and septic. As part of this year’s request, site plans and construction documents would be bid for development of utilities over the next three years.

Estimated Total Cost of Project ($) $1,500,000.00

Project Title: Maintenance Vehicle

Project Type: Acquisition of Major Equipment

Project Location: Stored at JCPRC Maintenance Building to be used throughout the county.

Project Rank: ☑ (2) Necessary/Needed

OR provide Ranking Number if using Form 2A:

Project Need: ☑ This project benefits both current and new residents and/or businesses.

☐ This project does not benefit new growth.  ☐ This project only benefits new growth.

Budget Impact: This project will affect the county operating budget: ☑ Yes  ☑ No

(if Yes - attach Form 2B).

DESCRIPTION AND JUSTIFICATION  (See instructions for Form 2 - attach additional pages as needed)

The JCPRC has four maintenance vehicles to maintain 10 parks and over 400 acres that spread across Jefferson County. With the additional maintenance of James Hite Park, which opened during the fall of 2016, JCPRC will have to hire additional seasonal maintenance staff as well as purchase a vehicle to transport staff, mowers and field equipment to the park on a daily basis. This truck will be heavy duty and able to transport 4 staff to the park, so 2 vehicles will not be needed each day.

☑ This project benefits both current and new residents and/or businesses.

Budget Impact: This project will affect the county operating budget: ☐ Yes    ☑ No

(if Yes - attach Form 2B).

DESCRIPTION AND JUSTIFICATION  (See instructions for Form 2 - attach additional pages as needed)

This represents a long-term ongoing project targeted at alleviating deficiencies noted in the 2016 park master plan.

Amphitheaters can greatly vary in size and complexity. Depending on the size of the facility, use can range from facilitating a small gathering to serving as a venue for a major regional event. Studies performed to construct facilities in Sam Michael’s Park illustrate the range of facilities that is possible. Cost aside, the size, location, and design can also dramatically impact the viability and utilization of a facility and therefore its sustainability. It appears that Jefferson County could support a large, more revenue intensive and revenue generating facility, which could serve both its resident population and compliment Jefferson County’s larger tourism development goals.

(IF Yes - attach Form 2B).

DESCRIPTION AND JUSTIFICATION (See instructions for Form 2 - attach additional pages as needed)

This represents a long-term ongoing project targeted at alleviating deficiencies noted in the 2016 park master plan.

Even with the modest growth projected in Envision Jefferson 2035, the Jefferson County’s Comprehensive Plan prepared in 2015, there will be a substantial increase in population over the next 20 to 30 years in Jefferson County. An important value of a comprehensive planning effort, whether broadly considered or topic specific, is to ensure that as community population and demographic changes occur, Jefferson County is well prepared for those changes. Based on project population growth with the targeted growth management areas within the Comprehensive Plan, there will be a need for additional parkland. Since Jefferson County’s parks are already considered under-sized by typical county level standards, it is suggested that lands that specifically adjacent to existing parklands should be given a priority in order to build upon existing resources.

DESCRIPTION AND JUSTIFICATION (See instructions for Form 2 - attach additional pages as needed)

This represents a long-term ongoing project targeted at alleviating deficiencies noted in the 2016 park master plan.

Design and implement a grand vision for Sam Michael’s Park that elevates the park to a true county-scale and “the premiere” park facility for Jefferson County (100+ acres)

Sam Michael’s Park needs a truly comprehensive master plan that takes into account all of the opportunities within the current site and to explore the opportunities to acquire adjacent land which in some manner can be directly connected to the existing park.

☑ This project benefits both current and new residents and/or businesses.

Budget Impact: This project will affect the county operating budget: □ Yes  ☑ No

(if Yes - attach Form 2B).

DESCRIPTION AND JUSTIFICATION  (See instructions for Form 2 - attach additional pages as needed)

This represents a long-term ongoing project targeted at alleviating deficiencies noted in the 2016 park master plan.

There is a great need for additional indoor recreation space. Therefore the recreation center at Sam Michael's Park should be expanded to include another gym, a larger fitness center, an indoor track and additional activity rooms. The assessment of the ability to accommodate the expansion of the facility should be done at the same time as a master plan is created for the entire Sam Michael's Park. This recommendation is consistent with recommendations made in Jefferson County's 2035 Comprehensive Plan.

Estimated Total Cost of Project ($) $1,000,000.00

ANNUAL and FIVE YEAR PROJECT REQUEST and JUSTIFICATION

Prepared By: Jennifer Myers Date this form prepared: 11/17/2016

Project Title: James Hite Park (Picnic Pavilions)

Project Type: Construction

Project Location: James Hite Park

Project Rank: ☑️ (1) Urgent/Mandatory ☑️ (2) Necessary/Needed ☐ Optional/Deferrable

OR provide Ranking Number if using Form 2A: ____________________________

Project Need: ☑️ This project benefits both current and new residents and/or businesses.

☐ This project does not benefit new growth. ☐ This project only benefits new growth.

Budget Impact: This project will affect the county operating budget: ☑️ Yes ☐ No
(if Yes - attach Form 2B).

DESCRIPTION AND JUSTIFICATION (See instructions for Form 2 - attach additional pages as needed)

This represents a long-term ongoing project targeted at alleviating deficiencies noted in the 2016 park master plan.

James Hite Park currently lacks basic park amenities and adequate shade.

The project involves construction of two 20x30 steel picnic pavilions at James Hite Park to continue Phase II development. Picnic pavilions will offer shade to over 1000 children and adults that are currently using the park for leisure and recreation needs. In addition, the pavilions will add an additional revenue stream to the park as the shelters can be rented for family reunions, birthday parties and other special events as the park continues to develop.

It is anticipated that multiple components of this improvement will involve partnership initiatives with local user groups assuring their continuous input and cementing their vested interest in the project as well as funding through grants and donations. Thus department resources will be used in conjunction with grant money and matching monies from user groups to achieve these goals. It must be noted that cost reflected in this CIP reflect total expected costs were the department to assume the entire cost with no input from grant or partnership funding. It is expected that actual cost to the department will be lower as a result of alternative funding streams.

A $35,000 grant has been obtained from the Land and Water Conservation Fund.

Estimated Total Cost of Project ($) $70,000.00

Funding Request Breakdown by Year ($):

This represents a long-term ongoing project targeted at alleviating deficiencies noted in the 2016 park master plan.

The need for a full service indoor aquatics facility is highly apparent and was by far the most commonly expressed desire in terms of new facilities for Jefferson County, throughout the community outreach aspect of the 2016 Master Plan's preparation. Aquatic facilities were universally identified as the top facility type requested by the public. With the exception of the small and outdated pool at Charles Town’s Jefferson Memorial Park and the facility at Shepherd University, Jefferson County lacks indoor and adequate outdoor aquatics facilities. Due to cost and complexity of creating a major aquatics facility, whether indoor or outdoor, it is not likely that Jefferson County would be able to construct and sustainably operate such a facility. Therefore the most logical, and likely the most viable approach is for Jefferson County to partner with the School District. This partnership would include undertaking a comprehensive feasibility to determine the ideal, sustainable and cost effective aquatic facility or facilities to be constructed in Jefferson County. The feasibility study would also address a pathway forward for a partnership agreement between the two entities to advance the project, including raising capital, if deemed viable.

If planned and designed properly they can serve as important destination and revenue generators to aid in financial operation.

The feasibility study would also address a pathway forward for a partnership agreement between Jefferson County Commission Capital Improvement Program

(if Yes - attach Form 2B).

DESCRIPTION AND JUSTIFICATION  (See instructions for Form 2 - attach additional pages as needed)

This represents a long-term ongoing project targeted at alleviating deficiencies noted in the 2016 park master plan.

The project involves construction of a dog park at James Hite Park to continue Phase II development. Currently, there is no official dog park in Jefferson County. A temporary dog park is located at Sam Michael’s Park. This facility has a devoted user group and clearly fills a need.

However, it does have some fundamental flaws. Most notably it does not provide separate facilities for large and small dogs, as recommended by the American Kennel Club.

The facility also lacks double-gated entries to keep dogs from escaping and to facilitate wheelchair access, as well as seating areas. In addition, the current facility takes up a disproportionately large amount of space in the epicenter of Sam Michael’s Park and is located on land that is suitable for other recreational field facilities that have much more constrictive design constraints.

It is anticipated that multiple components of this improvement will involve partnership initiatives with local user groups assuring their continuous input and cementing their vested interest in the project as well as funding through grants and donations. Thus department resources will be used in conjunction with grant money and matching monies from user groups to achieve these goals. It must be noted that cost reflected in this CIP reflect total expected costs were the department to assume the entire cost with no input from grant or partnership funding.
