Independent Auditor's Report

Honorable Members of the Jefferson County Commission Charles Town, WV 25414

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Jefferson County, West Virginia, (the County), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance accounting principles generally accepted in the United States of America; this includes designing, implementing and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We did not audit the financial statements of the Jefferson County Board of Health, Jefferson County Parks and Recreation, Jefferson County Farmland Protection Board, Jefferson County Emergency Services Agency and the Jefferson County Development Authority. Those statements were audited by other auditors whose reports have been furnished to us, and in our opinion, insofar as it relates to the amounts included for the Jefferson County Board of Health, Jefferson County Parks and Recreation, Jefferson County Farmland Protection Board, Jefferson County Emergency Services Agency and the Jefferson County Emergency Services Agency and the Jefferson County Development Authority, is based solely on the reports of other auditors. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the County's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

One East Campus View Blvd. Suite 300 • Columbus, OH 43235 • (614) 389-5775 • FAX (614) 467-3920 PO Box 875 • 129 Pinckney Street • Circleville, OH 43113 • (740) 474-5210 • FAX (740) 474-7319 PO Box 687 • 528 S. West Street • Piketon, OH 45661 • (740) 289-4131 • FAX (740) 289-3639 PO Box 325 • Huntington, WV 25708-0325 • (304) 521-2648 • FAX (888) 900-1264 Jefferson County Commission Independent Auditor's Report Page 2

Basis for Qualified Opinion on the Aggregate Discretely Presented Component Units

The financial statements of the Jefferson County Parks and Recreations were not audited, and we were not engaged to audit the Jefferson County Parks and Recreation's financial statements as part of our audit of the County's basic financial statements. The Jefferson County Parks and Recreation's financial activities are included in the County's basic financial statements as a discretely presented component unit and represents 4 percent, 5 percent and 20 percent of the assets, net position and revenues, respectively, of the County's aggregate discretely presented component units.

Qualified Opinion

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion on the Aggregate Discretely Presented Component Units paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of the aggregate discretely presented component units of the Jefferson County Commission, Jefferson County, Ohio (the County), as of and for the year ended June 30, 2019, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions

In our opinion, based on our report and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Jefferson County Commission, West Virginia as of June 30, 2019, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 6-16, the Schedules of the Government's Proportionate Share of the Net Pension Liability and the Schedules of Government Contributions on pages 54-57 and the Schedule of Funding Progress and Schedule of Employer Contributions on page 58 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB) who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements.

We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted to opine on the County's basic financial statements taken as a whole. The budgetary comparison for the Assessor's Valuation Fund, and the introductory section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Jefferson County Commission Independent Auditor's Report Page 3

The budgetary comparison of the Assessor's Valuation Fund is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to audit the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison of the Assessor's Valuation Fund is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section listed in the table of contents has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 29, 2020, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial.

BHM CPA Group

BHM CPA Group Inc. Huntington, West Virginia June 29, 2020

As management of the Jefferson County Commission, West Virginia (County), we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2019. Additionally, this discussion and analysis is designed to identify changes in the County's financial position (its ability to address the next and subsequent years' challenges), identify any material deviations from the financial plan or approved budget, and identify issues or concerns.

Since the Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes and currently known facts, it is best read in conjunction with the County's financial statements.

Financial Highlights

- The County's assets exceeded its liabilities at the close of the most recent fiscal year by \$31.3 million (*net position*). Of the total net position, \$8.9 million (*unrestricted net position*) may be used to meet ongoing obligations to citizens and creditors, \$18.6 million is invested in capital assets net of related debt of \$180,107, and \$3.8 million is restricted for specific purposes at the end of FY2019 (*restricted net position*).
- At the end of the fiscal year, the County had no bonded long-term debt obligations. No new debt was added during the fiscal year. The County's adherence to its amortization schedules for existing debt reduced its debt by \$180,108 in payments during the fiscal year. Additional information on the County's long-term debt activity can be found in Note III. I. of the notes to the financial statements.
- The General Fund, on a current financial resource basis, reported a surplus of revenues over expenditures and other financial sources and uses of \$0.7 million. According to WV Code 11-8-6e, the County is permitted to increase the Levy Rate each year without a public hearing as long as the levy rate increase doesn't result in an increase of more than 1% of the prior year projected property tax revenue. Fiscal year 2019 was the fifth consecutive year that the County approved a 0% property tax revenue increase. In FY 2019, the Class II Property levy rate was \$28.60 cents per \$100 of assessed value compared to \$28.50 cents per \$100 of assessed value in FY2018. Because the assessable base valuation increased by 6.3% or \$212 million (from \$3.4 billion in FY2018 to \$3.6 billion in FY2019), tax revenue increased by \$0.3 million from \$13.8 million in FY2018 to \$14.1 million in FY2019.
- At the end of the current fiscal year, the ending fund balance (assigned and unassigned) for the General Fund was \$6.3 million or 26.5% of total General Fund expenditures (excluding transfers to other funds). This represents 3.2 months of General Fund expenditures and complies with the County financial policy requiring a minimum fund balance of 16.67%, and the State's financial policy requiring a minimum fund balance of 10.0% of General Fund operating expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Analysis. The *government-wide financial statements* are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business. There are two (2) basic statements in the government-wide financial statements: The statement of net position and the statement of activities.

The *statement of net position* presents information on all of the County's assets, deferred outflow of resources, liabilities, and deferred inflow of resources. The total of assets plus deferred outflows of resources less the total of liabilities and deferred inflow of resources is reported as net position. Over time, increases or decreases in *net position* may serve as a useful indicator of whether the financial position and condition of the County is improving or deteriorating.

The *statement of activities* presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government, public safety, engineering, buildings and equipment maintenance, and economic and community development. The County has no business-type activities.

The government-wide financial statements report information on all of the non-fiduciary activities of the primary government and its component units. The government-wide financial statements can be found on pages 15 and 16 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into two categories: governmental funds; and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements.

Page 6

However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains twenty-seven (27) individual governmental funds with four (4) major individual governmental funds. The major governmental funds are: the General; Coal Severance Tax; Capital Outlay; and Impact Fees funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for all governmental funds. The basic governmental fund financial statements can be found on pages 17 through 22 of this report. Individual fund data for each of the nonmajor governmental funds is provided in the form of combining statements beginning on page 67 of this report.

The County adopts an annual appropriated budget for its individual General and Coal Severance Tax funds. Budgetary comparison statements are provided for the funds to demonstrate compliance with this budget. Budgetary comparison statements can be found on pages 23 and 24 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found on pages 25 and 26 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are part of the basic financial statements and can be found on pages 27 to 58.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found beginning on page 59 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's overall financial condition and position. In the case of the County, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$31.1 and \$27.9 million at the close of the current and previous fiscal years.

Jefferson County's Net Position

		Governmenta	Increase/(Decrease)			
		2019	2019 over 2018			
Current and other assets	\$	13,931,259 \$; -	12,506,858	\$	1,424,401
Restricted assets		3,781,864		2,463,890		1,317,974
Capital assets		18,755,363		19,143,371		(388,008)
Total assets	-	36,468,486	_	34,114,119	-	2,354,367
	-		_			
Total deferred outflow of resources		1,111,039		1,346,878		(235,839)
Current long-term liabilities		1,230,280		1,126,724		103,556
Noncurrent long-term liabilities	_	3,708,787	_	5,193,915	-	(1,485,128)
Total liabilities		4,939,067	_	6,320,639	_	(1,381,572)
Total deferred inflow of resources		1,384,853		1,203,800		181,053
Net position:						
Net investment in capital assets,						
net of related debt		18,575,256		18,845,911		(270,655)
Restricted		3,781,864		2,463,890		1,317,974
Unrestricted	_	8,898,485	_	6,626,757	_	2,271,728
Total net position	\$	31,255,605 \$	5	27,936,558	\$	3,319,047

The County's governmental activities net position increased by \$3.3 million in the current fiscal year. The increase primarily a result of a decrease in the County's net pension liability of \$1.3 million offset by additional increases and decreases as follows: a \$1.3 million increase in restricted cash; a \$888 thousand increase in accounts receivable for ambulance service fee billings and intergovernmental receivables; offset by a \$303 thousand decrease in asset investments for building improvements and equipment that resulted from depreciation expense and asset disposals; and the remainder is due to changes in deferred outflows and inflows of resources related to pensions.

Net position is divided into three categories – net investment in capital assets, restricted net position and unrestricted net position. The largest portion of the County's net position reflects its investments in capital assets (e.g. land, buildings, vehicles, machinery and equipment) in the amount of \$18.6 million or 59.4%, less any unmatured debt used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

Restricted net position represents 12.1% or \$3.8 million of total net position. Restricted net position is resources that are subject to external restrictions on how they may be used. The County's total unrestricted net position has a balance of \$8.9 million which represents 28.5% of total net positions. Unrestricted net position is used to meet the County's ongoing obligations to citizens, creditors, and employee pension plans.

The County fully implemented GASB Statement 68 and GASB Statement 75. The result is a total of \$1.2 million in net pension liability to fully fund both of the County's pension plans and \$1.8 million in net OPEB liability to fully fund the County's other post employment benefits. This \$3.0 million liability is not a current obligation or expectation of payment but an actuarial calculation of the total to be fully funded in the future. This liability decreases the amount reflected in the unrestricted net position of the County.

Governmental activities: For the current fiscal year, total revenues for the governmental activities were \$30.5 million, while total expenses were \$27.4 million.

The following charts compare the revenue and expenses of the County's Governmental Activities:

Jefferson County Changes in Net Position

	June 30,	2019 and 2018	3		
		Governme	ntal	Activities	Increase/(Decrease)
		2019		2018	2019 over 2018
Revenues					
Program Revenues:

Capital grants and contributions		330,374		225,916	104,458
General Revenues:					
Property taxes		14,178,118		13,848,120	329,998
Income and other taxes		1,931,730		1,926,781	4,949
Miscellaneous		8,230,191		7,909,961	320,230
Total Revenues		30,519,263		29,133,134	1,386,129
Expenses					
Program Expenses:					
General government		12,928,685		12,075,188	853,497
Public safety		12,187,443		12,017,839	169,604
Health and sanitation		92,030		96,603	(4,573)
Culture and recreation		1,976,494		1,651,694	324,800
Social services		50,000		20,000	30,000
Capital projects		168,164		698,793	(530,629)
Education		-		2,837,728	(2,837,728)
Total Expenses		27,402,816		29,397,845	(1,995,029)
Change in net position		3,116,447		(264,711)	3,381,158
Net position-Beginning (restated)		28,139,158		28,403,869	(264,711)
Net position-Ending	\$	31,255,605	\$	28,139,158	3,116,447

The increase in net position for governmental activities totaled \$3.1 million and can be largely attributed to the following:

- That increase is made up primarily of revenue increases of \$1.4 million. An increase of \$0.3 million in tax revenue makes up part of that increase. The tax revenue increase is primarily due to an increase in property tax that resulted from a combination of slightly increasing assessments and modest new construction and maintaining overall expenses flat compared to prior year totals. County offices realized an increase of \$0.7 million in charges for services.
- Offset by a decrease of (\$0.4) million in capital assets, net of depreciation expense, primarily related to depreciation expense.
- General government expenditures decreased by \$2.0 million as a result of the following: \$2.8 million was transferred to the Board of Education for school related capital projects in FY18 and no transfers were made in FY19; public safety expenditures increased by \$0.2 million for added positions in law enforcement and emergency services; and General government expenditures increased by \$0.8 million as a result of wage and benefit increases for employees and other operating expenditures increases.

The County provides a variety of services, and the largest expense is for General Government at 47.0% or \$12.8 million for FY19. General Government includes personnel and operating expenditures for departments like the County and Circuit Court Clerks, Assessor, Tax Office, Engineering, Planning, Zoning and Maintenance. Public Safety makes up the next largest component at 44.7% of FY19 total expenditures or \$12.2 million. Public Safety includes personnel and operating expenditures to maintain the County's police department, emergency services, and the 911 communications center.

Financial Analysis of the Government's Funds

As noted earlier, Jefferson County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$16.1 million, an increase of \$2.6 million from the prior year. Approximately 37.7% of the total ending fund balance (\$16.1 million) constitutes assigned and unassigned fund balance (\$6.1 million), which represents working capital available to support governmental operating needs and future years' expenditures. The remainder of fund balance is restricted to indicate that it is not available for new spending because it has already been committed or is legally restricted as follows:

- 1) *Nonspendable and Restricted* fund balance represents amounts that are either legally restricted by outside parties for use for a specific purpose or are otherwise not available for appropriation (\$0.2 million and \$5.9 million, respectively)
- 2) *Committed* fund balance represents amounts that are reserved for a particular purpose by the Jefferson County Commissioners and would require action by that governing body to release the fund balance from its commitment (\$3.9 million)
- 3) Assigned and Unassigned fund balance represents amounts reserved for tentative management plans that are subject to change or are unreserved (\$4.0 million and \$2.1 million, respectively)

The General Fund is the chief operating fund of the County. At the end of the current fiscal year, assigned and unassigned fund balance of the General Fund was \$6.1 million, while total fund balance equals \$6.3 million. As a measure of the General Fund's liquidity, it is useful to compare the assigned and unassigned fund balance to total fund expenditures. Assigned and unassigned fund balance represents 25.5% of total General Fund expenditures or three (3) months of fiscal expenditures.

The fund balance of the General Fund increased by \$1.1 million during the current fiscal year. This is primarily due to an increase in property tax revenue of \$0.3 million from \$13.8 million in FY2018 to \$14.1 million in FY2019; and a \$0.5 million increase in charges for services from \$3.1 million in FY2018 to \$3.6 million in FY2019.

Below are some key elements for FY2019:

Revenue budgets were under approved or better than expected-

- Property taxes realized in FY2019 were \$296 thousand more than FY2018. The increase
 is a result of slightly higher than expected assessable base figures for both real estate
 and personal property taxes that resulted from new construction on existing properties.
 Property tax increases are an indication that the overall economic conditions in Jefferson
 County are favorable.
- Revenues from charges for services in FY2019 totaled \$3.6 million, a \$0.5 million increase over FY2018. The increase was a result of an audit performed on the County's cable franchise agreement (\$302 thousand) and increased fees received from 911 fee for phone service subscribers (\$142 thousand).

Expenditures (excluding transfers to other funds) were over budgeted or lower than expected-

- Wages and Benefits totaled \$14.4 million and were \$0.2 million lower than budgeted for in FY2019 (\$14.6 million). Management instituted a strict vacancy management procedure whereby all vacant positions were not immediately refilled and were evaluated for need prior to filling them.
- In recent years, fees paid to the regional jail were trending higher than normal due to the national opioid crisis. Regional jail fees were flat from FY2014 through FY2016 at \$1.2 million annually. That cost increased in FY2018 to \$1.6 million. The County budgeted \$1.85 million for this cost in FY2019. The Sheriff and Prosecuting Attorney collaborated on efforts to reduce this cost. Bills received are reviewed for responsible jurisdiction accuracy and less severe offenders were recommended for home confinement release to help reduce this cost. The actual cost for this expenditure in FY2019 returned to the historical trend and was \$1.2 million or \$0.7 million under budget for FY2019.

The Capital Outlay fund has a total fund balance of \$3.9 million. Of the total fund balance, certain amounts are restricted to indicate that it is not available for new spending because it has already been committed or is legally restricted for capital projects as follows:

 Committed fund balance represents amounts that are reserved for a particular purpose by the County Commissioners and would require action by that governing body to release the fund balance from its commitment (\$3.9 million). Included in that \$3.9 million committed balance is a \$2.0 million reserve, which represents the County's minimum fund balance reserve required by financial policy. For use of funds in excess of the minimum fund balance reserve or to transfer monies from the Capital Outlay fund to an operating fund, a unanimous approval from the Commissioners is required and has never occurred. Funds expended from the Capital Outlay fund for capital improvement projects require a majority approval of the Commissioners and are typically determined during the annual budget process.

General Fund Budgetary Highlights

The difference between the original budget and the final amended budget in fiscal year 2019 is a decrease of \$58 thousand in use of fund balance or decreases in expenditures.

		General Fund
Description	-	Increase/ (Decrease)
General government expenditure	\$	189,262
Public safety expenditure		(839,483)
Culture and recreation expenditure		30,700
Social Services		
Capital projects expenditure		45,000
Transfers to other funds		516,775
Total	\$	(57,746)

The net change reflects \$0.8 million in decreases to public safety that resulted from the establishment of the Ambulance Service Fee fund and was offset completely by a reduction of \$0.8 million in charges for services for Ambulance Service Fees; and, an additional transfer of \$0.5 million of the general county fund balance to the capital outlay fund for capital improvement projects. The additional funding was covered by revenues exceeding expenditures and budgeted projections in the current and prior years.

Capital Asset and Debt Administration

Capital assets. Jefferson County's investment in capital assets for its governmental activities as of June 30, 2019, amounts to \$18.8 million (net of accumulated depreciation). This investment in capital assets includes land, buildings, structures and land improvements, machinery and equipment, vehicles, and construction in progress. The total net decrease in County's investment in capital assets for the current fiscal year was (\$0.4) million. Depreciation expense totaled (\$1.2) million. Land, building and improvements included \$0.1 million for renovations to county offices. Other increases included \$0.3 million in vehicle purchases, and \$80 thousand for replacement of the County's financial system and other computer equipment. Jefferson County's Capital Assets

	_	Governmental 2019	Increase/(Decrease) 2019 over 2018	
Land	\$	896,032 \$	896,032	\$ -
Construction in progress		322,725	167,266	155,459

Net of Depreciation

Additional information on the governmental activities fixed assets can be found in Note III. D. on page 38 in the notes to the financial statements.

Long-term debt. At the end of the current fiscal year, the County had \$180,107 in long-term debt outstanding that will be paid for from the capital outlay fund. The County has no bonded long-term debt outstanding. During the fiscal year, the County issued no new notes payable. Payments made on that debt totaled (\$180,108). Other long-term liabilities presented on the government-wide financial statements relate to the County's net other post employment benefit obligations, net pension liability and compensated absences. Additional information on the County's long-term debt can be found in Note III. H. on page 41 of the notes to the financial statements; and a summary of the County's long-term liabilities is listed below:

	June 30,	2019 and 2018	5

Jefferson County Commssion - Long Term Obligations June 30, 2019 and 2018

Economic Factors and Next Year's Budgets and Rates

In FY16, the County's Property Tax Levy Rate was approaching the maximum levy rate allowed by State law. The decision in FY's 15 through FY19 to implement a 0% property tax revenue increase has better positioned the County financially for future years and continues to remain a key factor for future revenue planning. Additionally, the County's assessable base decreased from \$4.0 billion in FY2009 to a low of \$3.0 billion in FY2014. The County is beginning to realize assessable base increases due to new construction and modest economic improvement. In FY2019, the County's assessable base was \$3.6 billion.

The FY20 budget continues to focus on reducing the County's reliance on gambling revenues in its General Fund operating budget by cutting expenditures, transferring excess to capital outlay, diversifying revenues and re-evaluating existing revenues to ensure that the cost of providing services is being covered by fees being charged for those services. From FY2012 to FY2019, gambling revenue decreased from \$5.9 million to \$3.6 million (38.0%) which is approximately \$2.2 million annually in decreased revenue. Gambling revenue has decreased since FY2012 at an average of (6.5%) per year. The reduction resulted from legislation enacted in nearby Maryland which allowed gambling casinos to open and operate. Gambling revenue is not projected to level out and revenue assumptions for FY2020 and FY2021 will continue to

include decreases of (4%) to (5%) or \$140,000-170,000 annually. The FY2020 budget included a restructuring of the fee charged for emergency ambulance services. The fee structure was realigned to ensure that the fee being charged for residential and commercial properties accurately reflects the actual usage of ambulance services by those property types.

Due to increases in property tax revenues, in FY2019 employees received a 1.2% cost of living adjustment at a cost of \$190,000. The Commission recognizes that employees are one of its most valuable assets and recognition of the service provided by County employees will need to be built into future expenditure projections through merit increases and cost of living adjustments. FY2020 and future years are anticipated to include 1-3% for increases to employee salaries in the form of merit increases and / or cost of living adjustments. Additionally, medical insurance costs increased by 5.4% in FY2019 or \$120,000 and are expected to increase annually by 3-6% in future years (\$100,000-\$125,000). The County absorbed the medical insurance premium increase in FY2019.

In response to the national opioid crisis, the County is experiencing increased need for public safety operations personnel. In FY2019, the County included \$280,000 for additional 911 communication center dispatchers and emergency services personnel wages and benefits. It is anticipated that in FY2020 and future years, that need for additional public safety personnel will continue for those departments, the sheriff's office, and the prosecuting attorney's office.

In FY2018, the world's largest stone wool manufacturer and a world leader in stone wool solutions, Rockwool, broke ground on a manufacturing facility in Jefferson County. It is anticipated that this plant will generate economic growth, residential new construction and entice other businesses to locate in Jefferson County.

Since that ground breaking ceremony, there has been public outcry against the construction of this manufacturing plant. The plant is anticipated to be complete and in production by the second quarter of 2020. Rockwool is expected to invest \$150 million in construction of this plant and will generate approximately 150 positions that will range from production line to management.

The County, along with other local taxing authorities, entered into a ten (10) year Payment In Lieu of Taxes Agreement (PILOT) with Rockwool that will generate \$2.0 million in tax revenue by 2029. At the end of that agreement, the equivalent personal property tax shall be equal to the amount of ad valorem property tax chargeable against the tangible personal property of the company with property appraised at salvage value (5% of its book value).

Other fiduciary measures will include reductions in contributions to other agencies, discretionary spending by departments, streamlining departments with overlapping functions to create efficiencies and cost savings, and planning for future capital outlay needs. Doing so will provide for a more sustainable future for the County.

A complete copy of the County's budget is available with additional details on our web site at <u>www.jeffersoncountywv.org</u>

Requests for Information

This financial report is designed to provide a general overview of Jefferson County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Department of Finance, Jefferson County, 124 East Washington Street, Charles Town, WV 25414 or by telephone at (304) 724-3284. Complete financial reports are also available on our web site, www.jeffersoncountywv.org

JEFFERSON COUNTY, WEST VIRGINIA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Fiscal Year Ended June 30, 2019

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$	2,321,810
Capital outlays are reported as an expenditure in the governmental funds but are considered an asset at the government-wide level. This is the amount of capital assets that were purchased during the fiscal year. (Note III-D)		795,117
The net effect of various miscellaneous transactions involving capital assets (i.e. sales and donations) is to decrease net assets. (Note III-D)		(10,922)
Capital outlays are reported as an expenditure in the governmental funds. In the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount of depreciation expense charged during the year. (Note III-D)		(1,197,263)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. This is the difference between prior and current year deferred revenues. (Notes III-B)		
Prior year deferred revenues:\$ 520,827Current year deferred revenues:563,542	-	42,715
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. (Note)		360,215
Governmental Funds report pension contributions as expenditures. However, in the statement of activities, the cost of pension benefits earned net of employee contributions is reported as pension expense and are recognized on the accrual basis of accounting in accordance with GASB 68.		
Amount of pension expenditures at fund modified accrual level\$ 1,008,892Amount of pension expenses recognized at government-wide level(162,879)	-	846,013
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. Decrease in Compensated Absences and OPEB.		(41,238)
Change in net position of governmental activities	\$	3,116,447

JEFFERSON COUNTY, WEST VIRGINIA NOTES TO THE FINANCIAL STATEMENTS For the Fiscal Year Ended June 30, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Jefferson County, West Virginia (the government), conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of significant accounting policies:

A. Reporting Entity

Jefferson County (government) is one of fifty-five counties established under the Constitution and the Laws of the State of West Virginia. There are six offices elected county-wide, which are: County Commission, County Clerk, Circuit Clerk, Assessor, Sheriff, and Prosecuting Attorney.

The County Commission is the legislative body for the government, and as such budgets and provides the funding used by the separate Constitutional Offices except for the offices of the Assessor and the Sheriff, which also have additional revenue sources. The County Clerk's office maintains the accounting system for the County's operations. The operations of the County as a whole, however, including all the Constitutional offices have been combined in these financial statements.

The services provided by the government and accounted for within these financial statements include law enforcement for unincorporated areas of the County, health and social services, cultural and recreational programs, and other governmental services.

The accompanying financial statements present the government and its component units as required by generally accepted accounting principles. In determining whether to include a governmental department, agency, commission or organization as a component unit, the government must evaluate each entity as to whether they are legally separate and financially accountable based on the criteria set forth by the Governmental Accounting Standards Board (GASB). Legal separateness is evaluated on the basis of: (1) its corporate name, (2) the right to sue and be sued, and (3) the right to buy, sell or lease and mortgage property. Financial accountability is based on: (1) the appointment of the governing authority and (2) the ability to impose will or (3) the providing of specific financial benefit or imposition of specific financial burden. Another factor to consider in this evaluation is whether an entity is fiscally dependent on the County.

Discretely Presented Component Units

Discretely presented component units are entities which are legally separate from the County, but are financially accountable to the County, or whose relationship with the County is such that exclusion would cause the County's financial statements to be misleading or incomplete. Because of the nature of services they provide and the County's ability to impose its will on them or a financial benefit / burden relationship exists, the component units are discretely presented in accordance with GASB Statement No. 14 (as amended by GASB Statement 39 and GASB Statement 61). The discretely presented component units are presented on the government-wide statements and are as follows:

The *Jefferson County Board of Health* serves citizens of Jefferson County and is governed by a five-member board appointed by the County Commission. The Board of Health is responsible for directing, supervising and carrying out matters related to public health of the

County. West Virginia statute dictates the County is legally obligated to provide financial support to the board.

The *Jefferson County Economic Development Authority* serves Jefferson County, West Virginia, and is governed by a board comprised of 15 members appointed by the County Commission. The Jefferson County Economic Development Authority develops property on behalf of the County and also provides services to external parties.

The *Jefferson County Parks and Recreation* serves all citizens of Jefferson County by providing recreational services and is governed by an eleven-member board appointed by the County Commission. The County provides financial support to the Board on an annual basis.

The *Jefferson County Emergency Services Agency* serves citizens of Jefferson County by providing emergency ambulance services and is governed by a nine-member board appointed by the County Commission. The County provides financial support to the Board on an annual basis.

The *Jefferson County Farmland Protection Board* serves all citizens of Jefferson County by promoting the protection of agriculture within the County and is governed by a seven member board appointed by the County Commission.

The *Jefferson County Historic Landmarks Commission* serves Jefferson County by preserving historic structures within the unincorporated areas of Jefferson County and by educating the public about the county's heritage. The Jefferson County Historic Landmarks Commission is governed by a five member board appointed by the County Commission. The County provides financial support to the Historic Landmarks Commission.

Complete financial statements for each of the individual component units can be obtained at the entity's administrative offices.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. No business-type activities are provided or reported by the government. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues. Interest on general long-term

debt liabilities is considered an indirect expense and is reported in the Statement of Activities as a separate line.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter is excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. Combining financial statements for the nonmajor governmental funds are included as supplementary information.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied and collectible. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collectible within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, interest and special assessments are susceptible to accrual. Other receipts and taxes become measurable and available when cash is received by the government and are recognized as revenue at that time.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

The government reports the following major governmental funds:

The *General fund* is the government's primary operating fund. It accounts for all financial sources of the general government, except those required to be accounted for in another fund.

The *Coal Severance Tax fund*, a special revenue fund, accounts for revenues and expenditures from a severance tax placed on coal that is distributed to West Virginia counties. The State Auditor's Office requires an annual budget be submitted for approval for this fund.

The *Capital Outlay fund*, a capital projects fund, accounts for revenues and expenditures related to capital outlay expenditures of the County.

The *Impact Fee fund*, a special revenue fund, accounts for revenues collected for schools, parks, fire, EMS and law enforcement capacity improvements.

Additionally, the government reports two fiduciary fund types:

The *Pension Trust funds* account for activities of the County's elective retirement plans, which accumulate resources for pension benefit payments to qualified employees.

The *Agency funds* are custodial in nature (assets equal liabilities) and do not present results of operations or have a measurement focus. Agency funds are accounted for using the full accrual basis of accounting. These funds are used to account for assets that Jefferson County, West Virginia holds for others in an agency capacity.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position

1. Deposits and Investments

Jefferson County, West Virginia's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of less than three months from the date of acquisition.

If it is determined that the available interest rate offered by an acceptable depository in the county is less than the interest rate, net of administrative fees referred to in article six, chapter twelve of the West Virginia Code, offered it through the state board of investments, the county treasurer may, with the approval of each fiscal body whose funds are involved, make such funds available to the state board of investments for investment in accordance with the provisions of article six, chapter twelve of the code.

State statutes authorize the government to enter into agreements with the State Treasurer for the investment of monies. Authority is provided for investment in the Investment Management Board, the West Virginia Board of Treasury or the Municipal Bond Commission, or to invest such funds in the following classes of securities: Any investment company or investment trust registered under the Investment Company Act of 1940, 15 U.S.C. §80a, the portfolio of which is limited: (i) To obligations issued by or guaranteed as to the payment of both principal and interest by the United States of America or its agencies or instrumentalities; and (ii) to repurchase agreements fully collateralized by obligations of the United States government or its agencies or instrumentalities: Provided, That the investment company or investment trust takes delivery of the collateral either directly or through an authorized custodian: Provided, however, That the investment company or

investment trust is rated within one of the top two rating categories of any nationally recognized rating service such as Moody's or Standard & Poor's.

2. Receivables and Payables

Interfund Transactions

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "interfund receivables or payables" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Property Tax Receivable

Trade and property tax receivables are shown net of an allowance for uncollectibles. Current taxes assessed on real and personal property may be paid in two installments: The first installment is payable on September 1 of the year for which the assessment is made, and becomes delinquent on October 1; and, The second installment is payable on the first day the following March and becomes delinquent on April 1. Taxes paid on or before the date when they are payable, including both first and second installments, are allowed a discount of two and one-half percent (2.5%). Taxes that are not paid on or before the date in which they become delinquent, including both first and second installments, interest at the rate of nine percent (9%) per annum is added from the date the taxes become delinquent until the date the taxes are paid. A tax lien is issued for all unpaid real estate taxes as of the date of the sheriff's sale and these liens are sold between October 14th and November 23rd of each year. Sixty (60) days of estimated property tax collections are recorded in revenues at the end of each fiscal year.

All counties within the state are authorized to levy taxes not in excess of the following maximum levies per \$100 of assessed valuation: On Class I property, fourteen and three-tenths cents (14.30 cents); On Class II property, twenty-eight and six-tenths cents (28.60 cents); On Class III property, fifty-seven and two-tenths cents (57.20 cents); and, On Class IV property, fifty-seven and two-tenths cents (57.20 cents). In addition, counties may provide for an election to lay an excess levy; the rate not to exceed statutory limitations, provided at least sixty percent (60%) of the voters cast ballots in favor of the excess levy.

The rates levied by the County per \$100 of assessed valuation for each class of property for the fiscal year ended June 30 were as follows:

Class of Property	Assessed Valuation for Tax Purposes	-	Current Expense
Class I Class II Class III Class IV	\$ - 2,272,882,100 941,438,798 394,218,819	\$	14.30 28.60 57.20 57.20

3. Inventories and Prepaid Items

The cost of governmental fund-type inventories is recorded as expenditures when purchased rather than when consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

4. Restricted Assets

Certain assets of the Impact Fees special revenue funds are classified as restricted assets because their use is restricted by state statutes.

The "reserve" account is used to report resources set aside to make up potential future deficiencies in the regular account.

5. Capital Assets and Depreciation

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of \$10,000 or more and estimated to have a useful life in excess of one (1) year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

The government depreciates the capital assets using the straight-line method. Capital assets depreciation and capitalization policies are defined by the government as follows:

Asset	Straight-line Useful Life	Value for Inventory Purposes	Capitalize/ Depreciate
Land	Not applicable	\$1	\$ Capitalize only
Land improvement	20 to 30 years	1	10,000
Building	35 years	1	10,000
Building improvements	20 to 25 years	1	10,000
Construction in Progress	Not applicable	1	Capitalize only
Equipment	5 to 10 years	1,000	10,000
Vehicles	5 to 10 years	1,000	10,000

6. Compensated Absences

Employees are permitted to carryover a limited amount of vacation and an unlimited amount of sick leave benefits at the end of a calendar year. The amount of vacation and sick leave benefits permitted to be carried over is dependent on the department for which the employee works. No liability is reported for unpaid accumulated sick leave. All vacation pay is accrued when incurred in the government-wide financial statements in accordance with GASB Statement No. 16, *Accounting for Compensated Absences*.

JEFFERSON COUNTY, WEST VIRGINIA NOTES TO THE FINANCIAL STATEMENTS For the Fiscal Year Ended June 30, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

When a permanent full time employee retires, the employee has the option of being paid for accrued vacation only or applying both accrued vacation and sick leave to additional months of service for retirement benefits at the conversion of ten (10) days of leave for one (1) month of additional service credit.

7. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position. The face amount of debt issued is reported as other financing sources. Debt service payments are considered expenditures in the period due.

8. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has three (3) items that qualify for reporting in this category; one which arises only under the modified accrual basis of accounting is *unavailable revenue* for property taxes; and, the *deferred outflows* and *deferred inflows* from pension activities reported in the government-wide Statement of Net Position.

Unavailable revenue. The unavailable revenue is only reported in the governmental funds balance sheet. The county reports unavailable revenues from property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Pensions. Deferred inflows and outflows from pension activities reflect changes in assumptions, differences between actual and expected experience, differences between actual and projected earnings on investments, employer contributions to pension plan after the measurement date, and changes in the employer portion and differences between contributions and the proportionate share of pension expense. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of Jefferson Country's Public Employees Retirement System (PERS) and the West Virginia Deputy Sheriff Retirement System (WVDRS) and additions to/deductions from PERS' and WVDRS' fiduciary net position have been determined on the same basis as they are reported by PERS and WVDRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.
I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

9. Unearned Revenue

Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current and prior fiscal year, the governmental funds reported \$5,473 and \$0 in unearned revenue respectively.

10. Fund Balances

In the governmental fund financial statements, fund balance is reported in five classifications.

The **nonspendable** fund balance includes amounts that cannot be spent because they are either a) not in spendable form or b) legally or contractually required to be maintained intact.

The *restricted* fund balance includes amounts that are restricted to specific purposes when the constraints are externally imposed by creditors, grantors, contributors or the laws and regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.

Amounts that can only be used for specific purposes pursuant to constraints imposed by a formal action of the County's highest level of decision-making authority, the County Commission, and that remain binding unless removed in the same manner are to be reported as *committed* fund balance. Additionally, the approval does not automatically lapse at the end of the fiscal year.

The portion of net resources that has been approved by formal action of the County Commission / other official authorized to assign amounts for any amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed, are to be reported as **assigned** fund balance.

Unassigned fund balance is the portion of net resources in excess of the nonspendable, restricted, committed and assigned balances.

The County Commission is the government's highest level of decision-making authority. The Commission would take formal action to establish, and modify or rescind, a fund balance commitment or to assign fund balance amounts to a specific purpose. The government has adopted a revenue spending policy that provides guidance for programs with multiple revenue sources. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The government has the authority to deviate from this policy if it is in the best interest of the County.

11. Net Position

Net position represents the difference between assets plus deferred outflows of resources less liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The County first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

12. Pensions

For purposes of measuring the net pension liability and deferred outflows / inflows of the resources related to pensions, and pension expense, information about the fiduciary net position of Jefferson County's Public Employee Retirement System (PERS) and Deputy Sheriff's Retirement System (DSRS) and additions to / deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the PERS and DSRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

13. Postemployment Benefits Other Than Pensions (OPEB)

For the purposes of measuring the net OPEB liability and deferred outflows / inflows of the resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Jefferson County Postretirement Health Plan (JCPHP) and additions to / deductions from the JCPHP fiduciary net position have been determined on the same basis as they are reported by the JCPHP. JCPHP recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General fund and the Coal Severance Tax Special Revenue fund. All annual appropriations lapse at fiscal year-end.

Jefferson County, West Virginia prepares its budget on the modified accrual basis of accounting.

Prior to March 2 of each year, the various elected officials submit to the County Commission proposed requests for their respective offices for the fiscal year commencing on July 1. Upon review and approval of these requests, the County Commission prepares proposed budgets on forms prescribed by the State Auditor and submits them to the State Auditor by March 28 for approval. The County Commission then reconvenes on the third (3rd) Tuesday in April to hear objections from the public and to formally lay the levy.

The appropriated budget is prepared by fund, function and department. Transfers of appropriations between departments and revenue related revisions to the budget require approval from the governing commission and then submission to the State Auditor for approval. Revisions become effective when approved by the State Auditor and budgeted amounts in the

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (continued)

financial statements reflect only such approved amounts. The governing body made the following material supplementary budgetary appropriations throughout the year.

Description	_	General Fund Increase/ (Decrease)	Coal Severance Increase/ (Decrease)
General government expenditure	\$	189,262	\$ (22,829)
Public safety expenditure		(839,483)	
Culture and recreation expenditure		30,700	4,500
Social Services			30,000
Capital projects expenditure		45,000	
Transfers to other funds		516,775	52,529

III. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

Custodial Credit Risk

For deposits, the government could be exposed to risk in the event of a bank failure where the government's deposits may not be returned. The government's policy for custodial credit risk is to comply with statutory provisions for depository bond coverage, which provides that no public money should be deposited until the banking institution designated executes a bond with good and sufficient sureties which may not be less than the maximum sum that is deposited in the depository at any one time.

At year end, the government's bank balances were \$ 17,334,308. The bank balance was collateralized by federal depository insurance or with securities held by the pledging financial institution's trust department or agent in the government's name.

A reconciliation of cash and investments as shown on the Statement of Net Position of the primary government and Statement of Net Position of the Fiduciary Funds is as follows:

Cash and cash equivalents - Governmental Funds	\$ 10,195,123
Cash and cash equivalents-restricted - Impact Fees Cash and cash equivalents-restricted - Agency Fund	3,781,864 1,628,573
Total cash and cash equivalents	\$ 15,605,560

III. DETAILED NOTES ON ALL FUNDS (continued)

B. Receivables

Receivables at year end for the government's individual major and aggregate nonmajor funds, and aggregate fiduciary funds, including applicable allowances for uncollectible accounts, are as follows:

				Ambulance		LEO	State		
	_	General	_	Service Fee		Forfeiture	 Grant Fund	_	Total
Receivables:									
Taxes	\$	1,020,016	\$		\$		\$ 	\$	1,020,016
Accounts		529,996		705,624					1,235,620
Intergovernmental		1,072,856	_			12,688	35,177	_	1,120,721
					_				
Gross Receivables		2,622,868	_	705,624	_	12,688	 35,177	_	3,376,357
Less: Allowance									
for Uncollectible	_	(260,076)	_	(320,198)	_		 	_	(580,274)
			-						
Net Total Receivables	\$	2,362,792	\$	385,426	\$_	12,688	\$ 35,177	\$_	2,796,083

Governmental funds report deferred revenue in connection with receivables for revenue that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue reported in the governmental funds were as follows:

General Fund		Unavailable	 Unearned
Delinquent property taxes receivable	\$	563,542	\$
Unearned Revenue Ambulance Fees Paid in Advance	-		 5,473
Total unavailable/unearned revenue for governmental funds	\$	563,542	\$ 5,473

C. Prepaid Assets

Occasional payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenses/expenditures when consumed rather than when purchased. At June 30, 2019, prepaid assets in the General Fund (\$213,894), Ambulance Service Fee Fund (\$1,076) and the Assessor's Valuation Fund (\$3,327) totaled \$218,297.

III. DETAILED NOTES ON ALL FUNDS (continued)

D. Capital Assets

Capital asset activity for the fiscal year ended June 30 was as follows:

				P	rin	nary Governi	ne	nt			
		Beginning								Ending	
	Ba	Balance (restated) Incre				Decreases		Transfers	Transfers		
Governmental activities:			-				-		-		
Capital assets, not being depreciated:											
Land	\$	896,032	\$		\$		\$		\$	896,032

Governmental activities capital assets, net	\$	19,143,371	\$	(388,008)	\$		\$		\$	18,755,363	

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental activities:		
General government	\$	497,642
Public safety		605,726
Culture and recreation	_	93,895
Total depreciation expense-governmental activities	\$	1,197,263

Construction in Progress

The government has two (2) active construction projects as of the fiscal year ended June 30, 2019.

		E	Expenditures		
Project	Funding	<u> </u>	to-Date		
Payroll system replacement	Capital Outlay Fund	\$	26,638		
Wastewater treatment plant decommission	Capital Outlay Fund	_	296,087		
Total construction in progress		\$_	322,725		

III. DETAILED NOTES ON ALL FUNDS (continued)

E. Interfund Receivables, Payables, and Transfers

The composition of interfund balances as of the fiscal year ended June 30 is as follows:

Advances to/from other funds:

Payable Fund	(General Fund	Capital Outlay Fund	_	Total
Jury & Witness	\$	34,187	\$ 	\$	34,187
Ambulance Service Fee		68,252			68,252
Tax Lien Fund		4,376			4,376
Concealed Weapons Fund		564			564
General Fund			722		722
Total due to/from other funds	\$	107,379	\$ 722	\$	108,101

These temporary advances represent funds that were expended prior to their receipt from other funds or other governments. These funds are expected to be received shortly after the beginning of July 2019. The temporary advance will then be reversed.

Interfund transfers:

		Transfers in:								
	-	General		Capital						
Transfers out:		County	_	Outlay		Total				
General County	\$		\$	600,755	\$	600,755				
Coal Severance Fund		77,528				77,528				
Magistrate Court		41,250				41,250				
Assessor Valuation		510,200				510,200				
Dog & Kennel		29,139				29,139				
Gen School		307,276				307,276				
Financial Stabilization Fu	nd			210,013		210,013				
Ambulance Service Fee		68,252				68,252				
Total transfers out	\$	1,033,645	\$	810,768	\$	1,844,413				

The transfers of \$600,755 and \$210,013 from the General fund and the Financial Stabilization fund to the Capital Outlay fund represent contributions toward the respective fund balances for future capital purchases. The transfer of \$77,528 from the Coal Severance fund to the General fund represents funding for grant match requirements, equipment purchases and facility and grounds repairs and maintenance.

The transfers from General School to General fund totaling \$307,276 represent operating support from jail fees. The transfers of \$41,250 and \$29,139 from the Magistrate Court fund and Dog & Kennel fund, respectively, to the General fund represent operating transfers. The

III. DETAILED NOTES ON ALL FUNDS (continued)

transfer of \$510,200 from the Assessor Valuation fund to General County represents wages and benefits for partial staffing of the Jefferson County Assessor's Office. The transfer of \$68,252 from the Ambulance Service Fee fund to General County represents wages and benefits for staff, and other operating expenditures related to billing of the Jefferson County Ambulance Service Fee.

F. Fund Balance Detail

At year-end, the detail of the government's fund balances is as follows:

		General Fund	S	Coal Severance Fund		County Capital Outlay	tal Impact		Non-major Funds		Total
Nonspendable:	-		-		-	•	-		 	-	
Inventory	\$	2,461	\$		\$		\$		\$ 	\$	2,461
Prepaid items		213,894							4,403		218,297
Restricted:											
General government				94,120					1,273,016		1,367,136
Public safety				17,000				165,374	712,892		895,266
Culture and recreation								197,391			197,391
Health and sanitation				15,000							15,000
School								3,419,099			3,419,099
Committed:											
General government		25,132		2,800							27,932
Capital projects						3,894,736					3,894,736
Assigned:											
General government		1,825,400							3		1,825,403
Public safety		1,901,900									1,901,900
Culture and recreation		239,131									239,131
Unassigned:	-	2,095,656	_		-		_			-	2,095,656
Total fund balances	\$	6,303,574	\$	128,920	\$	3,894,736	\$	3,781,864	\$ 1,990,314	\$	16,099,408

Rainy Day Reserve Policy

The County has adopted a fund balance policy which states that the County will maintain a fund balance in the General fund equal to 16.67% of General fund operating expenditures to provide for adequate working capital and to meet unforeseen emergencies. The County Commission has the discretion to determine whether circumstances or events constitute an emergency. Following use of the reserve, the County must restore the reserve to the 16.67% level within a two year period. Should the unencumbered balance rise above the amount stated in the policy, 50% of the excess amount will be placed into a Rainy Day fund or the "Financial Stabilization" fund.

III. DETAILED NOTES ON ALL FUNDS (continued)

G. Leases

Operating Leases

The government had no operating lease for this fiscal year; and, no future minimum lease payments are due.

H. Long-term Debt

The County issues debt to provide funds for the acquisition or construction of major capital assets. General long-term debt was issued during the fiscal year and are direct obligations of the County. The long-term obligations of the County currently outstanding are as follows:

Changes in Long-term Liabilities

				Governmental Activities								
	Date of	Date of	Interest	Beginning						Ending		Due Within
	lssue	Maturity	Rate	Balance		Additions		Reductions		Balance		One Year
Notes Payable:												
General purpose	9/1/2016	3/31/2020	0%	\$ 360,215	\$		\$	(180,108)	\$	180,107	\$	180,107
Other Obligations:												
Net OPEB liability				1,786,280	\$	113,042	\$	(152,491)	\$	1,746,831	\$	
Net pension liability				2,492,117		270,900		(1,534,683)		1,228,334		
Compensated absences				735,411		907,779	-	(909,568)		733,622		
Governmental activities												
Long-term liabilities				\$ 5,374,023	\$	1,291,721	\$	(2,776,850)	\$	3,888,894	\$	180,107

Note: For governmental activities, compensated absences are generally liquidated by the General fund.

During the fiscal year, the County repaid \$180,108 in notes payable originated in 2016 to finance general capital improvement projects. The debt is to be paid for from the Capital Outlay fund.

III. DETAILED NOTES ON ALL FUNDS (continued)

I. Restricted Assets

The balances of the restricted asset accounts for the primary government are as follows:

Impact fee account	\$	3,781,864
Pension 457(b) Trust Fund	d	606,458
Agency funds	1,628,573	
Total restricted assets	\$	6,016,895

IV. OTHER INFORMATION

A. Risk Management

The government is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries insurance with West Virginia Corp for umbrella (general liability) insurance for these various risks.

Workers' Compensation Fund (WCF): Private insurance companies could begin to offer workers compensation coverage to government employers beginning July 1, 2010. Workers compensation coverage is provided for this entity by WV Corp.

B. Related Party Transactions

There are none to report

C. Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds.

The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

The government is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the government's counsel that resolution of these matters will not have a material effect on the financial condition of the government.

It is the opinion of the government's counsel that there are no pending lawsuits or unasserted claims against Jefferson County, West Virginia.

IV. OTHER INFORMATION (continued)

D. Deferred Compensation Plan

The government offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all full-time government employees at their option, permits participants to defer a portion of their salary until future years. The deferred compensation is not available to participants until termination, retirement, death or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights are held for the exclusive benefit of the participants and their beneficiaries. Total asset value, additions and deductions are shown in the fiduciary fund statements in accordance with Governmental Accounting Standards Board (GASB), Statement No. 32, Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans.

E. Other Post Employment Healthcare Plan (non-participating entities only)

Effective July 1, 2014, Jefferson County adopted the provisions of GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. In addition to the relevant disclosures within this note related to the implementation of GASB 45, the financial statement reflects long-term liabilities and related expenses/ (income) in the governmental activities in fiscal years 2019 and 2018 of \$(39,449), and \$36,529, respectively.

In addition to the pension benefits described in Note VI, the Jefferson County Commission provides other post employment benefits (OPEB) to certain employees who qualify as a retiree, were hired prior to July 1, 1998, and meet specific service requirements through a multiemployer defined benefit plan. For fiscal year 2019 and 2018, total premiums paid for retiree medical benefits were \$94,080 and \$73,512 respectively. Employees and retirees eligible to participate in the OPEB plan consisted of the following at June 30, 2019:

Actives Fully Eligible to Retire	7
Actives Not Yet Fully Eligible to Retire	7
Retirees	27
Total Participants	41

Plan Description. The medical insurance is a contributory plan, and eligible retirees may insure themselves and eligible dependents. Medical insurance coverage is provided to retirees based on the employee's hire date, age, and years of full time continuous service.

The County withdrew from the Public Employees Insurance Agency (PEIA) effective July 1, 1988. Current employees hired prior to July 1, 1998 must have ten (10) years of service and must be enrolled in the insurance coverage provided by the PEIA for five (5) years to receive subsidized coverage from the County. It is optional for the County to subsidize post-retirement healthcare for current employees hired prior to July 1, 1998 who do not have five (5) years of PEIA insurance coverage. The County has elected to provide subsidized coverage to these individuals.

IV. OTHER INFORMATION (continued)

The County's portion of the premium is calculated based on the retiree's years of service at the time of retirement, Medicare or non-Medicare eligibility, and dependent coverage. The cost share premium is established by PEIA.

Jefferson County, West Virginia contributes to the West Virginia Retiree Health Benefits Trust Fund (RHBT), a cost-sharing, multiple-employer defined benefit postemployment healthcare plan administered by the West Virginia Public Employees Insurance Agency (PEIA). RHBT issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the West Virginia Retiree Health Benefits Trust, Building 5, Room 1001, 1900 Kanawha Boulevard East, Charleston, West Virginia, 25305-0710 or by accessing the RHBT website at <u>www.peia.wv.gov</u> and selecting Forms and Downloads, Financial Reports.

Funding Policy. The County is required to contribute the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The ARC consisted of the normal cost of \$21,098, and the amortization of unfunded accrued liability of \$91,944. For fiscal years 2019 and 2018, the county contributed \$94,080 and \$73,512 respectively for current health care insurance premiums. The County has not established an OPEB trust to pre-fund future benefits.

During the 1992 Regular Session of the West Virginia Legislature, a portion of the Public Employees Insurance Agency (PEIA) governing statute was amended at section 5-16-22 to require all Non-State agencies to contribute toward the cost of their retired and or surviving dependents of retirees who are eligible to participate in the PEIA benefits program whether the agency itself participates as a group with the PEIA or not.

Annual OPEB Cost & Net OPEB Obligation. The County had an actuarial valuation performed as of July 1, 2017 to determine the funded status of the plan as of that date as well as the County's ARC for the fiscal year ended June 30, 2019.

The annual OPEB costs and net OPEB liability for the current year were as follows:

Service Cost	\$	113,042
Interest Cost		(58,411)
Adjustment to Annual Required Contribution	_	-
Annual Service Cost	_	54,631
Employer Contributions Made		(94,080)
Decrease in Net OPEB Liability		(39,449)
Net OPEB Liability, Beginning of Year	_	1,786,280
Net OPEB Liability, End of Year	\$	1,746,831

IV. OTHER INFORMATION (continued)

The her OF LD habinty for the last live (5) listal years are as follows.							
					Percentage		
					of		
Fiscal Year	An	nual OPEB		Employer	Annual OPEB		Net OPEB
 Ended		Cost		Contribution	Cost Contribute	d	Liability
 6/30/19	\$	54,631	\$	94,080	172%	\$	1,746,831
6/30/18	\$	110,108	\$	73,512	67%	\$	1,786,280
6/30/17	\$	110,849	\$	74,320	67%	\$	1,733,472
6/30/16	\$	111,911	\$	84,506	76%	\$	1,477,030
6/30/15	\$	112,445	\$	86,655	77%	\$	1,477,030

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB liability for the last five (5) fiscal years are as follows:

As of the date of this report, the most recent valuation was performed with a valuation date of July 1, 2017 and covers the valuation for the plan years beginning July 1, 2017 and July 1, 2018.

The funded status of the plan as of July 1, 2017 is as follows:

			Total			UAAL
	Actuarial	Actuarial	Unfunded		Annual	as a %
Actuarial	Value of	Accrued	AAL	Funded	Covered	of Covered
Valuation	Plan Assets	Liability	(UAAL)	Ratio	Payroll	Payroll
Date	(a.)	(AAL) (b.)	(ba.)	(a./b.)	(c.)	[(ba.)/c.]
July 1, 2014	\$ - \$	1,477,030	\$ 1,477,030	0%	Not Available	Not Available

July 1, 2018	\$ - \$	1,746,831	\$ 1,746,831	0%	Not Available	Not Available

Funded Status and Funding Progress

Actuarial valuations for Jefferson County of its Postretirement Health Plan using the Alternative Measurement Method as described in Government Accounting Standard No. 75 ("GASB 75"). The primary purpose of the valuation is to determine the obligations and cost for Fiscal Year 2019. Determinations for purposes other than meeting the Commission's financial accounting requirements may be significantly different from the results herein. The results are estimates based on assumptions about future events. Assumptions may be made about participant data or other factors. All approximations and assumptions are noted. Reasonable efforts were made in the valuation to ensure that significant items in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately. Actual future experience will differ from the assumptions used. As these differences arise, the expense for accounting purposes will be adjusted in future valuations to reflect such actual experience.

Actuarial methods and assumptions. Projections for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods

IV. OTHER INFORMATION (continued)

and assumptions used include techniques that are designed to reduce short-term perspective of the calculations, and are as follows:

Actuarial Cost Method – Entry Age Normal (Alternative Measurement Method)

Asset Valuation Method - N/A

Interest Assumptions - 3.27% discount rate, 3.50% salary rate increase, and 3.00% inflation rate

Mortality - RP-2014 Combined Annuitant Mortality Table for males and females

Turnover - Age-based turnover rates developed based on probability of remaining employed until assumed retirement age

Retirement Age - Average retirement age 62

Trend Rates – Health care premiums & retiree contributions are assumed to increase annually at 4.0% for all years

Election at Retirement - 100% of active employees are assumed to elect PEIA coverage at retirement

Marital Status - 70% of active employees electing PEIA coverage are assumed to be married and to elect spousal coverage with males three years older than females. Actual spouse data was used for current retirees.

V. EMPLOYEE RETIREMENT SYSTEMS AND PLANS

Plan Descriptions, Contribution Information, and Funding Policies

Jefferson County, West Virginia participates in two state-wide, cost-sharing, and multiple-employer defined benefit plans on behalf of county employees. Both systems are administered by agencies of the State of West Virginia and funded by contributions from participants, employers, and state appropriations, as necessary. These plans are as follows:

<u>Cost Sharing Multiple Employer Pension Plans</u> West Virginia Public Employees Retirement System (PERS) West Virginia Deputy Sheriff Retirement System (WVDRS)

West Virginia Public Employees Retirement System

All eligible County employees except those covered by other pension plans participate in the West Virginia Public Employees' Retirement System (PERS), a multiple-employer public retirement system covering employees of the State of West Virginia and other participating political subdivisions.

V. EMPLOYEE RETIREMENT SYSTEM AND PLANS (continued)

The following is a summary of eligibility factors, and benefit provisions:

Period required to vest	Five Years
Benefits and eligibility for distribution	A member who has attained age 60 and has earned 5 years or more of contributing service or age 55 if the sum of his/her age plus years of credited service is equal to or greater than 80. The final average salary (three (3) highest consecutive years in the last 15 years of earnings) times the years of service times 2% equals the annual retirement benefit. For employees hired after July 1, 2015, average salary is the average of the five (5) consecutive highest annual earnings out of the last 15.
Deferred retirement portion	No
Provisions for: Cost of living Death benefits	No Yes

Terminated members Terminated members with at least five (5) years of contributory service who do not withdraw their accumulated contributions may elect to receive their retirement annuity at age 62. For employees hired after July 1, 2015, this age increases to 64.

Funding Policy. The PERS funding policy has been established by action of the State Legislature. Entity contribution rates are established by PERS. State statute requires that plan participants contribute 4.5% of annual earnings. Effective July 1, 2015, newly hired members contribute 6% of annual earnings. The governmental entity contribution rates of 10.0%, 11.0%, and 12.0% of covered payroll for the years ending June 30, 2019, 2018, and 2017 respectively.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the PERS Pension Plan

At fiscal year end, the County reported the following liabilities for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2019, the County reported the following proportions and increase / (decrease) from its proportion measured as of June 30, 2018:

	PERO		
Amount for proportionate share of net pension liability	\$ 1,424,569		
Percentage for proportionate share of net pension liability	0.551620	%	
Increase / (decrease) % from prior proportion measured	0.003695	%	

For this fiscal year, the County recognized the following pension expenses:

Proportionate share of pension expense	\$ 160,383
Net amortization of deferred amounts from changes in proportion and differences between employer contributions and proportionate share of contributions	(4,362)
Total pension expense	\$ 156,021

The County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources: Deferred

		Outflows of Resources		Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$	-	\$	(838,297)
Changes in proportion and differences between County contributions and proportionate share of contributions		41,862		(23,709)
Differences between projected and actual experience		70,668		(3,525)
County contributions subsequent to the measurement date	_	764,561	_	-
Total	\$	877,091	\$	(865,531)

The amount reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions are amortized and will be recognized in pension expense as follows:

Year ended June 30:							
2020	\$	129,286					
2021		(128,504)					
2022		(611,880)					
2023		(141,904)					
Total	\$	(753,002)					

Actuarial Assumptions. The total pension liability in the July 1, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method - Entry Age Normal Cost Method with individually computed accrued liabilities. The Normal Cost is computed in aggregate. Entry is based on hire date.

Amortization Method - Level-dollar amount, fixed period

Deferred

Amortization Period - through FY 2035

Projected Salary Increases - Range from 3.00% to 6.0% per year

Date of most recent experience study - 2009-2014, experience studies are performed at least once in every 5-year period

Mortality Tables -

Pre-retirement males: 100% of RP-2000 Non-Annuitant, Scale AA fully generational; *Pre-retirement females*: 100% of RP-2000 Non-Annuitant, Scale AA fully generational; *Post-retirement healthy males*: 110% of RP-2000 Healthy Annuitant, Scale AA fully generational;

Post-retirement healthy females: 101% of RP-2000 Healthy Annuitant, Scale AA fully generational;

Disabled Males: 96% of RP-2000 Disabled-Annuitant, Scale AA fully generational; and *Disabled Females*: 107% of RP-2000 Disabled-Annuitant, Scale AA fully generational.

Withdrawals – 2% to 30.4%

Asset Valuation Method – 4-year 25% smoothing of actuarial gain or (loss) on trust fund return. Total accumulated deferred gain or (loss) amounts are used to adjust the reported Market Value of Assets to determine the Actuarial Value of Assets.

Retirement Rates – 12%-100%

Disablement Rates – 0-.675%

Family Composition - It is assumed that 85% of males and 80% of females are married, with husbands 3 years older than wives. Remarriage rates are not used.

Accrual of Future Service – It is assumed that members will accrue 1 year of service for each future year of employment.

Inflation Rate – 3.00%

Interest Rate & Expenses - The valuation interest assumption is 7.50%, with no loading for plan expenses

The long-term expected rate of return on pension plan benefits is based upon a determination of the appropriate risk tolerance, the Consolidated Public Retirement Board (Board) adopted broad asset class allocation guidelines for the assets managed for PERS. Policy and Strategic allocations are established on a market value basis.

These asset class ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Rates are summarized in the following table and include the inflation component as follows:

	Policy	Strategic	Long-term Expected Real
Asset Class	Allocation	Allocation	Rate of Return
Domestic Equity	30.0%	27.5%	7.0%
International Equity	30.0%	27.5%	7.7%
Private Equity	0.0%	10.0%	9.4%
TIPS	0.0%	0.0%	2.7%
Core Fixed Income	20.0%	15.0%	2.7%
High Yield Fixed Income	20.0%	0.0%	5.5%
Hedge Fund	0.0%	10.0%	4.7%
Real Estate	0.0%	10.0%	7.0%
Total		100.0%	
Cash (Included in Fixed Income above)	\$19,000,000*		

* IMB Staff has authority to change the cash allocation plus or minus 10%, as necessary in consultation with the appropriate representative(s) from PERS.

The West Virginia Investment Management Board (IMB) calculates total rates of return using the time-weighted rate of return methodology. The time-weighted method determines the rate of return exclusive of the effects of participant contributions or withdrawals. Actual rates of return are net of fees.

Period	Actual	Target
One-year	(0.1)%	7.5%
Three-year	7.0%	7.5%
Five-year	7.0%	7.5%
Ten-year	6.2%	7.5%

Discount Rate. The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that employer contributions will continue to follow the current funding policies. Based on those assumptions, the fiduciary net position of each defined benefit pension plan was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rates of return on pension plan investments were applied to all periods of projected benefit payments to determine the total pension liabilities.

Sensitivity of the County's proportionate share of the net pension liability to changes in the discount rate. The following chart presents the sensitivity of the County's proportionate share of the net pension liability calculated using the discount rate as used in the actuarial valuation, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	1.0%		Discount		1.0%
	Decrease		Rate		Increase
	(6.5%)		(7.5%)		(8.5%)
County's proportionate share of the net		_		_	
pension asset / (liability)	\$ (5,737,030)	\$	(1,424,570)	\$	2,223,713

Trend Information. The required contribution and the percentage of that amount contributed for the past seven (7) years is as follows:

	Annual Pension	Percentage
<u>Fiscal Year</u>	Cost	Contributed
2019	\$ 764,561	100%
2018	\$ 838,372	100%
2017	\$ 903,125	100%
2016	\$ 1,033,926	100%
2015	\$ 1,024,710	100%
2014	\$ 1,079,680	100%
2013	\$ 1,014,046	100%

Pension plan's fiduciary net position. PERS issues a publicly available financial report that includes financial statements and required supplementary information. Detailed information about the pension plan's fiduciary net position is available in a separately issued financial report available at the Consolidated Public Retirement Board's website at <u>www.wvretirement.com</u>. That information can also be obtained by writing to the WV Consolidated Public Retirement Board, Public Employees' Retirement System, 4101 MacCorkle Avenue, SE, Charleston, WV 25304 or by calling (304) 558-3570.

West Virginia Deputy Sheriff Retirement System (WVDRS)

The West Virginia Deputy Sheriff Retirement System (WVDRS) is a cost sharing multiple-employer public employee retirement system created by the State of West Virginia. The Deputy Sheriffs of West Virginia county governments, employed prior to July 1, 1998 could elect to join this plan or remain in PERS. Deputy Sheriffs hired after this date are required to join WVDRS.

The following is a summary of eligibility factors, and benefit provisions:

Period required to vest	Five years			
Benefits and eligibility for distribution	A member who has attained age 60 and has earned 5 or mo years of contributing service or age 50 and if the sum his/her age plus years of credited service is equal to or great than 70. The final average salary (five (5) highest consecutivy years in the last ten (10) years) times the years of service times 2.25% equals the annual retirement benefit.			
Deferred retirement option	No deferred retirement option is available.			
Provisions for cost of living adjustments or death benefits	This plan has no provisions for cost of living adjustments. There are provisions for death benefits.			
Terminated members	Terminated members with at least five (5) years of contributory service who do not withdraw their accumulated contributions may elect to receive their retirement annuity at age 62.			

V. EMPLOYEE RETIREMENT SYSTEM AND PLANS (continued)

Funding Policy. The WVDRS funding policy has been established by action of the State Legislature. Certain fees for reports generated by sheriff's offices are paid to this plan in accordance with West Virginia State Code Section 7-14E-2. WVDRS members are required to contribute 8.5% of their annual covered salary. The contribution requirements of WVDRS members are established and may be amended only by the State of West Virginia Legislature. The governmental entity contribution rate was 12.0% of covered payroll for the fiscal years ending June 30, 2019, 2018, and 2017.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the WVDRS Pension Plan

At fiscal year end, the County reported the following liabilities for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2019, the County reported the following proportions and increase / (decrease) from its proportion measured as of June 30, 2018:

ур. сронало ана населес / (аселенос) нот не р. сронало н		WVDRS	
Amount for proportionate share of net pension asset	\$	197,810	-
Percentage for proportionate share of net pension liability		3.684984	%
Increase / (decrease) % from prior proportion measured		0.343536	%
fiscal year, the County recognized the following pension exp Proportionate share of pension expense	ense \$	es: (68,209	9)
Net amortization of deferred amounts from changes in proportion and differences between employer contributions and proportionate share of contributions		2,496	6

Total pension expense

For this

(65,713)

The County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

C C		Deferred Outflows of Resources		Deferred Inflows of Resources
Net difference between projected and actual earnings on plan investments	\$	-	\$	(199,689)
Changes in assumptions		-		(83,428)
Changes in proportion and differences between County contributions and proportionate share of contributions		74,604		(57,753)
Differences between projected and actual experience		46,873		(310,312)
County contributions subsequent to the measurement date	_	244,331	_	-
Total	\$_	365,808	\$_	(651,182)

The amount reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions are amortized and will be recognized in pension expense as follows:

Year ended June 30:							
2020	\$	(57,827)					
2021		(100,868)					
2022		(203,816)					
2023		(95,444)					
2024		(72,834)					
2025	_	1,082					
Total	\$	(529,707)					

Actuarial Assumptions. The total pension liability in the July 1, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method - Entry Age Cost Method with Aggregate Normal Cost; and the level percentage of aggregate payroll.

Amortization Method – Level dollar, fixed period.

Remaining Amortization Period - Fully amortized by the end of fiscal year 2029

V. EMPLOYEE RETIREMENT SYSTEM AND PLANS (continued)

Projected Salary Increases - Based on years of service in the following table:

Years of Service	Salary Increase %
Up to 2 Years	5.0%
Years 3 - 5	4.5%
Years 6 - 10	4.0%
More than 10	3.5%

Date of most recent experience study - 2011-2016

Mortality Tables -

Active: 100% of RP-2014 Non-Annuitant (sex-distinct), Scale MP-2016 fully generational; *Healthy male retirees*: 103% of RP-2014 Male Healthy Annuitant tables, Scale MP-2016 fully generational;

Healthy female retirees: 100% of RP-2014 Female Healthy Annuitant tables, Scale MP-2016 fully generational;

Disabled Males: 100% of RP-2014 Male Disabled Annuitant table, Scale MP-2016 fully generational; and

Disabled Females: 100% of RP-2014 Female Disabled Annuitant table, Scale MP-2016 fully generational.

Withdrawals - Withdrawal rates predict termination of employment prior to unreduced retirement eligibility. The rates by age are:

Age	Rate	Age	Rate	Age	Rate
20	0.1232	32	0.0810	44	0.0387
21	0.1197	33	0.0774	45	0.0352
22	0.1162	34	0.0739	46	0.0317
23	0.1126	35	0.0704	47	0.0282
24	0.1091	36	0.0669	48	0.0246
25	0.1056	37	0.0634	49	0.0211
26	0.1021	38	0.0598	50	0.0176
27	0.0986	39	0.0563	51	0.0141
28	0.0950	40	0.0528	52	0.0106
29	0.0915	41	0.0493	53	0.0070
30	0.0880	42	0.0458	54	0.0035
31	0.0845	43	0.0422	55	0.0000

Asset Valuation Method – Reported market value of assets as of the actuarial valuation date.

Retirement Rates - Members who become eligible for unreduced retirement benefits prior to age 65 are assumed to have a 20% probability of retiring in the year they first become eligible. For years following the year of first eligibility and prior to attaining age 65, an additional 20% are assumed to retire each year. At 65, 100% of remaining members are assumed to retire. Members who become eligible for unreduced retirement benefits on or after the attainment of age 65 are assumed to retire in the year they first become eligible.

V. EMPLOYEE RETIREMENT SYSTEM AND PLANS (continued)

Other Service Credits- At Normal or Early retirement, a member is assumed to be granted 1.25 additional years of service for benefits due to allowable military service, plus 1.50 additional years for unused annual leave and / or unused sick leave for a total of 2.75 additional years.

Accrual of Future Service - All active members are assumed to complete sufficient hours to accrue one year of full time service in each future year of employment.

Plan Contributions - For interest calculation purposes, all amounts are treated as being deposited on an average of half way through the plan year.

Fee Contributions Under Section 7-14E-2 - For interest calculation purposes, contributed fees are treated as being deposited on an average of half way through the plan year and are estimated based on historical amounts contributed to the Trust Fund.

Disability Rates –

Age	Rate	Age	Rate	Age	Rate
20-25	0.0005	32	0.0028	39-45	0.0060
26	0.0008	33	0.0032	46	0.0056
27	0.0011	34	0.0036	47	0.0052
28	0.0014	35	0.0040	48	0.0048
29	0.0017	36	0.0048	49	0.0044
30	0.0020	37	0.0052	50+	0.0040
31	0.0024	38	0.0056		

It is assumed that members eligible for unreduced retirement will elect retirement prior to becoming disabled. It is also assumed that retired members will not become disabled following retirement due to duty related causes incurred prior to retirement. Disability retirements are assumed to breakdown in the following types:

Duty related full disability	50%
Duty related partial disability	25%
Non-duty related full disability	20%
Non-duty related Partial disability	5%

Marriage Rate and Composition - It is assumed that 90% of all members are married, with males 3 years older than their female spouse.

Inflation Rate – 3.0%

Interest Rate and Discount Rate - Interest Rate is a net return rate of 7.5% annually, net of investment and administrative expenses. The rate is applied to the interest return on Trust Fund assets as well as the discount rate on future expected benefit payments.

The long-term expected rate of return on pension plan benefits is based upon a determination of the appropriate risk tolerance, the Consolidated Public Retirement Board (Board) adopted broad

asset allocation class guidelines for the assets managed for WVDRS. Policy and Strategic allocations are established on a market value basis.

These asset class ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Rates are summarized in the following table and include the inflation component as follows:

	Deliev	<u>Ctrotogia</u>	Long-term
Asset Class	Policy Allocation	Strategic Allocation	Expected Real Rate of Return
Domestic Equity	30.0%	27.5%	7.0%
International Equity	30.0%	27.5%	7.7%
Private Equity	0.0%	10.0%	9.4%
Core Fixed Income	20.0%	15.0%	2.7%
High Yield Fixed Income	20.0%	0.0%	5.5%
Hedge Fund	0.0%	10.0%	4.7%
TIPS	0.0%	0.0%	2.7%
Real Estate	0.0%	10.0%	7.0%
Total		100.0%	
Cash (Included in Fixed Income above)	\$250,000*		
* IMB Staff has authority to change the cash allocation plus or min	us 10% as pocessary in con	sultation with the appropriate	roprosoptativo(s) from M/V/DPS

* IMB Staff has authority to change the cash allocation plus or minus 10%, as necessary in consultation with the appropriate representative(s) from WVDRS.

The West Virginia Investment Management Board (IMB) calculates total rates of return using the time-weighted rate of return methodology. The time-weighted method determines the rate of return exclusive of the effects of participant contributions or withdrawals. Actual rates of return are net of fees.

Period	Actual	Target
One-year	(0.1)%	7.5%
Three-year	7.0%	7.5%
Five-year	6.9%	7.5%
Ten-year	6.1%	7.5%

Discount Rate. The discount rate used to measure the total pension liability was 7.5%. The projections of cash flows used to determine the discount rate assumed that employer contributions will continue to follow the current funding policies. Based on those assumptions, the fiduciary net position of each defined benefit pension plan was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rates of return on pension plan investments were applied to all periods of projected benefit payments to determine the total pension liabilities.

V. EMPLOYEE RETIREMENT SYSTEM AND PLANS (continued)

Sensitivity of the County's proportionate share of the net pension liability to changes in the discount rate. The following chart presents the sensitivity of the County's proportionate share of the net pension liability calculated using the discount rate as used in the actuarial valuation, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	1.0%		Discount	1.0%
	Decrease		Rate	Increase
	(6.5%)		(7.5%)	(8.5%)
County's proportionate share of the net		_		
pension asset / (liability)	\$ (904,848)	\$	197,810	\$ 1,106,232

Trend Information. The required contribution and the percentage of that amount contributed for the past seven (7) years is as follows:

		Annual Pension	Percentage
Fiscal Year		Cost	Contributed
2019	\$	244,331	100%
2018	\$	229,753	100%
2017	\$	200,645	100%
2016	\$	207,263	100%
2015	\$	206,368	100%
2014	\$	225,010	100%
2013	\$	202,415	100%
	_		

Pension plan's fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in a separately issued financial report available at the Consolidated Public Retirement Board's website at <u>www.wvretirement.com</u>. WVDRS issues a publicly available financial report that includes financial statements and required supplementary information. That information can also be obtained by writing to the WV Consolidated Public Retirement Board, Deputy Sheriff Death, Disability and Retirement Plan, 4101 MacCorkle Avenue, SE, Charleston, WV 25304 or by calling (304) 558-3570.

VI. SUMMARY OF DEFERRED OUTFLOW / INFLOW BALANCES

	Total	PERS	WVDRS
Net difference between projected and actual earnings on plan investments	\$ (1,037,986)	\$ (838,297)	\$ (199,689)
Changes in assumptions	(83,428)	-	(83,428)
Changes in proportion and differences between County contributions and proportionate share of contributions	35,004	18,153	16,851
Differences between projected and actual experience	(196,296)	67,143	(263,439)
County contributions subsequent to the measurement date	1,008,892	764,561	244,331

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards*

Honorable Members of the Jefferson County Commission Charles Town, West Virginia 25414

To the Board of Commissioners:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Jefferson County, West Virginia (the County), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated June 29, 2020. Our report refers to other auditors who audited the financial statements of the Jefferson County Board of Health, Jefferson County Farmland Protection Board, Jefferson County Emergency Services Agency and the Jefferson County Development Authority, as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported separately by those auditors.

Internal Control over Financial Reporting

As part of our financial statement audit, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the County's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the County's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist

Jefferson County Commission Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards* Page 2

Compliance and Other Matters

As part of reasonably assuring whether the County's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matters we must report under *Government Auditing Standards*, and which is described in the accompanying Schedule of Findings and Responses as item 2019-001.

Entity's Response to Findings

The County's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Responses. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

BHM CPA Group

BHM CPA Group Inc. Huntington, West Virginia June 29, 2020

Findings Related to the Financial Statements Required To be Reported in Accordance with GAGAS

FINDING NUMBER 2019-001

Material Non-compliance – Expenditures in Excess of Appropriations

Jefferson County incurred expenditures in excess of budgeted amounts for several line items in 2019.

WV Code Section 11-8-26 states in part that; "A local fiscal body shall not expend money or incur obligations in excess of the amount allocated to the fund in the levy order".

The County should establish adequate internal controls over the budgetary process to ensure compliance with the budgetary requirements.

Officials Response:

The County implemented a new financial management system in FY2018-2019. The new system will provide security to prohibit transactions that exceed a department's available budget.

Jefferson County Commission Schedule of Prior Audit Findings For the Fiscal Year Ended June 30, 2019

Finding Number	Title	Status
2018-001	Failure to Submit Budget Revision	Corrected
2018-002	Expenditures in Excess of Levy Estimate	Reissued as Finding 2019-001
