Name: Barbara J. Miller, Director.

Department or Organization: Jefferson County Homeland Security and Emergency Management

Estimation of amount of time needed for appointment: 15 minutes

Date Requested – 1st Choice: September 21, 2017

If a specific date is needed, please provide reason for specific date:

Date Requested – 2nd Choice:

Subject (Wording to be placed on agenda):

1. *Approval of the 2017 Memoranda of Understanding with Jefferson County Board of Education.*
2. *Presentation of CRS (Community Rating System) Class 6 Award by Kevin Sneed, WV Division of Homeland Security and Emergency Management and Heather Davis-Jenkins, FEMA.*

Background Information:

1. These MOUs are signed by both parties annually. This MOU enables Emergency Management to utilize the school buildings for setting up shelters, Points of Distribution, Alternate Command site or other approved uses during a declared emergency. Nathan Cochran has reviewed the content.
2. Jefferson County entered the Community Rating System of the National Flood Insurance Program in 2006 as a Class 9 saving residents in the unincorporated areas of the County 5% off of their flood insurance premiums. In 2012, we advanced to a Class 8 saving 10% off of flood insurance premiums. Because of an advanced commitment of County employees in Homeland Security and Emergency Management, the Engineering Department, and our GIS Department, Jefferson County has now advanced to a Class 6 Community, which will save residents a 20% discount on their flood insurance premiums. Presentation of the award will be by Kevin Sneed, National Flood Insurance Program Coordinator for the WV Division of Homeland Security and Emergency Management and Heather Davis-Jenkins.

Is this a funding request? No

If so, how much?

Recommended motion (Please type out the wording of the motion that you would like the Commission to approve):

1. I move to approve the MOUs with Jefferson County Board of Education, as presented.

Pursuant to Article 12, a Zoning Map Amendment is a procedure to amend the official Zoning Map of the County by changing the zoning designation of a property. In order for a proposed amendment to be approved, the County Commission, with the advice of the Planning Commission, must find that the amendment is consistent with the adopted Comprehensive Plan, or if it is inconsistent, must make findings in accordance with the requirements of 8A-7-8 et seq of the WV State Code. All Amendments to the Zoning Map require a Public Hearing to be held by the Planning Commission for the purpose of making a recommendation to the County Commission. Subsequently, all recommended map amendments require a Public Hearing before the County Commission prior to a final determination.

**REQUEST FOR MAP AMENDMENT/Rezoning
Rankin Properties LLC
District 9, Map 8, Parcel 8.1
September 13, 2017**

Property Owner and Applicant:

Rankin Properties, LLC
Christopher Rankin
99 Maddex Square
Shepherdstown, WV 25443

Request:

Amend the Zoning Map for this 3.56 Acre Parcel Based on its Consistency with the Envision Jefferson 2035 Comprehensive Plan. Currently, the property is Zoned for Residential Growth and this Map Amendment is for General Commercial.

Section of Ordinance:

Article 12 of the Jefferson County Zoning and Development Review Ordinance, as amended.

A Map Amendment is defined as: "An amendment to the Zoning Map which is adopted by reference in the Zoning Ordinance that consists of a change that only applies to a specific property, changing from one existing zoning designation to another existing zoning designation. A map amendment does not permit changes, conditions or alterations to uses permitted within an existing zoning designation as all zoning designations must be uniformly applied to all property which are subject to said designation."

Substantiation for the Request:

1. The request is consistent and very much compatible with the 2015 Jefferson County Comprehensive Plan (Envision Jefferson 2035). This Plan was adopted recently and places this property in the Preferred Growth Area and the Future Land Use Guide identifies this property as a commercial and/or residential property. The plan's applicable recommendations are explained in this narrative.
2. The subject property is within the Shepherdstown Preferred Growth Area and Growth Boundary (UBG per Code). As such, the Comprehensive Plan supports Urban Level Growth in and around this property.

3. Central Water and Sewer services are available in this neighborhood.
4. Since the Zoning Ordinance was adopted in 1988, there have been several significant changes in the neighborhood. The most notable change was the construction of the Connector Road which functions as a bypass around Shepherdstown. This road is adjacent to the Applicant's property and the DOH has constructed an entrance on the Connector Route to serve the property directly. Other changes in the neighborhood include the development of the Maddex Commercial Area (Food Lion, etc.); the construction of the Clarion Conference Hotel and National Training Center; the enhancement to the entrance to the western campus of Shepherd University; the rezoning of the Lowe property located on the other end of the connector road; and, the development of the Colonial Hills Subdivision in this neighborhood. These and other changes are described in this narrative.
5. Since the Zoning Ordinance was adopted in 1988, there has also been a significant change in Transportation Characteristics including the construction of the Connector Route that this property accesses.
6. Current Zoning, Residential Growth, would allow for a dense apartment complex. As such, the map amendment to General Commercial will not have a negative impact in the neighborhood.

Ordinance Required Discussion on:

The compatibility of the proposed change with the Jefferson County Comprehensive Plan; and,
The change of transportation characteristics and neighborhood from when the original zoning ordinance was adopted in 1988.

A. Comprehensive Plan Compatibility

Among the many recommendations in the 2015, Envision Jefferson 2035 Jefferson County Comprehensive Plan, the following sections address items pertinent to this map amendment.

As found on page 13 of the 2015 Comprehensive Plan, there are only 6 Preferred Growth Areas (PGAs) in Jefferson County that are targeted for urban scale growth. The subject parcel is within the Shepherdstown PGAs. The attached map shows the Shepherdstown PGA. The Comprehensive Plan was recently adopted after several years of meetings in various neighborhoods of the County and after extensive work by the Staff, the Steering Committee, Planning Commission and County Commission. As common with communities that have just adopted a new Comprehensive Plan, there will be many ordinance amendments and map amendments processed in order for the map and ordinances to better reflect the new Plan. In this case, both the 2004 Plan and the new 2015 Plan show this property within the Growth Area around Shepherdstown. The new Envision Jefferson 2035 Plan is more specific in that it shows this property within the Preferred Growth Area and specifically identifies the property for Commercial and/or Residential Development.

A main difference between the new Comprehensive Plan and the previous versions of the Plans completed in the 80s, 90s, and 00s, this Plan has a Future Land Use Guide (Map) that specifically delineates properties for future uses and map amendments. The subject property is properly located on the Future Land Use map (Guide) as Commercial or Residential in this 2015 Plan. The property is now zoned for Residential Growth including apartments and the Applicant would like to expand the capabilities of the property to allow commercial opportunities. As shown on this guide, this requested change is consistent with the Future Land Use Guide. As described in other sections of this document, the residential development in the neighborhood around Shepherdstown (particularly Colonial Hills is this immediate neighborhood) will need some commercial development to provide services and to provide an increased tax base to supplement the residential tax base provided by the subdivisions in the area.

The Comprehensive Plan's maps and guides continue to show that this property is read for future development, especially commercial development due to its location. This type of use is what the Commission intended when it was added to the Preferred Growth Area and designated as Commercial or Residential on the Future Land Use Guide.

Page 17 of the Comprehensive Plan describes the various categories of land, including PGAs as follows:

“Land Use Activity Areas

This Plan details four broad types of land use activity within Jefferson County where development is to be targeted over the planning horizon of Envision Jefferson 2035.

Four Comprehensive Types of Land Use Activity within the Designated Areas

Urban Growth Boundaries
Preferred Growth Areas (PGAs)
Villages
Rural/Agricultural Areas

The first two area types addressed below, Urban Growth Boundaries (UGB) and Preferred Growth Areas (PGA) (including one residential growth area), are the sections of Jefferson County where urban scale development is to be targeted over the planning horizon of Envision Jefferson 2035.” Emphasis Added.

A further explanation of PGAs is found on Page 20 of the Plan:

“The PGAs are not intended to be promoted in favor of the UGB for the municipalities. Both areas are expected to be viable areas for development and no policy decision is being made to favor one area over another. Each of the PGA Maps can be found in Appendix F – Maps” Emphasis Added.

In this case, the subject property is both in an Urban Growth Boundary (UGB, as defined by the Code) and the Preferred Growth Area (PGA). Therefore, pursuant to the Comprehensive Plan, this location is prime for development since it is in both of these designated areas, along with the fact that the property fronts on the Route 45 Connector Route and is close to both commercial development and residential subdivisions.

The most definitive section of the Envision Jefferson 2035 that supports this map amendment is found on Page 20:

“a. Shepherdstown PGA (an area located south and west of Shepherdstown)

This PGA is defined predominately by existing residential and commercial development, existing zoning, and access to water and sewer services. It encompasses an area broadly described as properties on either side of WV 45 past the west end of Old Martinsburg Road to Venice Way and to the south along the west side of WV 480 including land on either side of Potomac Farms Road. This area is included within Shepherdstown’s Growth Management Boundary (GMB) and is the primary area outside of

Shepherdstown that this Plan anticipates developing at an urban level even if it remains in the unincorporated area. (Emphasis Added)

It is clear that this section specifically recognizes the subject property as one of the primary properties that is slated for Urban Level Growth. Furthermore, it cannot be over developed since it is a narrow, 3.56 acre parcel. It is ideal for a small professional office or commercial center that will serve the immediate residential area. This type of project will provide for services, while keeping traffic to a minimum. It should provide an area that will be walkable from the Colonial Hills Residential Subdivision.

Finally, the following recommendation is found in the Urban Level Development Recommendations Table starting on Page 30 of the Plan:

“5. Create urban level land uses within the municipalities, UGBs, PGAs, or Villages through rezoning that is consistent with the Plan recommendations.

The requested Map Amendment is also supported by the following Economic Development portions of the 2015 Comprehensive Plan:

“Focusing Economic Development in Municipalities, Urban Growth Boundaries, and Preferred Growth Areas

Envision Jefferson 2035 expects urban level commercial, office, and industrial activity to be located in the municipalities, within the Urban Growth Boundary and Preferred Growth Areas, where the infrastructure is expected to be available to support these uses.” (Page 69)

And on Page 70: Recommendations:

“5. Create a business friendly environment in Jefferson County.

6. Develop methods to promote local business growth which include providing research, support, and marketing resources that would assist business start-ups in Jefferson County.”

Based on these portions of the Envision Jefferson 2035 Comprehensive Plan, the Future Land Use Guide, the Future Development Area Map, and the Shepherdstown PGA Map and the Shepherdstown Growth Boundary (GMB/UGB), this map amendment is consistent and compatible with the Plan. The Consistency with, and Compatibility to the existing Comprehensive Plan and the Future Land Use Guide are the two most important criteria to be used for a Map Amendment.

B. Shepherdstown UGB/GMB, Shepherdstown PGA and Future Land Use Guide

The subject property is located squarely in the core of the all the Growth Areas around Shepherdstown. It is also shown on the Future Land Use Guide (Map, Attached) as Commercial and/or Residential. As there is much planned residential in this neighborhood, the rezoning of this property pursuant to the Future Land Use Guide, will allow needed commercial services to support this residential. The PGA UGM/GMB and Future Land Use Guide are thoroughly discussed in A above. The maps are included in this application.

Based on the location of this property within these areas, the property has already been determined to be an intensive growth area. This area was vetted by the Public, Staff, Planning Commission and County Commission as an area for Urban Level Growth. As stated above, these maps and guides that are a Part of the Comprehensive Plan are the primary resources to be utilized by the Commission to approve a Map Amendment.

C. Sewer and Water

This property is within the Shepherdstown Water and Sewer Service area and is part of the reason that this area has been included within the Growth Areas and designated as commercial on the Future Land Use Map. Colonial Hills Subdivision is also served by Shepherdstown Water and Sewer. Any development on this property will be responsible for the extension of any utilities to the property. As the Comprehensive Plan points out in many sections, Urban Level Growth should be directed into the areas served by central sewer and water. Accordingly, the Plan supports this Map Amendment based on the availability of utilities in this area.

As addressed below, the Shepherdstown Wastewater Treatment Plant has just undergone a tremendous quantity expansion and quality renovation.

D. Change of Neighborhood

It is important to point out that the Zoning Ordinance requires a discussion of the changes in an area since the original Zoning Ordinance was adopted in 1988. Some of these neighborhood changes are recent and others were completed years ago.

The neighborhood has undergone significant changes since the zoning ordinance was adopted. In 1988, the Shepherdstown Wastewater Treatment Plant was nearing capacity and that is probably one of the reasons that more land wasn't zoned for residential or commercial uses at that time. That Shepherdstown Treatment Facility has recently completed a major upgrade and can now support additional growth. Another huge change in the neighborhood very specific to the subject property is that the Route 45 Connector Road (Potomac Farms Drive) bisected the property in 2000/2001. The subject 3.56 acre portion of the property is on the northwest corner (Shepherdstown) side of Potomac Farms Drive's intersection with Route 480.

This property is referred to as one of the properties on 'either side of Potomac Farms Drive' which is slated for development in the Plan. This change will be further discussed in the Change of Transportation Characteristics' part of the petition. Finally, the neighborhood has added a considerable number of residential units in several subdivisions including Maddex, Kensington, Tollhouse Woods and Colonial Hills. Along with this residential growth, other commercial areas have also developed since 1988, leaving a deficit of available commercial land in and around the growth areas of the County.

The following are changes in the neighborhood that would specifically support the requested change from Residential Growth to the General Commercial District:

1. Availability of Public Utilities and Services:

Public Water and Sewer is now available in this neighborhood. Furthermore, the recent Wastewater Treatment Plan expansion has increased its capacity to sustain additional growth in the Growth Area Boundaries. The availability of the capacity is a change for this neighborhood since 1988. As stated earlier, one of the Comprehensive Plan's primary objectives is to funnel growth into areas already served by existing infrastructure such as sewer and water:

'This Plan recommends that new development will take place in areas where infrastructure exists and the extension of services to growth in outlying areas will occur in accordance with the goals and objectives of this Plan.' (Page 27)

The allowance of growth in this area because of both the sewer and water and location within the aforementioned UGB/GMA and PGA is also supported by Recommendation 5a found on Page 30:

"Direct new urban level residential developments to locate in preferred areas within the municipalities, UGBs, PGAs, or Villages where water and sewer services are available." (Emphasis added)

In this case, any needed construction of these services on the property will be paid for by the owner. There would be no unreasonable costs to the community, since the additional utility customers would allow the Town to keep the rates stabilized.

Regarding schools, the property is already zoned for high density residential growth. Therefore, the map amendment will only provide for a lessened impact on the schools, since the addition of the commercial component would reduce the number of residential units permitted.

2. Growth in the Area:

Several large residential projects have been completely developed in this area that would benefit from the additional commercial growth that would be permitted with this map amendment. Four of these, Colonial Hills, Tollhouse Woods, Kensington Townhouses and Maddex Subdivision (near the northwest end of Potomac Farms Road), are residential developments that are approved with a considerable number of residential units. Colonial Hills has just started to develop units again and expect substantial growth in the next couple of years. While the Maddex development has a small amount of commercial services available to the residents in the Maddex Subdivision, Colonial Hills, Tollhouse Woods and Kensington Townhouses are approved mostly as residential developments. As these subdivisions build out, they will most certainly need nearby commercial services available to their residents. Due to the limited area of Shepherdstown and the traffic congestion and parking problems within the town, it is imperative that some commercial services be made available to the residents outside of town. Otherwise, the town will only be surrounded by residential development. Furthermore, these new commercial services should not have a negative impact on the businesses within the Central Business District of Shepherdstown, because of the unique collection of eclectic shops that are already in town. As exhibited in other growth areas around small historic town centers, these types of shops continue to be utilized by both residents and tourists.

The other significant development in the area that was built after the zoning ordinance was adopted is the Clarion Conference Hotel and National Training Center. This hotel and conference center hosts many guests and conferences and provides other governmental office space. The people attending these functions will also be able to utilize the commercial services on this property. A participant at the facility would have the ability to walk to both this property and downtown Shepherdstown for commercial services.

The primary area that is zoned for commercial uses in the Shepherdstown Growth area has mostly been developed. The original zoning map only allowed for limited areas for commercial development in the Shepherdstown Growth Area. These areas were zoned for the Mixed-Use District. Most of that commercial area was the Maddex Farm area that is now almost entirely developed for commercial uses. Therefore, it is vital to change some of the residential land into the general commercial district. Otherwise, commercial growth in the Shepherdstown Growth Area will not be able to meet the demands of the residential properties in that growth area. This map amendment is a perfect opportunity to take some property slated for residential use and allow it to develop commercially. It will also provide for some limited commercial development in the area to serve the residential developments in the area.

Most recently, the changes in neighborhood include the conversion of the old service station (just two properties north of the subject property) to a commercial operation called Sustainable Solutions. Also, the rezoning of the former Henry's Restaurant was approved for a mixed used development of commercial and residential uses. The concept plan for that property was recently approved by the County.

Finally, the owner of this property also owns Christian Caine, a Jewelry Designer in Jefferson County for the past 25 years. They are currently located in the Maddex Square Shopping Center and are strongly considering a move to this property if the map amendment is approved. If the business does not move, similar types of limited uses are contemplated for this site that will be subject to setbacks and buffering requirements.

E. Change of Transportation Characteristics:

Please note that this property is already zoned Residential Growth. As such, there should be little significant difference in traffic from this property if it is rezoned to General Commercial. As a matter of fact, it should provide for less traffic than if this property developed into a permitted apartment complex. Additionally, a small-scale commercial and/or office center would have a more favorable outcome regarding traffic since some of the local residents could utilize the commercial services available if the property is rezoned. The major change to this area from a transportation standpoint was when Potomac Farms Drive (Alternate Route 45) was constructed through the Applicant's property. The State left an area for an entrance into the Applicant's property. This would allow the property to develop into a commercial operation using the road and will still obtain DOH approval for any of the entrances onto the State roads. The size and shape of the property should provide an opportunity to plan a small neighborhood commercial and/or office center that can serve the area. The construction of the connector route was to provide for alternative traffic patterns to alleviate congestion within Shepherdstown. A small commercial center on this property will accomplish that goal.

The addition of this connector road (functionally a bypass), along with the expanded entrance into the western campus of Shepherd University, has considerably changed the transportation characteristics of the expanded neighborhood. These two improvements have allowed traffic to bypass Shepherdstown to keep pass through traffic away from the more congested areas of town. The addition of commercial services in the western and southwestern areas of Shepherdstown should further reduce commercial traffic in the downtown area of Shepherdstown, without negatively affecting the unique collection of shops in town.

business enhancement in Jefferson County; and, the changes in the neighborhood from when the original zoning ordinance was adopted, all support the requested map amendment. The requested rezoning will change this property's zoning designation from the Residential Growth District to the General Commercial District. Thank you for the Commission's consideration of the request.

Dear Mr. Peter Onoszko, President; Ms. Jane M. Tabb, Vice President; Ms. Patsy Noland, Commissioner; Josh Compton, Commissioner and Caleb Wayne Hudson, Commissioner.

I am requesting a refund of the permit fee I paid for Building Permit 17-152. I have decided not to build a house on Lot 3, located at Gardners Lane, Shepherdstown, WV. The lot is identified as: Lot number 3, Tax District: Shepherdstown, Tax Map number 17, Parcel number 9.

I am making this request because Judge Bridget Cohee issued an injunction which prevents me from building on Lot 3.

Thank you for your consideration and understanding.

Sincerely,

Re: Structural Evaluation of Steel Stairs
108 and 110 East Washington Street
Martinsburg, WV

Dear Mr. Polk:

At your request, I visited the above-referenced buildings on August 3, 2017 to inspect and evaluate the exterior steel stairs serving the second floors at the rear. There was doubt regarding their safety, and a question if they could be repaired, or must be replaced.

One run of stairs provides access to a central landing from which stairs rise from each side to the respective buildings. The construction of the stairs consists of rolled steel channels and angles for landing framing and stringers, and diamond plate treads and walking surfaces. The center landing is hung from the brick masonry, and supported by two steel pipe columns. The other four landings are supported by cantilevered steel angle brackets, bolted through the brick masonry.

The original treads, which are severely rusted, had been overlaid with new diamond plate treads at some time, welded to the stringers. Most of the steel framing and the supporting posts are extremely rusted, with significant loss of material and holes in many locations. The worst visible damage is on the middle landing leading to the east building, where the framing and diamond plate walking surface have large voids.

The cantilevered angle brackets and bolts, as viewed below from the exterior, appear to be serviceable, though there could be hidden damage to the tops and backs of the angles, and to the bolts within the walls.

The stairs are unsafe for use in their current condition. Reinforcing or repair is not a feasible option due to the overall poor condition of the framing members. Removing the stairs and replacing them with wood-framed stairs and landings would require more supports which would interfere with exits and require foundation work.

I recommend that the stairs be closed for use, and replaced with steel stairs of similar construction. As part of the new construction, the existing brackets and bolts, and support posts should be replaced, though re-using the existing holes in the masonry would be preferable to drilling new holes, especially close to those existing. The size and locations of the landings, and tread and riser dimensions appear to meet building code requirements, however, the addition of a concrete topping slab has decreased the first riser height. Before fabrication, the new design for the stairs and guards must be confirmed to meet the current International Building Code, including the 100 psf live load and 300 lb point load requirements for stairs.

If you have any questions regarding the above, please contact me.

Respectfully submitted,

Alicia F. McCormick, P.E.

Commissioners,

You will find my resume for consideration for an appointment to serve on the Sheriff's Civil Service Commission (Enclosure 1). I have an extensive background in law enforcement and security with county and federal government agencies. My experience includes working level, supervisory and senior management positions with these agencies. My synopsis of experience is at Enclosure 2.

I have conducted law enforcement disciplinary investigations, presented my findings to review boards, arbitrators and, as a member of management, was appointed as a decision maker on disciplinary boards. These duties resulted from no adverse action taken to recommendations for separation from government service. I have written law enforcement job descriptions, Standard Operating Procedures and participated in committees that developed government- wide Federal rules and regulations.

I am familiar with working within human resources guidelines as it relates to selection, retention and dismissing law enforcement employees. I have also reviewed the qualifications of hundreds of employment applications, interviewed several hundred of these applicants for entry level law enforcement positions and functioned as the hiring official for numerous hires, both sworn and non-sworn. I have also reviewed candidate's qualifications for promotion to supervisory and management level positions. I have also functioned as the employment selection board chair and as the promotion authority.

I am familiar with the professional ethics that govern the conduct of law enforcement officers both on and off duty. I am also familiar with the restrictions imposed on law enforcement officers regarding their official duties and responsibility, including part time employment and political activity.

Contractor's Final Payment for Site Work

Please provide the County Commission with a description of your request or presentation, including any background information:

The Pleasant Hills Subdivision is a three lot subdivision added to an already existing two lot minor subdivision. The project is located on Gibb Farm Road, at the intersection of Uvilla Road, county route 33. Three homes have been constructed on 3 of the 5 lots.

The developer sold the lots and defaulted on the bond and completion of all of the site improvements. The work to be completed consists of the extension of the existing two lot subdivision road and installation of a stop sign. The road is an 18' wide gravel road with a "T" turnaround at the end.

Bond funds in the amount of \$13,034.97 are being held in a bank escrow account at the Bank of Charles Town (account no. xxxx541). We are requesting approval of the final payment for the site work performed by Kable Excavating, LLC in the amount of \$10,150.00. The work will be paid for with funds from the bank escrow account. Charges for staff's time in managing the project will then be charged against the remaining balance and the escrow account closed.

Is this a funding request? **No** If so, how much?

Recommended motion *(Please type out the wording of the motion that you would like the Commission to approve):*

Motion Requested: Move to accept the invoice of Kable Excavating, LLC, in the amount of \$10,150.00, as presented and; invoicing of charges for staff's time in the amount of \$2,884.97 against the Pleasant Hills Subdivision (JCPC File No. 05-28) project and the acceptance of partial reimbursement and then close the bank escrow account.

Please provide the County Commission with a description of your request or presentation, including any background information:

A sinkhole exists on a parcel of land in the Bardane Industrial Park, which is owned by the Jefferson County Commission. The parcel of land (4.26 Acres) is located on Industrial Boulevard next to the West Virginia State Police maintenance facility; and is described as Parcel 1.4, Tax Map 2, Charles Town Tax District; Deed Book 584, Page 419.

Currently stormwater runoff from 307 acres of land is draining into the sinkhole. Under West Virginia Department of Environmental Protection (WVDEP) regulations, the county commission is required to obtain an Underground Injection Control (UIC) permit to be able to continue discharging stormwater runoff into the sinkhole. However, it is preferable to not obtain a UIC permit, which will require ongoing monitoring, testing and reporting to the WVDEP. Plus, it is not a good practice to continue to discharge stormwater runoff into the sinkhole and the groundwater aquifer due to potential contamination.

The County Commission also owns a waste water treatment plant (WWTP) located on the same parcel as the sinkhole. The County Commission was deeded ownership of the land and the WWTP from JEDECO Utilities, Inc., under Deed Book 584, Page 419, on May 11, 1987.

A West Virginia Department of Health Certificate of Approval No. 9976, and a West Virginia Department of Environmental Protection (WVDEP) NPDES permit no. WV0080268 (superseded the original 1978 permit) was issued to the county commission effective March 8, 1988, to own and operate the WWTP. The WWTP is a 24,000 gallon-per-day package treatment plant designed to serve the Bardane Industrial Park.

Subsequently however, under an Office of Environmental Health Services permit no. 10,577, dated September 13, 1989, approval was granted to the Jefferson County Development Authority to construct a gravity sanitary sewer system, force mains and two pump stations to serve the industrial park. It appears that soon after completion of construction the Jefferson County Public Service District (JCPSD) began pumping the sanitary sewage to the City of Charles Town's system, and the WWTP was abandoned as it was no longer needed. The WWTP – and the effluent discharge storage lagoon - was abandoned in the early 1990's and left sitting there locked up inside a chain link fence.

In 2013, the County Commission, under Deed Book 1132, Page 101, dated November 4, 2013, subdivided and deeded a 0.27 acre parcel to the Jefferson County Public Service District (JCPSD). This parcel is adjacent to the abandoned WWTP. According to Susanne Lawton, general manager of the JCPSD, this parcel was used to construct a new sanitary sewer pump station to replace an older and obsolete pump station. The new sanitary sewer pump station is owned and operated by the JCPSD. However, the County Commission appears to have retained ownership of the WWTP and lagoon and the 4.26 acre parcel of land upon which all of it is located.

The WWTP facility was decommissioned this summer in accordance with WVDEP regulations, but the lagoon still remains and still needs to be decommissioned. The engineering staff have been working with WVDEP officials on a satisfactory plan to address the above issues related to the sinkhole UIC permit and the lagoon decommissioning.

The attached plan submitted to the WVDEP involves closing the sinkhole and diverting the stormwater runoff away from the sinkhole and downstream to the existing storm drainage system (see map in attached plan). In order to do this, we will need to drain the lagoon, dry it out, remove the north and south berms and construct a new drainage swale through the lagoon site. The new drainage swale will then connect to the existing drainage swale on the adjacent lot owned by Apple Valley Waste. A drainage easement already exists across this lot (see plat in attached plan).

This agenda request is for approval to advertise a Request for Proposals (RFP) for engineering consulting services to perform survey work and provide the construction plans, specifications and bid documents for a new drainage swale, remediation of the sinkhole, draining and decommissioning the lagoon in accordance with WVDEP regulations, a sediment and erosion control plan, finish grading plan of the site, recordation plat of a drainage easement across the parcel owned by the County Commission, construction stakeout, post construction as-built certifications, a post construction watershed drainage map, and obtain a WVDEP temporary construction stormwater NPDES permit, etc.

The RFP will not be advertised until approval of the attached *WWTP Lagoon Decommission & Sinkhole Remediation Plan* is received from the WVDEP.

Is this a funding request? **Not at this time. A funding request will be made to the County Commission at the time of awarding of a contract for engineering consulting services.**

If so, how much? Advertising funds are in the Engineering, Planning & Zoning budget. However, the engineering consulting costs are not in the budget and are expected to be in the range of \$25,000 to \$40,000.

Recommended motion (*Please type out the wording of the motion that you would like the Commission to approve*):

Move to advertise a Request for Proposals (RFP) for engineering consulting services for decommissioning of the waste water treatment plant lagoon and remediating the sinkhole in accordance with the attached plan submitted to the West Virginia Department of Environmental Protection on August 31, 2017, upon approval of the plan by the WVDEP.

Motion Requested: **None.**

Bardane Industrial Park, Jefferson County

WWTP and Lagoon Decommission Violation no. w17-19-026-mkk
Sinkhole UIC Permit Violation no. w17-19-025-mkk

The following is the proposed plan to decommission the waste water treatment plant effluent discharge storage lagoon and to remediate the sinkhole at the Bardane Industrial Park in Jefferson County (*see attached location map*), as required under the above noted West Virginia Department of Environmental Protection (WVDEP) violations:

1. The proposed plan is to decommission the lagoon by draining it, then removing a portion of north and south lagoon berms and drying out the lagoon. A new drainage swale can then be constructed from the upstream roadway culverts located at Industrial Boulevard, through the lagoon site, to a drainage swale that exists on an adjacent lot at the northern end of the lagoon. There is already a minimum 300 foot wide drainage easement (*see attached existing easement plat*) across this lot that extends to the downstream roadway culverts located at James Burr Boulevard.
2. It is understood that as part of the approval of the plan to drain the lagoon and construct a drainage swale, that we are required by the WVDEP to obtain one grab sample of the sludge/soil in the lagoon and have it tested for the following:

Arsenic	Total Nitrogen
Cadmium	Phosphorous
Chromium	Potassium
Copper	Calcium
Lead	Magnesium
Mercury	pH
Molybdenum	Percent solids (sludge only)
Nickel	Fecal Coliform (sludge only)
Selenium	Volatile Solids (sludge only)
Zinc	
Cyanide	

The results are to be submitted to the WVDEP for review.

3. The lagoon will be drained by pumping the water in the lagoon to the nearby Jefferson County Public Service District (JCPSD) pump station since the WVDEP will not allow the water in the lagoon to be discharged downstream into the stormwater drainage system.
4. Once the new drainage swale is in place, the sinkhole will then be remediated in accordance with applicable guidelines in the WVDEP's Sinkhole Mitigation Guidance document (*see attached guidelines*). Fill will then be placed over the sinkhole and in the drainage swale that currently runs to the sinkhole. The fill will be graded toward the new drainage swale so that the stormwater runoff sheet/surface flows to the new drainage swale and not into the sinkhole (*see attached aerial site map showing proposed drainage swale*).
5. All WVDEP permits required for the project will be obtained prior to beginning construction. All disturbed areas will be stabilized with seeding and mulch, erosion matting, check dams, etc., in accordance with the sediment and erosion control plan that is developed by the consulting engineer for this project.
6. Upon completion of all work, an inspection will be scheduled with the WVDEP.
7. A drainage easement plat will then be recorded at the county clerk's office for the new drainage swale that is constructed across the lot owned by the Jefferson County Commission (the parcel with the sinkhole and lagoon).

In summary, the overall intent of this plan is to carry the stormwater runoff from the upstream culverts at Industrial Boulevard directly to the downstream drainage and stormwater management system – thereby diverting the stormwater away from the sinkhole; which will eliminate the need for an Underground Injection Control (UIC) permit for the sinkhole.

Currently, there are approximately 307.77 acres draining to the sinkhole. When

the project is finished, we expect approximately only 1.5 acres of area will have stormwater runoff sheet flowing over the sinkhole to the new drainage swale. The other 306.27 acres will by-pass the sinkhole.

The following table is an estimated timeline for the generally anticipated steps to performing field surveying, engineering the project, bidding the work, funding the project and constructing the project. This plan/project will require a time extension on the "Rule Authorization" from the current October 1, 2017 deadline for obtaining a UIC permit for the sinkhole:

Sinkhole Mitigation Guidance

August 8, 2005

Purpose:

These sinkhole mitigation designs serve to allow the filling of sinkholes while maintaining recharge to the aquifer, reducing potential contamination threats to groundwater, and eliminating safety hazards at sinkhole entries.

General:

Consideration should be given to the method used for removing contaminated materials from sinkholes and reducing or eliminating direct inflow of surface water into sinkholes. Land treatment methods that improve the filtration and infiltration of surface water before it enters the sinkhole should be used along with the mitigation of the sinkhole.

Before selecting a treatment option the following should be considered:

- Land use
- Existing and planned land treatment
- Sinkhole drainage area
- Dimensions of the sinkhole opening
- Safe outlet for diverted surface water
- Environmentally safe disposal of sinkhole “clean out” material
- Availability and quality of filter material
- Safety of equipment and operators and laborers during installation

Treatment selection should be based on the dimensions of the sinkhole drainage area and include direct sinkhole treatment with surface water control measures and filter strips. Whichever treatment option is chosen, it should avoid surface water ponding or the creation of high soil moisture conditions in excess of 72 hours.

Treatment designs apply to sinkholes with excavated depths of 5 to 25 feet and with drainage areas up to 15 acres. Excavations up to 5 feet are sufficient for most sinkholes. Sinkholes with excavation depths of greater than 25 feet or with uncontrolled drainage areas greater than 15 acres may require adjustments to the treatment measure(s) and/or surface water control measure(s). In these cases, geologic and engineering assistance must be obtained and a site-specific treatment design prepared.

Treatment for Sinkholes with Drainage Areas Less than 5 Acres

Treat the sinkhole using the mitigation design in Figure 1 of this guidance document. The treatment site should be inspected after periods of heavy precipitation because some material may run into adjacent sinkhole voids causing a surface depression. In this case, maintenance will include adding soil material at the surface. The existing land use or practice may continue over the treated sinkhole as long as the treatment is maintained.

Treatment for Sinkholes with Drainage Areas of 5 Acres or More and Having a Safe Outlet

The following additional treatment criteria are applicable to sinkholes with drainage areas of 5 acres or more where a safe outlet can be provided to divert surface water away from the sinkhole. A safe outlet is one that does not erode, divert surface water to another sinkhole or injection well, or cause flood damage to crops, property, buildings, or highways/roads.

Surface water control measures should be situated to reduce the internal drainage area around the sinkhole to less than 5 acres. The choice of surface water control measures is generally based on site-specific conditions.

Treatment for Sinkholes with Drainage Areas of 5 to 15 acres and Having No Safe Outlet

Treat the sinkhole using the mitigation design in Figure 2 of this guidance document. The site should be inspected after periods of heavy precipitation because some material may run into adjacent sinkhole voids causing a surface depression. In this case, maintenance will include adding soil material at the surface. The sinkhole should remain as unused land.

Vegetated Buffer Area

A vegetated buffer area should be installed around the sinkhole to improve runoff water quality by filtration and adsorption of contaminants. The vegetated buffer area should be installed within the sinkhole drainage area and should begin at the treated sinkhole.

The minimum width (in feet) of the vegetated buffer area is determined by multiplying the sinkhole drainage area (in acres) by seven. This width should provide beneficial filtering for some distance outside the sinkhole because surface water runoff may be temporarily held before reaching the treated sinkhole.

Appropriate vegetation should be used for the buffer area. Use native vegetation as much as possible. **DO NOT** use noxious plants or weeds. It is recommended that a plant nursery be consulted for the appropriate vegetation.

Acceptable Materials

Engineering fabric - must meet the applicable requirements of AASHTO M-288.

Aggregates – fine aggregates, gravel, or rock rip rap that conforms to the West Virginia Department of Highways, Standard Specifications for Roads and Bridges, Sections 702, 703, and 704.

Specifications

Use the following guidance for installing a mitigation design for sinkholes and sinkhole areas with drainage areas of less than 5 acres:

1. Remove and properly dispose of materials dumped in and around the sinkhole in accordance with applicable federal, state, and local laws.
2. Excavate loose material from the sinkhole and try to expose the solution void(s) in the bottom. Enlarge the sinkhole, as necessary, to allow for installation of the filter material.

3. Select stone that is approximately 1.5 times larger than the solution void(s). Place the stone into the void(s) forming a competent bridge. Stone used for the bridge should have rock strength equal to, at least, moderately hard (*e.g.*, resistant to abrasion or cutting by a knife blade but can be easily dented or broken by light blows with a hammer). Shale or similar soft and non-durable rock is not acceptable.
4. Place a layer of filter material over the bridge to a minimum thickness of 24 inches. Approximately 35 percent of the material should be larger than the opening between the bridge and the void(s). There should be no discernable large openings around the bridge. The material should be either gabion stone, stone for rip rap, or stone for special rock fill that conforms to West Virginia Department of Highways, *Standard Specification Roads and Bridges*, Section 704.
5. Place a layer of smaller size filter material over the previous layer to a minimum thickness of 10 inches. The size of the material should be $\frac{1}{4}$ to $\frac{1}{2}$ the size of that used in the previous layer. The material should be No. 57 aggregate, which conforms to West Virginia Department of Highways, *Standard Specifications Roads and Bridges*, Sections 703.1.1, 703.1.2, 703.1.3, 704.1.4, and 703.2.1. Unacceptable filter material consists of pea gravel or slags (steel, electromagnetic, or power plant).
6. Place a layer of sand-sized filter material over the previous layer at to a minimum thickness of 10 inches. The sand must be compatible in size with the previous layer to prevent piping. The material should be fine aggregate that conforms to West Virginia Department of Highways, *Standard Specification Roads and Bridges*, Sections 702.1.1, 702.1.2, and 702.1.3.
7. Engineering fabric conforming to AASHTO M 288 may be substituted for the stone and sand filter materials discussed in 5 and 6.
8. Backfill over the top filter layer or engineering fabric with soil material to the surface. This should be mineral soil with at least 12 percent fines. Reuse soil material excavated from the sinkhole as much as possible and place any available topsoil over the backfill. Overfill by about 5 percent to allow for settling.

9. Establish vegetation on the mitigated sinkhole and other disturbed areas of the site.

Use the following guidance for installing a mitigation design for sinkholes and sinkhole areas with drainage areas of 5 to 15 acres:

1. Remove and properly dispose of materials dumped in and around the sinkhole.
2. Excavate loose material from the sinkhole.
3. Place a layer of filter material into the sinkhole, allowing the stone to fill the void(s) below the bottom of excavated sinkhole. The size should be $\frac{1}{4}$ to $\frac{1}{2}$ the size of the void(s). This material can be WVDOH gabion stone, rip rap stone, or special rock fill stone.
4. Place a layer of the same size filter material to a thickness of about $\frac{3}{4}$ TD (TD = total depth) above the sinkhole bottom.
5. Place a layer of smaller size filter material over the previous layer to a thickness of about $\frac{1}{4}$ D. Bring this layer to surface level. The size should be $\frac{1}{4}$ to $\frac{1}{2}$ the size of the previous layer. The material should be No. 57 aggregate, which conforms to West Virginia Department of Highways, *Standard Specification Roads and Bridges*, Sections 703.1.1, 703.1.2, 703.1.3, 703.2.1, and 704.1.4. Unacceptable stone consists of pea gravel or slags (steel, electrometallurgical, or power plant).
6. Shale or similar soft and non-durable rock is not acceptable.
7. Establish vegetation on the mitigated sinkhole and disturbed areas of the site.

Engineering Fabric Requirements for Subsurface Drainage

Engineering fabric used in the mitigation of sinkholes should meet the applicable requirements of AASTHO M 288, Section 7.2

Engineering Fabric Installation

Proper construction and installation techniques are essential to ensure that the intended function of the engineering fabric is fulfilled.

When sewn seams are necessary, the seam strength must be equal to or greater than 90 percent of the specified grab strength, as measured in accordance with ASTM D 4632.

When sewn seams are used for the seaming of the engineering fabric, the thread must be high strength polypropylene, or polyester. Nylon thread is unacceptable.

For Sinkhole Mitigation Design A, place the engineering fabric loosely, with no wrinkles or folds, and with no void spaces between the fabric and the bridge. Overlap successive sheets of engineering fabric a minimum of 12 inches, with the upstream sheet overlapping the downstream sheet.

Prior to covering, the engineering fabric should be inspected to ensure that it has not been damaged (*e.g.* holes, tears, rips) during installation. An engineer or the engineer's designated representative should conduct the inspection. The designated representative should be a certified field inspector.

Damaged fabric must be repaired immediately. Cover the damaged area with an engineered fabric patch that overlaps to 12 inches beyond the damaged area.

Any damaged engineering fabric that cannot be repaired shall be replaced as directed by the engineer.

Place material over the engineering fabric in such a manner as to avoid stretching and subsequently tearing the fabric. Do not drop stone and soil placement from a height greater than one meter. Do not allow stone with a mass of more than 100 kg to roll down the slope of the sinkhole.

Grading the sinkhole slope is not permitted if the grading will result in the movement of the stone directly above the engineering fabric.

Operation and Maintenance

The owner/operator is responsible for maintaining the mitigated sinkhole and sinkhole area. At a minimum, the following maintenance practices should be performed:

1. Mow grass and plantings as necessary to promote vigorous growth.
2. Inspect mitigation measures at least twice a year and after all major rain events. Repairs to the sinkhole mitigation measures should be made promptly were warranted.

16. USE OF FUNDS:

Funds awarded through DJCS may be expended **ONLY** for the purposes and activities specifically covered by the grantee's approved project description and budget. By attaching their signature, the grantee recognizes that any deviations from the original grant budget are unallowable.

INSTRUCTIONS

Completing the Certification Form

Compliance with the Equal Employment Opportunity Plan (EEOP) Requirements

The federal regulations implementing the Omnibus Crime Control and Safe Streets Act (Safe Streets Act) of 1968, as amended, require some recipients of financial assistance from the U.S. Department of Justice subject to the statute's administrative provisions to create, keep on file, submit to the Office for Civil Rights (OCR) at the Office of Justice Programs (OJP) for review, and implement an Equal Employment Opportunity Plan (EEOP). *See* 28 C.F.R. pt. 42, subpt. E. All awards from the Office of Community Oriented Policing Services (COPS) are subject to the EEOP requirements; many awards from OJP, including awards from the Bureau of Justice Assistance (BJA), the Office of Juvenile Justice and Delinquency Prevention (OJJDP), and the Office for Victims of Crime (OVC) are subject to the EEOP requirements; and many awards from the Office on Violence Against Women (OVW) are also subject to the EEOP requirements. If you have any questions as to whether your award from the U.S. Department of Justice is subject to the Safe Streets Act's EEOP requirements, please consult your grant award document, your program manager, or the OCR.

Recipients should complete *either* Section A *or* Section B *or* Section C, not all three.

Section A

The regulations exempt some recipients from all of the EEOP requirements. Your organization may claim an exemption from all of the EEOP requirements if it meets any of the following criteria: it is a nonprofit organization, an educational institution, a medical institution, or an Indian tribe; *or* it received an award under \$25,000; *or* it has less than fifty employees. To claim the complete exemption from the EEOP requirements, complete Section A.

Section B

Although the regulations require some recipients to create, maintain on file, and implement an EEOP, the regulations allow some recipients to forego submitting the EEOP to the OCR for review. Recipients that (1) are a unit of state or local government, an agency of state or local government, or a private business; *and* (2) have fifty or more employees; *and* (3) have received a single grant award of \$25,000 or more, but less than \$500,000, may claim the limited exemption from the submission requirement by completing Section B. In completing Section B, the recipient should note that the EEOP on file has been prepared within twenty-four months of the date of the most recent grant award.

Section C

Recipients that (1) are a unit of state or local government, an agency of state or local government, or a private business, *and* (2) have fifty or more employees, *and* (3) have received a single grant award of \$500,000 or more, must prepare, maintain on file, *submit to the OCR for review*, and implement an EEOP. Recipients that have submitted an EEOP Utilization Report (or in the process of submitting one) to the OCR, should complete Section C.

Submission Process

If a recipient receives multiple awards subject to the Safe Streets Act, the recipient should complete a Certification Form for each grant. Dear Jefferson County Commissioner Onoszko,

It was brought to my attention that you received a letter from some members of Marshall-Holley-Mason American Legion Auxiliary Unit # 102 about the removal of a Confederate plaque.

The American Legion and the American Legion Auxiliary are non-political and non-partisan Veterans organizations, serving and honoring all veterans. I have contacted this Auxiliary Unit board and informed them that it is a violation of our Charter to represent The American Legion or the American Legion Auxiliary in a political or partisan matter.

Sincerely yours,

3. Questions or Concerns

I want to express my opinion on the draft fireworks ordinance. For the most part I think the draft regulations are appropriate. However I am concerned about allowing fireworks until midnight (or 12:30am) on July 3rd and 4th. Midnight is pretty late to be shooting off fireworks when people are trying to sleep. Since West Virginia does not have many restrictions on consumer fireworks, this means some pretty loud fireworks could be set off well past the bedtime of many children (and parents) who have to work or go to school early the next day.

In my opinion, with the exception of New Years Eve/Day, fireworks should not be permitted after 11pm.

I would have preferred to share this opinion in person at the meeting later this month, but 9:30am during the week is not a very good time for a working individual to attend a hearing.

To: ALL WEST VIRGINIA COUNTY COMMISSIONERS

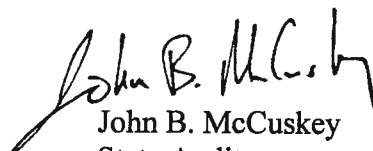

We recognize some of our local boards and authorities are not aware of certain laws, regulations and reporting requirements for which they are responsible. New standards are established, existing ones may have been changed, and the people who hold those positions of responsibility change as well. Therefore, the State Auditor's Office will once again be providing training to members and staff of the municipal and county boards and authorities, free of charge.

Because we do not know what boards and authorities you have within your local government, we are asking you to please forward this information to the people in those positions. We will be providing these free training seminars at five different locations throughout the state. Although they are free to attend, we are asking everyone to pre-register for our planning purposes.

Not only will attendees benefit from the sessions we offer, but also they will have the opportunity to network with others in similar positions, with similar concerns. The training we are offering has been designed to assist those on boards and authorities with skills and knowledge, for adequate controls and oversight, relating to the financial reporting and internal control process.

Enclosed you will find the agenda and registration form for these free training events. Please contact a member of our Local Government Services staff at 304-627-2415, if you have any questions.

The District can pay all disbursements for July for both sewer and water, but will need to collect \$11,200 to cover the previous disbursements for water.

Action: No action required by the Board.

Request from Royal Vendors for wastewater treatment waiver

Don Korrell from Royal Vendors updated the Board. District staff filed the modification for the permit and now waiting for notification for the 30 day public comment period. He also stated that Royal Vendors has changed chemical suppliers to see if that change affects the Silver results. Mr. Korrell informed the Board they have taken two different samples and sent to two different labs. The results came back different from each, one showing Silver as non-detect and the other showing .05. They have taken two more samples and sent to each lab again to see if similar results come back.

Action: No action required by the Board.

Discuss sewer collection and transmission project, Case No. 16-0616-PSD-PC-CN

Ms. Lawton stated that staff and professionals are continuing to work on the administrative duties for the project. To move forward with the loan from USDA, the railroad license with Norfolk Southern needs to be completed. Ms. Lawton requested the Board approve resolution number twelve (12) to pay \$38,000 out of the \$660,000 loan for expenses related to the project. Mr. Strider read resolution #12 as follows:

RESOLUTION OF THE PUBLIC SERVICE BOARD OF THE
JEFFERSON COUNTY PUBLIC SERVICE DISTRICT
APPROVING INVOICES RELATING TO ENGINEERING AND
OTHER SERVICES FOR THE SEWER TRANSMISSION
IMPROVEMENTS PROJECT AND AUTHORIZING PAYMENT
THEREOF IN THE AMOUNT OF \$38,000.

Action: Motion by Mr. Strider and seconded by Mr. Weese to approve the resolution 12 as read totaling \$38,000.

There was a brief discussion held. Mr. Forshee questioned if there was an appraisal done to come up with the \$38,000 fee. Ms. Lawton stated she thought an appraisal was done, but would have to look into how the value was determined.

Action: Mr. Forshee amended the motion to put the approval of resolution on hold until after December 31st to give Charles Town, Ranson, and the Public Service Commission time to evaluate what has been brought forth to them in the consolidation matter. This motion died due to lack of a second.

The original motion was approved 2-1. Mr Forshee voted against.

Discuss Resolution 2017-012 from Charles Town regarding asset acquisition

Ms. Lawton stated her opinion that this is not a good deal for District customers nor the County as there will be no County representation if Charles Town takes over the utility and since there is no rate decrease for PSD customers and no guarantee that Charles Town rate payers rates will not increase. She believed this is being rushed through without looking into other options for a consolidation with equal representation for each entity in a new utility structure. Mr. Forshee asked Ms. Lawton if her memo she had prepared for this item was her opinion and if so, it should be revised to include only facts not opinions. Ms. Lawton stated all GM memos include facts along with the GM's opinion so she was not revising.

Action: No action required by the Board.

NEW BUSINESS

Discuss Glen Haven Water System notice of violations from Bureau of Public Health

Ms. Lawton provided a brief explanation on the violation the District received for Glen Haven. She stated that staff had collected samples for Radiologicals as they normally do and sent to the regular lab, Reliance Laboratories of Martinsburg. The results came back non-detect, but unbeknownst to the District, Reliance Labs sent the Radiological samples to another lab which had very recently lost its WV State certification for Radiological testing. Ms. Lawton stated that staff did not become aware of this until the violation was received. A letter was sent to the District from the Bureau for Public Health Kearneysville Office explaining the mishap and mentioning the Districts excellent track record of many years. Ms. Lawton stated the District's drinking water is safe to drink.

Action: No action required by the Board.

Review March 6, 2017 approved terms of representation for Robert Rodecker and consider if the scope of such agreement should be extended to cover representation in the matter of the Jefferson County Commission's filing to dissolve the District in PSC Case 17-0915-PSWD-PC

Ms. Lawton explained that in March 2017, the board approved Robert Rodecker to represent the District in consolidation discussions, but she wasn't sure if the agreement included representation in the dissolution case at the Public Service Commission. The Board will discuss this item in executive session at the end of the meeting.

Action: No action required by the Board.

developer of Beallair, was in the audience to request an addenda to the original agreement to include Phase 6.

Action: Motion made by Mr. Strider and seconded by Mr. Weese to approve the addenda to Beallair's Alternate Mainline Extension Agreement to include phase 6.

Mr. Forshee asked if the District has received plans for phase 6. Mr. Wiley informed the Board that the District has approved the plans for phases 1-5 and lots 1-14 in phase 6.

Motion was approved unanimously.

Discuss step 2 rates per PSC case 15-1338-PSD-PC

Ms. Lawton gave an overview of the step 2 rates that will be taking effect for all services rendered after August 16, 2017 which will show up on the October customer bills. The District rates will decrease from \$17.85 to \$16.61 per 1000 gallons. Mr. Forshee suggested putting a note on the customer bills informing them of the decrease.

Public Comment

Patsy Noland stated she does not enjoy night meetings and that is the reason she does not attend the PSD meetings very often, but she does listen to the audio on the District's website and is here other times gathering information from staff. Ms. Noland wished Ms. Lawton a happy retirement and wanted to personally and publically thank her for providing information to her and answering questions when asked. She stated Ms. Lawton has been a great General Manger for the District and has built a wonderful and dedicated staff.

Todd Milliron commented on the SB234 account and his interpretation of what the account is. He stated the PSC had clearly identified in the March order the District needed \$525,099 in total cash available by August. As far as he is concerned, the District should stop collecting for the account since it's been collected.

Andrew Johnson commented on the personal insults that were stated in tonight's meeting by the General Manger. He also stated that the "followers" as they have been called are not following a person rather an idea of not being treated fairly or having representation.

Matt Piepenburg, a former District employee, thanked Ms. Lawton for bringing him and GIS into Jefferson County and wished her a happy retirement.

Mike Wiley, from Beallair Homes and also speaking on behalf of Jefferson County Citizens for Economic Preservations, congratulated Ms. Lawton on her retirement and appreciated her honesty, pleasantness, and fairness over the years. He also urged the District to intervene in the dissolution case at the Public Service Commission because this is not the right decision. This decision will impact Beallair and other developments in the County. Mr. Wiley also stated the District's sewer transmission project should continue to be pursued.

Jacquelyn Milliron wished Ms. Lawton a happy retirement. She also stated that as one of the authors of Senate Bill 81, along with help of Senator Snyder, she is happy to see 2 rate payers on the Board along with a County Commission liaison who is also a rate payer. She commented that the sewer project would be tearing up the Breckenridge community and that is her main concern other than the rates. She stated that there will be developers benefitting, but not paying for it. Ms. Milliron also questioned where the generator is at the Breckenridge pump station.

Action: Motion made by Mr. Strider and seconded by Mr. Weese to convene in executive session for the purpose of discussing litigation and contract negotiations. Unanimously approved.
