The two attached Deeds of Easement for (LLL) have been approved by the Jefferson County Farmland Protection Board (Board) and reviewed and approved by the Planning and Zoning Office and the Office of the Prosecuting Attorney. Either easement is ready to close, and the Board plans to close only one of the options described below.

The Farmland Protection Board funds have been committed for the LLL easement since February 2018. The Board made a formal commitment with T.L. Magaha & Sons to complete the easement no later than May 30, 2020.

Easement Option No. 1 is for the 280.599 acre property to be purchased with matching funds from the American Battlefield Protection Program, with a cost to the Board of \$550,859.90.00

Easement Option No. 2 is for 175.827 acres of the property with a cost to the Board of \$690,473.00. The Board has an option to purchase the easement on the remaining 104.772 acres of the property in 2021 for the same price of \$3,927 per acre.

The Board was awarded \$613,930 through the American Battlefield Protection Program (ABPP) in November 2018 for the easement purchase and costs, subject to the qualifying appraisal. Due to numerous changes in ABPP leadership and staff and delays, the ABPP easement is in danger of not being completed by the deadline of May 30.

The Board is fully prepared to complete either easement. The preference is for the ABPP easement.

(f) Extensive commitment of land resources as required by golf courses, racetracks, tennis clubs, baseball, soccer and other ball fields and similar uses whether or not considered to foster tourism is prohibited.

7. **Residential Dwellings and Non-Agricultural Structures.** Grantor and Grantee acknowledge that no residential dwellings or other non-agricultural structures currently exist on the Protected Property, and no residential dwellings or other non-agricultural structures shall be permitted on the Protected Property in the future.

DEED OF CONSERVATION EASEMENT

8. **Transfer of Development Rights.** All other development rights not specifically reserved under this Deed of Easement are hereby extinguished and shall not be transferred to any other property pursuant to a transfer of development rights program or any other means or used to calculate permitted development density. The Protected Property and any portion thereof shall not be included as part of the gross area of other property not subject to this Deed of Easement for the purposes of determining density, lot coverage, or open spaces requirements under otherwise applicable laws, regulations or ordinances controlling land use and building density. No development rights that have been encumbered or extinguished by this Deed of Easement shall be transferred to any other lands pursuant to a transferable development rights scheme or cluster development arrangement or otherwise.

9. **Subdivision.** It is the intention of Grantor to protect the open space values of the Protected Property. Accordingly, subdivision of Lot 2R or Lot 4 is prohibited.

10. **Maximum Impervious Surface Coverage.** The total surface coverage of impervious surfaces on the Protected Property shall be subject to the limitations defined below.

(a) Impervious surfaces shall be defined as any material which covers land and inhibits the percolation of storm water directly into the soil, including, but not limited to, buildings, roofs, the area covered by permanent or nonpermanent structures, macadam and pavement, gravel and stone driveways and parking areas.

(b) The total surface coverage of the Protected Property by all impervious surfaces, including structures associated with agricultural uses as permitted under Part I - Section 3 (Agricultural Structures) of this Deed of Easement, driveways and parking areas, shall not exceed the square feet limitations stated below, which in aggregate is less than two percent (2%) of the total acreage of the Protected Property.

(c) The total impervious surface coverage of Farmland Parcel 2RB shall not exceed 66,060 square feet.

(d) The total impervious surface coverage of Lot 4 shall not exceed 87,120 square feet.

11. **Removal of Natural Resources.** Ditching, draining, diking, filling, excavating, removal of topsoil or sand, gravel or rock on the Protected Property are prohibited, except when such activities are conducted in order to carry out activities permitted under this Deed of Easement, are in accordance with a conservation plan, do not exceed one (1) acre in total area, and result in restoration of the area within a reasonable time period. The exploration, development, mining or extraction of minerals, oil, gas or any other hydrocarbon substance from the Protected Property is prohibited.

12. **Other Construction.** Except for agricultural structures permitted under Part I - Section 3 (Agricultural Structures) of this Deed of Easement, there shall be no constructing or placing of any buildings, manufactured homes, swimming pools or other recreational facilities, commercial lighting or any other temporary or permanent structure or facility on or above the Protected Property. Existing roads as identified in the Baseline Documentation Report may be maintained and repaired in their current state. New roads may be constructed only if they are necessary for agricultural operations. Paved roads are subject to the impervious surface limitations

DEED OF CONSERVATION EASEMENT

referenced in Part I - Section 10 (Maximum Impervious Surface Coverage) of this Deed of Easement.

13. **Fences.** Existing fences may be repaired and replaced, and new fences may be built on the Protected Property as necessary for agricultural operations on the Protected Property, including customary management of livestock and to delineate the boundary of the Protected Property.

14. **Signs.** Except for no trespassing signs, for-sale signs, signs identifying this Deed of Easement, and signs to advertise an on-site activity or business, all other signs, advertisements and billboards of any nature are prohibited. The permitted signs may not exceed 15 square feet per sign. Notwithstanding the foregoing, signs that advertise agricultural products produced on farms in the vicinity of the property may be permitted with the prior written approval of Grantee.

15. **Wastes.** Dumping or storage of trash, garbage, hazardous substances, abandoned vehicles or machines or other material on the Protected Property is prohibited. However, composting of biodegradable material used or produced on the Protected Property to improve gardens and pastures on the Protected Property is permitted so long as composting and its application is consistent with a conservation plan.

16. **Utilities.** Grantor shall not sell, lease or grant an easement covering any portion of the Protected Property where such sale, lease or easement is for the purpose of construction and installation of underground or above-ground utility systems, including, but not limited to, water, sewer, power, fuel, sewerage pumping stations, and cellular telephone or other communication towers. Grantor may install utilities necessary to serve agricultural structures permitted under Part I - Section 3 (Agricultural Structures) of this Deed of Easement.

17. **Streams, Wetland and Water Bodies.** There shall be no pollution, alteration, depletion of surface water, natural water courses, lakes, ponds, marshes, wetlands, springs, subsurface water or any other water bodies, nor shall there be activities conducted on the Protected Property which would be detrimental to water purity or which could alter natural water level and/or flow in or over the Protected Property. Nothing in this Section shall prohibit the creation or dredging of farm ponds and allow the reasonable use of the available water of the Protected Property for agricultural purposes permitted by this Deed of Easement. Structures and facilities associated with irrigation, farm pond impoundment, and soil and water conservation on the Protected Property shall be considered an agricultural use. Expansion and construction of ponds and structures shall be in accordance with the conservation plan. Farm ponds shall not exceed two (2) acres in area.

19. **Irrigation Systems.** Subject to the provisions of Part I - Section 3 (Agricultural Structures) of this Deed of Easement, and Part I Section 10 (Maximum Impervious Surface Coverage) of this Deed of Easement:

(a) Grantor is permitted to construct, install, extend, locate, access, maintain, and repair above ground and below ground irrigation systems and supporting utility services that power the irrigation system, including but not limited to, piping, pumps, hydrants, cement pads,

DEED OF CONSERVATION EASEMENT

covered structures for diesel or electrical pumps, access and cleanout points, and other components, in and along roads on the Protected Property, either existing as of the date of this Deed of Easement or as thereafter altered or changed with the written approval of Grantee, and in other locations on the Protected Property as Grantor deems necessary in its reasonable discretion to operate and maintain permitted agricultural activities under this Deed of Easement.

(b) Notwithstanding the foregoing, once constructed and installed, access, maintenance, and repair of the below ground and/or above ground irrigation system within previously-disturbed areas may be conducted without the prior written approval of Grantee.

II. GENERAL PROVISIONS

1. **Access.** No right of access by the general public to any portion of the Protected Property is conveyed by this Deed of Easement.

2. **Rights of the Grantee.** To accomplish the purpose of this Deed of Easement the following rights are conveyed to Grantee or its agent by this Deed of Easement:

(a) To preserve and protect the Conservation Values of the Protected Property;

(b) To enter upon the Protected Property on a yearly basis (or more frequently if violations are observed or suspected) in order to monitor Grantor's compliance with and otherwise enforce the terms of this Deed of Easement; provided that such entry shall be upon prior reasonable notice to Grantor, and Grantee shall not unreasonably interfere with Grantor's use and quiet enjoyment of the Protected Property; and

(c) To prevent any activity on or use of the Protected Property that is inconsistent with the purpose of this Deed of Easement and to require the restoration of such areas or features of the Protected Property that may be damaged by any inconsistent activity or use, pursuant to Grantee's Remedies, below.

3. **Grantee Notification/Approval.** Grantor reserves for himself the right to engage in any and all activities not expressly prohibited herein and not inconsistent with the purpose of this Deed of Easement without seeking the approval of Grantee.

4. **Grantee's Remedies.**

(a) **Notice of Violation: Corrective Action.** If Grantee determines that Grantor is in violation of the terms of this Deed of Easement or that a violation is threatened, Grantee shall give written notice to Grantor of such violation and demand corrective action within 60 days sufficient to cure the violation and, where the violation involves injury to the Protected Property resulting from any use or activity inconsistent with the purpose of this Deed of Easement, to restore the portion of the Protected Property so injured to its prior condition in accordance with a plan approved by Grantee.

DEED OF CONSERVATION EASEMENT

(b) **Injunctive Relief.** The Grantee, its successors or assigns shall have the right to enforce these restrictions by injunction and other appropriate proceedings, including, but not limited to, the right to require Grantor to restore the Protected Property to the condition existing at the time of this Deed of Easement in order to correct any violation(s) of this Deed of Easement. Grantee's rights under this Section apply equally in the event of either actual or threatened violations of the terms of this Deed of Easement, and Grantor agrees that Grantee shall be entitled to the injunctive relief in addition to such other relief to which Grantee may be entitled, including specific performance of the terms of this Deed of Easement, without the necessity of proving either actual damages or the inadequacy of otherwise available legal remedies.

(c) **Costs of Enforcement.** Any costs incurred by Grantee in enforcing the terms of this Deed of Easement against Grantor, including without limitation costs of suit and attorneys' fees, and costs or restoration necessitated by Grantor's violation of the terms of this Deed of Easement shall be borne by Grantor. If Grantor prevails in action to enforce the terms of this Deed of Easement, Grantor's costs of suit, including, without limitation, attorneys' fees, shall be borne by Grantee. Costs incurred by Grantee in enforcing the terms of this Deed of Easement against third parties shall be borne by Grantee.

(d) **Forbearance.** Forbearance by Grantee to exercise its rights under this Deed of Easement in the event of any breach of any term of this Deed of Easement by Grantor shall not be deemed or construed to be a waiver by Grantee of such term or of any subsequent breach of the same or any other term of this Deed of Easement or of any of Grantee's rights under this Deed of Easement. No delay or omission by Grantee in the exercise of any right or remedy upon any breach by Grantor shall impair such right or remedy or be construed as a waiver.

5. **Acts Beyond the Grantor's Control.** Nothing contained in this Deed of Easement shall be construed to entitle Grantee to bring any action against Grantor for any injury to or change in the Protected Property resulting from causes beyond Grantor's control including, without limitation, fire, flood, storm, and earth movement, or from any prudent action taken by Grantor under emergency conditions to prevent, abate, or mitigate significant injury to the Protected Property resulting from such causes. In the event the terms of this Deed of Easement are violated by acts of trespassers that Grantor could not reasonably have anticipated or prevented, Grantor agrees that Grantee has the right to pursue enforcement action against the responsible parties.

6. **Costs, Legal Requirements and Liabilities.** Grantor, its successors and assigns retain all responsibilities and shall bear all costs and liabilities of any kind related to the ownership, operation, upkeep, and maintenance of the Protected Property.

7. **Control.** Nothing in this Deed of Easement shall be construed as giving rise to any right or ability of Grantee to exercise physical or managerial control over the day-to-day operations of the Protected Property, or any responsibility to the Protected Property within the meaning of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (42 U.S.C. §§ 9602 et seq.).

DEED OF CONSERVATION EASEMENT

8. **Taxes.** Grantor shall pay before delinquency all taxes, assessments, fees and charges of whatever description levied on or assessed against the Protected Property by competent authority, including any taxes imposed upon, or incurred as a result of, this Deed of Easement.

9. **Environmental Warranty.** Grantor warrants that it is in compliance with, and will remain in compliance with, all applicable Environmental Laws (hereinafter defined). Grantor warrants that there are no notices by any governmental authority of any violation or alleged violation of, noncompliance or alleged noncompliance with, or any liability under, any Environmental Law relating to the operations or conditions of the Protected Property. Grantor further warrants that it has no actual knowledge of a release or threatened release of Hazardous Materials (hereinafter defined), as such substances and wastes are defined by applicable Federal and State law. Moreover, Grantor hereby promises to hold harmless and indemnify Grantee against all litigation, claims, demands, penalties and damages, including reasonable attorneys' fees, arising from or connected with the release or threatened release of any hazardous materials on, at, beneath or from the Protected Property, or arising from or connected with a violation of any Environmental Laws by Grantor or any other prior owner of the Protected Property. Grantor's indemnification obligation will not be affected by any authorizations provided by Grantee to Grantor with respect to the Protected Property or any restoration activities carried out by Grantee at the Protected Property; provided, however, that Grantee will be responsible for any Hazardous Materials contributed after this date to the Protected Property by Grantee.

"Environmental Law" or "Environmental Laws" means any and all Federal, State, local or municipal laws, rules, orders, regulations, statutes, ordinances, codes, guidelines, policies, or requirements of any governmental authority regulating or imposing standards of liability or standards of conduct (including common law) concerning air, water, solid waste, hazardous materials, worker and community right-to-know, hazard communication, noise, radioactive material, resource protection, subdivision, inland wetlands and watercourses, health protection, and similar environmental health, safety, building, and land use as may now or at any time hereafter be in effect.

"Hazardous Materials" means any petroleum, petroleum products, fuel oil, waste oils, explosives, reactive materials, ignitable materials, corrosive materials, hazardous chemicals, hazardous wastes, hazardous substances, extremely hazardous substances, toxic substances, toxic chemicals, radioactive materials, infectious materials, and any other element, compound, mixture, solution, or substance which may pose a present or potential hazard to human health or the environment.

10. **Hold Harmless.** Grantor shall hold harmless, indemnify, and defend Grantee and its members, directors, officers, employees, agents, and contractors (collectively "Indemnified Parties") from and against all liabilities, penalties, costs, losses, damages, expenses, causes of action, claims, demands, or judgments, including, without limitation, reasonable attorneys' fees, arising from or in any way connected with: an injury to or the death of any person, or physical damage to any property, resulting from any act, omission, condition, or other matter related to or occurring on or about the Protected Property, regardless of cause, unless due solely to the negligence of any of the Indemnified Parties and only that negligent party shall be deprived of this protection.

DEED OF CONSERVATION EASEMENT

11. Proceeds for Extinguishment; Condemnation Awards. The conveyance of the conservation easement granted hereunder (the "Easement") gives rise to a property right immediately vested in the Grantee. If circumstances arise in the future that render the purpose of the Easement impossible to accomplish, this Deed of Easement can only be terminated or extinguished, whether in whole or in part, by judicial proceedings in a court of competent jurisdiction. The amount of the proceeds or condemnation award to which the Grantee shall be entitled from any sale, exchange, involuntary conversion or condemnation of all or any portion of the Protected Property subsequent to such termination, extinguishment or condemnation, shall be an amount equal to the ratio of the appraised value of the Easement to the unrestricted fair market value of the Protected Property as these values are determined on the date of this Deed of Easement, or 56% of such proceeds or condemnation award. The Grantor is entitled to 44% of such proceeds or condemnation award. Of Grantor's 44% share, the owner of Farmland Parcel 2RB shall receive 43% and the owner of Lot 4 shall receive 57%.

The Grantee shall use its share of such proceeds or condemnation award for land conservation in a manner consistent with the conservation purposes set forth herein.

In making this Deed of Easement, Grantor has considered the possibility that uses prohibited by the terms of this Deed of Easement may become more economically valuable than permitted uses, and that neighboring properties may in the future be put entirely to such prohibited uses. Grantor believes that any such changes in the use of neighboring properties will increase the benefit to the public of continuation of this Deed of Easement, and Grantor and Grantee intend that any such changes shall not be deemed to be circumstances justifying the termination or extinguishment of this Deed of Easement.

12. Condemnation. If the Easement is taken, in whole or in part, by exercise of the power of eminent domain, the person or entity exercising the power of eminent domain must pay compensation at not less than the fair market value of the Protected Property determined without regard to the existence of the Easement. Grantor, upon receipt of notification of any pending condemnation action brought by any government entity affecting and/or relating to the Protected Property, shall notify the Grantee in writing, within thirty (30) days of receipt of said notification.

13. Assignment. This Deed of Easement is not transferable by the Grantee to any other local, county or state department, board, agency, commission or successor. In the event that the Jefferson Farmland Protection Board ceases to operate or exist, the rights of the Grantee under this Deed of Easement shall be transferred to an organization that is qualified under Section 170(h) of the Internal Revenue Code of 1986, as amended, and is a West Virginia-domiciled organization authorized to acquire and hold conservation easements under the West Virginia Conservation and Preservation Easements Act (WV Code 20-12-1, et seq., 1995).

The Grantee further covenants and agrees that the terms of the transfer or assignment will be such that the transferee or assignee will be required to continue to carry out in perpetuity the conservation purposes which the Easement was originally intended to advance. The transfer of the easement to a new or successor transferee or assignee will not create a financial obligation of any kind on the Grantor.

DEED OF CONSERVATION EASEMENT

14. **Subsequent Transfers.** Grantor agrees to incorporate the terms of this Deed of Easement in any deed or other legal instrument by which they divest themselves of any interest in all or a portion of the Protected Property, including, without limitation, a leasehold interest.

15. **Estoppel Certificates.** Upon request by Grantor, Grantee shall within thirty (30) days execute and deliver to Grantor any document, including an estoppel certificate, which certifies Grantor's compliance with any obligation of Grantor contained in this Deed of Easement and otherwise evidences the status of this Deed of Easement as may be requested by Grantor.

16. **Notices.** Any notice, demand, request, consent, approval, or communication that either party desires or is required to give to the other shall be in writing and either served personally or sent by certified mail, return receipt, addressed as follows:

To Grantor:

T.L. Magaha and Sons, Inc.
c/o Larry T. Magaha, President
2255 Earle Road
Charles Town, West Virginia, 25414

To Grantee:

Jefferson County Farmland Protection Board
P.O. Box 731
Charles Town, WV 25414

or to such other address as either party from time to time shall designate by written notice to the other.

17. **Recordation.** Grantee shall record this instrument in timely fashion with the Office of the Clerk of the County Commission of Jefferson County, West Virginia and may re-record it at any time as may be required to preserve its rights in this Deed of Easement.

18. **Amendment.** If circumstances arise under which an amendment to or modification of this Deed of Easement would be appropriate, Grantor and Grantee are free to jointly amend this Deed of Easement; provided that no amendment shall be allowed that will invalidate this Deed of Easement or be inconsistent with the purpose of this Deed of Easement, and shall not affect its perpetual duration. Any such amendment shall be recorded as above specified. No such amendment shall be effective unless in writing and signed by all parties hereto.

19. **Conveyance of Lot 2R and Lot 4.**

(a) Grantor agrees that Lot 2R and Lot 4 may be conveyed together or separately, at different times to different transferees subject to the provisions of this Section 19.

DEED OF CONSERVATION EASEMENT

(b) Grantor acknowledges and agrees that Farmland Parcel 2RA and Farmland Parcel 2RB comprise Lot 2R and can only be conveyed together in a conveyance of Lot 2R. For avoidance of doubt neither Lot 2R nor Lot 4 may be subdivided, and neither Farmland Parcel 2RA nor Farmland Parcel 2RB may be subdivided or separated from Lot 2R as separate subdivided parcels.

(c) The owner of Lot 2R shall be deemed a "Grantor" under the March 2020 Conservation Easement with respect to Farmland Parcel 2RA and shall be deemed a "Grantor" under this Deed of Easement with respect to Farmland Parcel 2RA, and the acceptance of a deed to Lot 2R shall be deemed an acknowledgement by the transferee under such deed that such transferee shall be bound by the covenants, terms, conditions and restrictions of the March 2020 Conservation Easement with respect to Farmland Parcel 2RA and be bound by the covenants, terms, conditions and restrictions of this Deed of Easement with respect to Farmland Parcel 2RB and the Protected Property as a whole.

(d) Each owner of Lot 4 shall be deemed a "Grantor" under this Deed of Easement, and the acceptance of a deed to Lot 4 shall be deemed an acknowledgement by the transferee under such deed that such transferee shall be bound by the covenants, terms, conditions and restrictions of this Deed of Easement as it applies to Lot 4 and the Protected Property as a whole.

(e) Notwithstanding the foregoing provisions of this Section 19, in construing or interpreting the covenants, terms, conditions and restrictions imposed on the Protected Property under and by this Deed of Easement, the Protected Property shall be deemed one tract of land even if Farmland Parcel 2RB and Lot 4 are owned by separate owners. All references herein to the Protected Property shall be deemed to refer to both of Farmland Parcel 2RB and Lot 4 collectively or each of Farmland Parcel 2RA and Lot 4 separately.

(f) Grantor hereby grants and conveys to Grantee a perpetual, non-exclusive access easement over and across Lot 2RA and Lot 2RB to and from Lot 2RA and Lot 2RB and from any public right of way abutting Lot 2RA and/or Lot 2RB to access each of Lot 2RA and Lot 2RB to perform monitoring activities and exercise any other rights granted to Grantee under this Deed of Easement or the March 2020 Conservation Easement.

(g) Grantor hereby grants and conveys to Grantee a perpetual, non-exclusive access easement over and across Lot 4 to and from Lot 4 and from any public right of way abutting Lot 4 to access Lot 4 to perform monitoring activities and exercise any other rights granted to Grantee under this Deed of Easement.

20. Other Provisions.

(a) **Controlling Law.** The interpretation and performance of this Deed of Easement shall be governed by the laws of the State of West Virginia.

(b) **Severability.** If any provision of this Deed of Easement, or the application thereof to any person or circumstance, is found to be invalid, the remainder of the provisions of this Deed of Easement, or the application of such provision to persons or circumstances other than those as to which it is found to be invalid, as the case may be, shall not be affected thereby.

DEED OF CONSERVATION EASEMENT

(c) **No Forfeiture.** Nothing contained herein will result in a forfeiture or reversion of the Grantor's title in any respect.

(d) **Successors.** The covenants, terms, conditions, and restrictions of this Deed of Easement shall be binding upon, and inure to the benefit of, the parties hereto and their respective personal representatives, heirs, successors, and assigns and shall continue as a servitude running in perpetuity with the Protected Property.

(e) **Captions.** The captions herein have been inserted solely for convenience of reference and are not a part of this Deed of Easement and shall have no effect upon construction or interpretation.

(f) **Subordination.** Any mortgage or lien arising after the date of this Deed of Easement shall be subordinated to the terms of this Deed of Easement.

(g) **Title Warranties.** Grantor warrants that Grantor has good title to the Protected Property; that Grantor has the right to convey this Deed of Easement, and that the Protected Property is free and clear of any encumbrances.

(h) **Merger.** If Grantee at some future time acquires the underlying fee title in the Protected Property, the interest conveyed by this Deed of Easement will not merge with fee title but will continue to exist and be managed as a separate estate. The Grantor and Grantee explicitly agree that it is their express intent, forming a part of the consideration hereunder, that the provisions of the conservation easement deed set forth herein are to last in perpetuity, and that to that end no purchase or transfer of the underlying fee interest in the Protected Property by or to the local grantee, or any successor or assignee will be deemed to eliminate these conservation easement terms, or any portion thereof, pursuant to the doctrine of "merger" or any other legal doctrine.

(i) **Incorporation of Recitals.** The recitals set forth above are hereby incorporated herein by this reference.

Estimation of amount of time needed for appointment: 15 minutes

If a specific date is needed, please provide reason for specific date:

Date Requested – 2nd Choice: July 18, 2019

Subject (*Wording to be placed on agenda*): Funding Request for CASA Volunteer Outreach Campaign

Please provide the County Commission with a description of your request or presentation, including any background information:

Is this a funding request? Y/N YES

If so, how much? \$5,000

Provide exact financial impact/request: Request will fund a new outreach campaign in Jefferson County to recruit volunteers to serve and improve the well-being of the most vulnerable children and families in the county. CASA volunteers make a life-changing difference for children who have experienced abuse or neglect. We believe every child experiencing this level of upheaval and trauma deserves to have a dedicated advocate speaking up for their best interest in court, at school, and in our community. To accomplish this, CASA recruits, educates, and empowers diverse community volunteers who ensure each child's needs remain a priority in an overburdened child welfare system. Children with a CASA spend less time in foster care, are less likely to re-enter foster care, and are more likely to finish high school, saving the county significant child welfare resources and improving family well-being for a critically underserved population.

Recommended motion (*Please type out the wording of the motion that you would like the Commission to approve*):

Motion to approve the funding request of \$5,000 to fund a volunteer recruitment campaign to serve more children who have experienced abuse or neglect in Jefferson County.

Attach supporting documents for request, or request may be denied.

FOR COMMISSION STAFF USE ONLY – FINANCIAL IMPACT/RECOMMENDATION

Brighter Futures, Stronger Communities

The Problem

There are approximately 5,000 victims of abuse or neglect in West Virginia, a rate of 12.8 per 1,000 children. Of these children, 45.7% were neglected, 70.4% were physically abused, and 4.1% were sexually abused. The number of child victims has increased 22% (**and growing**) in comparison to the number of victims in 2011 (CWLA, 2017 report). Within this problem exists an unfortunate crisis directly related to the opioid crisis; and that is, a significant number of infants must be removed at birth because they are born addicted to drugs. Once removed, these children continue to suffer, left to languish in the foster care system while the judicial process is conducted. For the drug addicted babies, becoming functional is going to be a challenging process for any adult involved. For the older children, instead of playing outside in their neighborhood and making happy family memories, they are attending court hearings, adjusting to new foster homes (most often siblings are separated) and transitioning into new schools.

In the Eastern Panhandle of Berkeley, Jefferson, and Morgan counties there are 656 children in active abuse and neglect cases before the court. With current resources, CASA-EP can only serve 25% of the children in need. Shockingly in the Panhandle today, there are 1,100 additional reports of abuse and neglect yet to be investigated. CASA-EP must ready itself for the future influx of these soon-to-be new cases.

In Jefferson County alone, there are 30-40 children who have experienced abuse and neglect and reside in foster, temporary care and/or group housing—and more will soon be in the system as the backlog in investigations are resolved.

The challenge is real: Closing the gap between the 480 children (and growing**) without a CASA Volunteer and the 140 who have one.**

The Solution

CASA believes every child who's been abused or neglected deserves to have a dedicated advocate speaking up for their best interest in court, at school, and in our community. To accomplish this, CASA recruits, educates, and empowers diverse community volunteers who ensure each child's needs remain a priority in an overburdened child welfare system.

To advance our goal, CASA-EP will launch an outreach campaign using new tools provided by the National CASA Association to recruit new volunteers to advocate for all of Jefferson County's children and families in the child welfare system. National CASA engaged a leading national advertising agency to create this new—*Change a Child's Life*—campaign that will launch nationally on June 16. Our funding request to Jefferson County Commission will help us customize and localize this program for the Eastern Panhandle and purchase print, radio, and out-of-home media placements throughout Jefferson County encouraging residents to volunteer and help change the lives of our community's most vulnerable and underserved children.

After intensive training, our committed, vigilant, and persistent volunteers will offer hope where there has been little. Children who have experienced abuse or neglect fare better with a CASA volunteer by their side. Studies have shown:

- **THEY ARE More Likely to find a safe, permanent home.**
- **THEY ARE More Likely to succeed in school**
- **THEY ARE Half as likely to re-enter the foster care system**

Our Request

CASA-EP respectfully requests \$5,000 for the **Change a Child's Life** outreach campaign. Dollars will be spent as follows:

TACTIC	BUDGET
County-targeted digital advertising	\$1,500.00
Brochure printing	\$500.00
Out-of-home/billboard	\$3,000.00
TOTAL	\$5,000.00

Thank you very much for your consideration of this critical, community service request!

2019 Homeland Security Grant Program Compliance Requirements

The **FEMA Preparedness Grants Manual** (April 2019 version) and the **2019 Notice of Funding Opportunity (NOFO) for the Fiscal Year 2019 Homeland Security Grant Program (HSGP)** outline specific requirements for sub-recipient. The sub-recipient **MUST** comply with and the recipient (DHSEM) must track the following requirements:

1. ALL sub-recipients **MUST** complete the *National Cybersecurity Review* by December 31, 2019;

The Grant Programs Directorate Information Bulletin No. 439 (released April 12, 2019) provides supplemental guidance on required cybersecurity activities. HSGP sub-recipients must complete the NCSR by the end of Calendar Year 2019. The 2019 *National Cybersecurity Review* (NCSR) will be open from October through December 2019. The Chief Information Officer (CIO), Chief Information Security Officer (CISO), or equivalent for each subrecipient should complete the NCSR. If there is no CIO/CISO, the most senior cybersecurity professional should complete the assessment. The NCSR is available at no cost to the user and takes approximately 2-3 hours to complete. DHSEM will send out directions and the link to the survey to the Project Director when it is available.

2. Only equipment listed as approved for HSGP funding on the FEMA Authorized Equipment List (AEL) can be purchased (<https://www.fema.gov/authorized-equipment-list>);
3. Environmental Planning and Historic Preservation (EHP) Compliance;

DHS/FEMA is required to consider the effects of its actions on the environment and historic properties to ensure that all activities and programs funded by DHS/FEMA including grant-funded projects, comply with Federal EHP regulations, laws, and Executive Orders, as applicable. Sub-recipients proposing projects that have the potential to impact the environment, including but not limited to the construction of communication towers, modification or renovation of existing buildings, structures, and facilities, or new construction including replacement of facilities, must participate in the EHP review process. The EHP review process involves the submission of a detailed project description along with supporting documentation so that DHS/FEMA may determine whether the proposed project has the potential to impact environmental resources or historic properties. In some cases, DHS/FEMA is also required to consult with other regulatory agencies and the public in order to complete the review process. The EHP review process must be completed before funds are released to carry out the proposed project; otherwise, DHS/FEMA may not be able to fund the project due to noncompliance with EHP laws, executive order, regulations, and policies. Contact Matthew.J.Blackwood@dhs.gov for details.

4. All procurement activity must be conducted in accordance with Federal Procurement Standards at 2 C.F.R. §§ 200.317 – 200.326; and
5. Sub-recipients must retain award documents for at least three years from the date of closeout.

I have read and agree to comply with the above listed requirements.

Michelle,

I see in my current budget report, the Professional Services line item shows \$4500 overspent. However, we received the \$4500 reimbursement check from Bluestone Land LLC; and Michelle Mason sent it to the sheriff's tax office to be deposited. This will cover the overage in the budget. Thanks!

Hey Jacki,

I'm working on final FY20 budget revisions.... I think you'll need the revisions below to correct the health insurance overage and Gail's payouts. Since travel and training are on hold due to the COVID19 expenditure restrictions, I included those accounts (partially). I did not include materials and supplies because Gail indicated that she needs to purchase printers this fiscal year and you may need to purchase other required or mandated items.

Let me know if anything proposed isn't ok with you. The final overage for your department is \$40,393. The Commission only approved up to \$35k to be funded with Contingency for Emergencies, but I'll recommend the full \$40,393 as we were not anticipating that Gail would retire and your budget is too small to absorb her payouts.

Michelle

Dear Ms. Banks:

This letter is to advise you that the Property Valuation Training and Procedures Commission would not object to your transferring Jason Mickey back to the Assessor Valuation Fund since he was originally approved to be paid out of the Assessor Valuation Fund on March 26, 2009.

Since this individual will be paid from the County Valuation Fund again, your office must retain this hiring approval information for audit purposes.

If I can be of further assistance to you, please feel free to contact me at 304-558-0785 or Leroy.E.Barker@wv.gov.

Sincerely,

Subject (*Wording to be placed on agenda*):

Please provide the County Commission with a description of your request or presentation, including any background information:
