Zoning Map Amendment (Rezoning)

Pursuant to Article 12, a Zoning Map Amendment is a procedure to amend the official Zoning Map of the County by changing the zoning designation of a property. In order for a proposed amendment to be approved, the County Commission, with the advice of the Planning Commission, must find that the amendment is consistent with the adopted Comprehensive Plan, or if it is inconsistent, must make findings in accordance with the requirements of 8A-7-8 et seq of the WV State Code.

Substantiation for the Request

For a Zoning Map Amendment (rezoning) request, the "burden of proof" is on the applicant to show why the proposed zoning is more appropriate than the existing zoning. Accordingly, please explain how the following factors support your proposal.

Describe your proposed use/project and describe why this Zoning Map Amendment is necessary for the proposed use (and/or project) described.

See attached Zoning Map Amendment Justification

Describe how this Zoning Map Amendment will be consistent with the objectives and policies of the Comprehensive Plan.

See attached Zoning Map Amendment Justification

Discuss any change(s) of transportation characteristics (i.e. type and frequency of traffic, adequacy of existing transportation routes), and neighborhood characteristics from when the original Ordinance was adopted.

See attached Zoning Map Amendment Justification

A plat or sketch shall include the entire original parcel as it appeared on the date this Ordinance took effect. The property proposed for development shall be drawn to a reasonable scale (eg. 1" = 50', 1" = 100', or 1" = 200'). The sketch plan shall show, in simple form, the proposed layout of lots, parking areas, recreational areas, streets, building areas, and other features in relation to each other and to the tract boundaries. Contour lines, as shown on the appropriate U.S.G.S. Topographic Quadrangle Map or other data source approved by the Department, should be superimposed on the sketch plan. The source of all contour lines shall be noted on the plan. Natural features such as woods, watercourses, prominent rock outcroppings, sinkholes, and quarries shall be delineated.

The information given is correct to the best of my knowledge.

Re: **Harvest Hills Subdivision, Phase II - Arcadia Land, Inc.**
Zoning Map Amendment Request
(R) Rural to (RG) Residential Growth

Dear Commissioners:

This report has been prepared on behalf of Arcadia Land, Inc. for the formal request of a Zoning Map Amendment (rezoning) regarding the subject parcels owned by Arcadia Land, Inc. and identified as District 9, Tax Map 24, Parcel(s) 12 & 13. The subject parcels are located at the terminus of Kephart Drive, off Flowing Springs Road (Rt. 17), approximately 0.5 miles north of the intersection of Shenandoah Junction Road (Rt. 20) and Flowing Springs Road (Rt. 17). A boundary survey was conducted by Greenway Engineering, Inc. that determined Parcel 12 & 13's acreages to be 94.63 acres and 257.62 acres respectively, for a total of 352.25 acres. This acreage is to be utilized for Phase II of the Harvest Hills Subdivision. Greenway is currently preparing a Merger Plat of the two parcels.

Currently, the subject parcels are both zoned Rural (R). The Owner proposes to rezone the entire 352.25± acres (94.63 & 257.62) to Residential Growth (RG), to allow for the highest and best use of the parcels as Phase II of the Harvest Hills Subdivision.

The following analysis has been organized into two (2) sections: (1) Project Summary, and (2) Substantiation for the Request. Supplemental documentation including a concept plan, survey plat, deeds, and select preferred growth area maps are also included to provide the Planning Commission with full and complete information for their consideration.

The applicant has made every effort to comply with the ordinances of Jefferson County, and to submit the most thorough application possible, with the hope that staff and the Jefferson County Planning Commission will look favorably on this application. Thank you for your consideration of this matter. Please review this information and contact me if you have any questions or need additional information regarding this matter.

Sincerely,

Brooke Perry
Planning Manager, WV

I. PROJECT SUMMARY

Phase II of the Harvest Hills Subdivision is being developed to provide lot sizes more attuned to current market demands, with a wider variety of residential products. This will include single family lots of several different sizes, attached and detached Villas, and Townhomes. In addition to proposing a wide range of products, the developer is proposing to provide multiple recreational spaces to serve Phase II as well as the existing residents, and improve the overall quality of life for all residents of Harvest Hills Subdivision. Additional Park Area of 21.8174 acres was dedicated to Jefferson County during Phase I of Harvest Hills Subdivision.

II. SUBSTANTIATION FOR THE REQUEST

Describe your proposed use/project and describe why this Zoning Map Amendment is necessary for the proposed use (and/or project) described.

The subject parcels are located at the terminus of Kephart Drive, off Flowing Springs Road (Rt. 17), approximately 0.5 miles north of the intersection of Shenandoah Junction Road (Rt. 20) and Flowing Springs Road (Rt. 17). The parcels are shown as future “Low Density Residential” on the Future Land Use Guide. The current zoning of Rural (R) permits agricultural and rural cluster density residential land uses. The rezoning to Residential Growth (RG) would allow for a variety of residential land uses such as single family (SFD), townhouses (SFA), and/or two family dwellings (SFA/Duplex). This rezoning request is consistent with the intent of the *Envision Jefferson 2035 Comprehensive Plan*.

Describe how this Zoning Map Amendment will be consistent with the objectives and policies of the Comprehensive Plan.

Preferred Growth Areas - (Page 23, *Envision Jefferson 2035 Comprehensive Plan*)

PGA (f) - Shenandoah Junction PGA/School Based Growth Area of the Section listed above states, *“Considerable input was received as to the desirability of siting schools in locations that are walkable and/or bikeable to the neighborhoods that the school serves. This PGA allows the development of such walkable neighborhoods around schools that currently exist. Planning growth around existing schools decreases bus and vehicular traffic and allows for connectivity including walking and biking trails. The recommended land uses in this area include Medium Density Residential around the schools which should be in a pattern and scale compatible with the village of Shenandoah Junction, transitioning to Low Density Residential abutting the Rural/Agricultural land uses.”*. A map of the Shenandoah Junction PGA/School Based Growth Area is attached to this application for reference.

Section I of Harvest Hills Subdivision adjoins the Shenandoah Junction/Schools Preferred Growth Area boundary at its frontage, along Flowing Springs Road (Rt. 17).

PGA (g) - Residential Preferred Growth Area of the Section listed above states, *“Based on comments received during the Envision Jefferson 2035 public input process, it was determined that it is important to denote the areas where a concentration of existing or approved residential development currently exists but may be not be fully developed and is outside of the Urban Growth Boundary (UGB). One such residential area exists that consists of properties currently zoned for Residential Growth (RG) or which have a vested development right to develop at a low density or medium density residential rate. This core residential area, bounded by Old Country Club Road, Flowing Springs Road, Job Corps Road, Shepherdstown Pike (WV 230) to the railroad tracks, is depicted by a Preferred Growth Area boundary, but is compromised only of future large lot, low density, and medium density residential uses. It is anticipated that this will be a*

primarily detached single family suburban housing area.”. A map of the Residential PGA is attached to this application for reference.

The subject parcels are both located just north of the Residential Preferred Growth Area boundary.

The Section goes on to state, *“Outside of this residential PGA, other properties zoned RG or with vested residential rights based on a subdivision approval are also shown on the Future Land Use Guide as future low or medium density residential (depending on the scale of development as part of an individual project) to reflect the future build out of various neighborhoods.”.*

The Harvest Hill Subdivision is one of the properties referenced above *“with vested residential rights based on a subdivision approval”.*

Future Land Use Guide - (Pages 26 & 235, *Envision Jefferson 2035 Comprehensive Plan*)

The parcels that are part of this Zoning Map Amendment request are shown on the Future Land Use Guide as Future “Low Density Residential”. Appendix G of the *Comprehensive Plan* provides a detailed explanation of the Land Use Map Classifications utilized on the Existing Land Use Map and Future Land Use Guide, which are intended to provide guidance to the Planning and County Commissions when considering owner-initiated zoning map amendments (rezoning requests). It further notes that while some of the land use classifications may require new zoning categories, the land uses were not intended to be a comprehensive list of possible zoning districts.

Appendix G - Land Use Map Classifications of the *Envision Jefferson 2035 Comprehensive Plan* states that the “Low Density Residential” land use category is a land use category which anticipates *“land occupied by a single family residential development, with a density of one unit per acre to 2.99 units per acre. Lots in this category may be served by either onsite well and septic systems or a public water and sewer system as the number of units per acre increases”.* As the current Jefferson County Zoning Ordinance does not include a variety of zoning categories which anticipate certain residential densities, Residential Growth (RG) is a category that would permit Low Density Residential land uses.

Under the previous Zoning Ordinance, the subject parcels, as well as multiple properties to the south, received approval for Conditional Use Permits (CUPs) that allowed the development of these properties at suburban residential subdivision densities. Market conditions at the time were no longer conducive to Harvest Hills Subdivision moving forward with the Phase II design under the approved CUP. After the adoption of the *2035 Plan*, the County Commission approved a text amendment eliminating the use of the Land Evaluation Site Assessment (LESA) system and modifying the CUP process so that it could not be used for future residential development projects in the Rural Zoning District.

The *2035 Plan* was the first Jefferson County Comprehensive Plan to include a Future Land Use Guide, which is intended to be a tool to provide a visual definition of future growth and areas where potential owner initiated zoning map amendments (rezoning requests) might occur within the timeframe of the *2023 Plan*. The *2035 Plan* states that *“by creating a Future Land Use Map/ Guide, a community provides clarification for property owners related to their potential development on their site. The review of all zoning map amendment requests shall include consideration of all of the recommendations created as part of this Plan. All zoning map amendments shall be in conformance with the Future Land Use Guide and the recommendations of this Plan.”.*

Urban Level Development Recommendations - (Page 30, *Envision Jefferson 2035 Comprehensive Plan*)

Division (2) of the table listed above states, “Recognize that the County Commission has the authority to make land use decisions including Zoning Map Amendments based upon the finding of consistency with the Future land Use Guide and the recommendations of this Plan; the County commission may determine that petitions or decisions for zoning map amendments are consistent with the Comprehensive Plan if any of the following conditions are met after the entire Plan is taken into consideration:

- a. *Economic Well-Being of the County; or*
- b. *Error or Under Scrutinized Property on the Future land Use Guide; or*
- c. *Change in Neighborhood; or*
- d. *Any Other Circumstance that the Governing Body determines should have been considered when drafting the Future Land Use Guide; and/or*
- e. *Environmental impacts are considered.”*

This request meets the following conditions:

- a. **Economic Well Being** - Residential Land Use in Jefferson County has not met the comprehensive plans growth projections of 0.95% per year. The rate is 0.55% as of 2019. The lack of residential growth has impacted the strength of the local economy. While there are pockets of residential activity, the County is not benefiting from a robust residential economy. Expanding the potential unit count for Harvest Hills Subdivision, Phase II from 392 lots allowed under (R) Rural zoning, to the proposed 1,027 allowed under (RG) Residential Growth zoning, will greatly expand residential activity, and therefore the local economy.
- b. **Future Land Use Guide** - Low Density Residential is identified as the appropriate use of the property by the comprehensive plan. The proposed Residential Growth zoning district is consistent with this recommended future land use.

Discuss any change(s) of transportation characteristics (i.e. type and frequency of traffic, adequacy of existing transportation routes), and neighborhood characteristics from when the original Ordinance was adopted.

The Original Zoning Ordinance was adopted on July 7, 1988. Changes in the immediate area of the properties include the following:

Schools - There are two (2) schools located within 2 miles of the property which did not exist at the time the original Ordinance was adopted: Wildwood Middle School and Driswood Elementary School.

Surrounding Development - The property is located in near proximity to Sam Michaels Park, which includes a community center, pavilions, dog park, outdoor amphitheater, and ball fields. The Aspen Green subdivision is located approximately 2 miles south along Flowing Springs Road (Rt. 17), and has a total build out of 205 lots. Potomac Towne Center is located 3.5 miles from the property and did not exist when the original Ordinance was adopted. The previously approved Daniel Subdivision and Breckenridge East Subdivision have each voided their plans (expired). These developments were located south of the subject parcels along Flowing Spring Road (Rt. 17) and Old Country Club Road respectively, before the intersection of Rt. 17 and Rt. 9.

Transportation - Route 9 was expanded to a 4-lane divided highway, providing a high-capacity road corridor between Jefferson County and Interstate 81. Harvest Hills Subdivision is within 4 miles of the

intersection between Flowing Springs Road and WV Route 9, and within 3.5 miles of the Route 9 signalized intersection at Potomac Towne Center.

An entrance permit from the West Virginia Division of Highways (WVDOH) will be needed for improvements to the connection of Elk Street to Flowing Springs Road (Rt. 17). Obtaining an entrance permit requires review by the WVDOH to ensure that safe and adequate access can be provided. It is anticipated that improvements to the intersection will be requested by WVDOH.

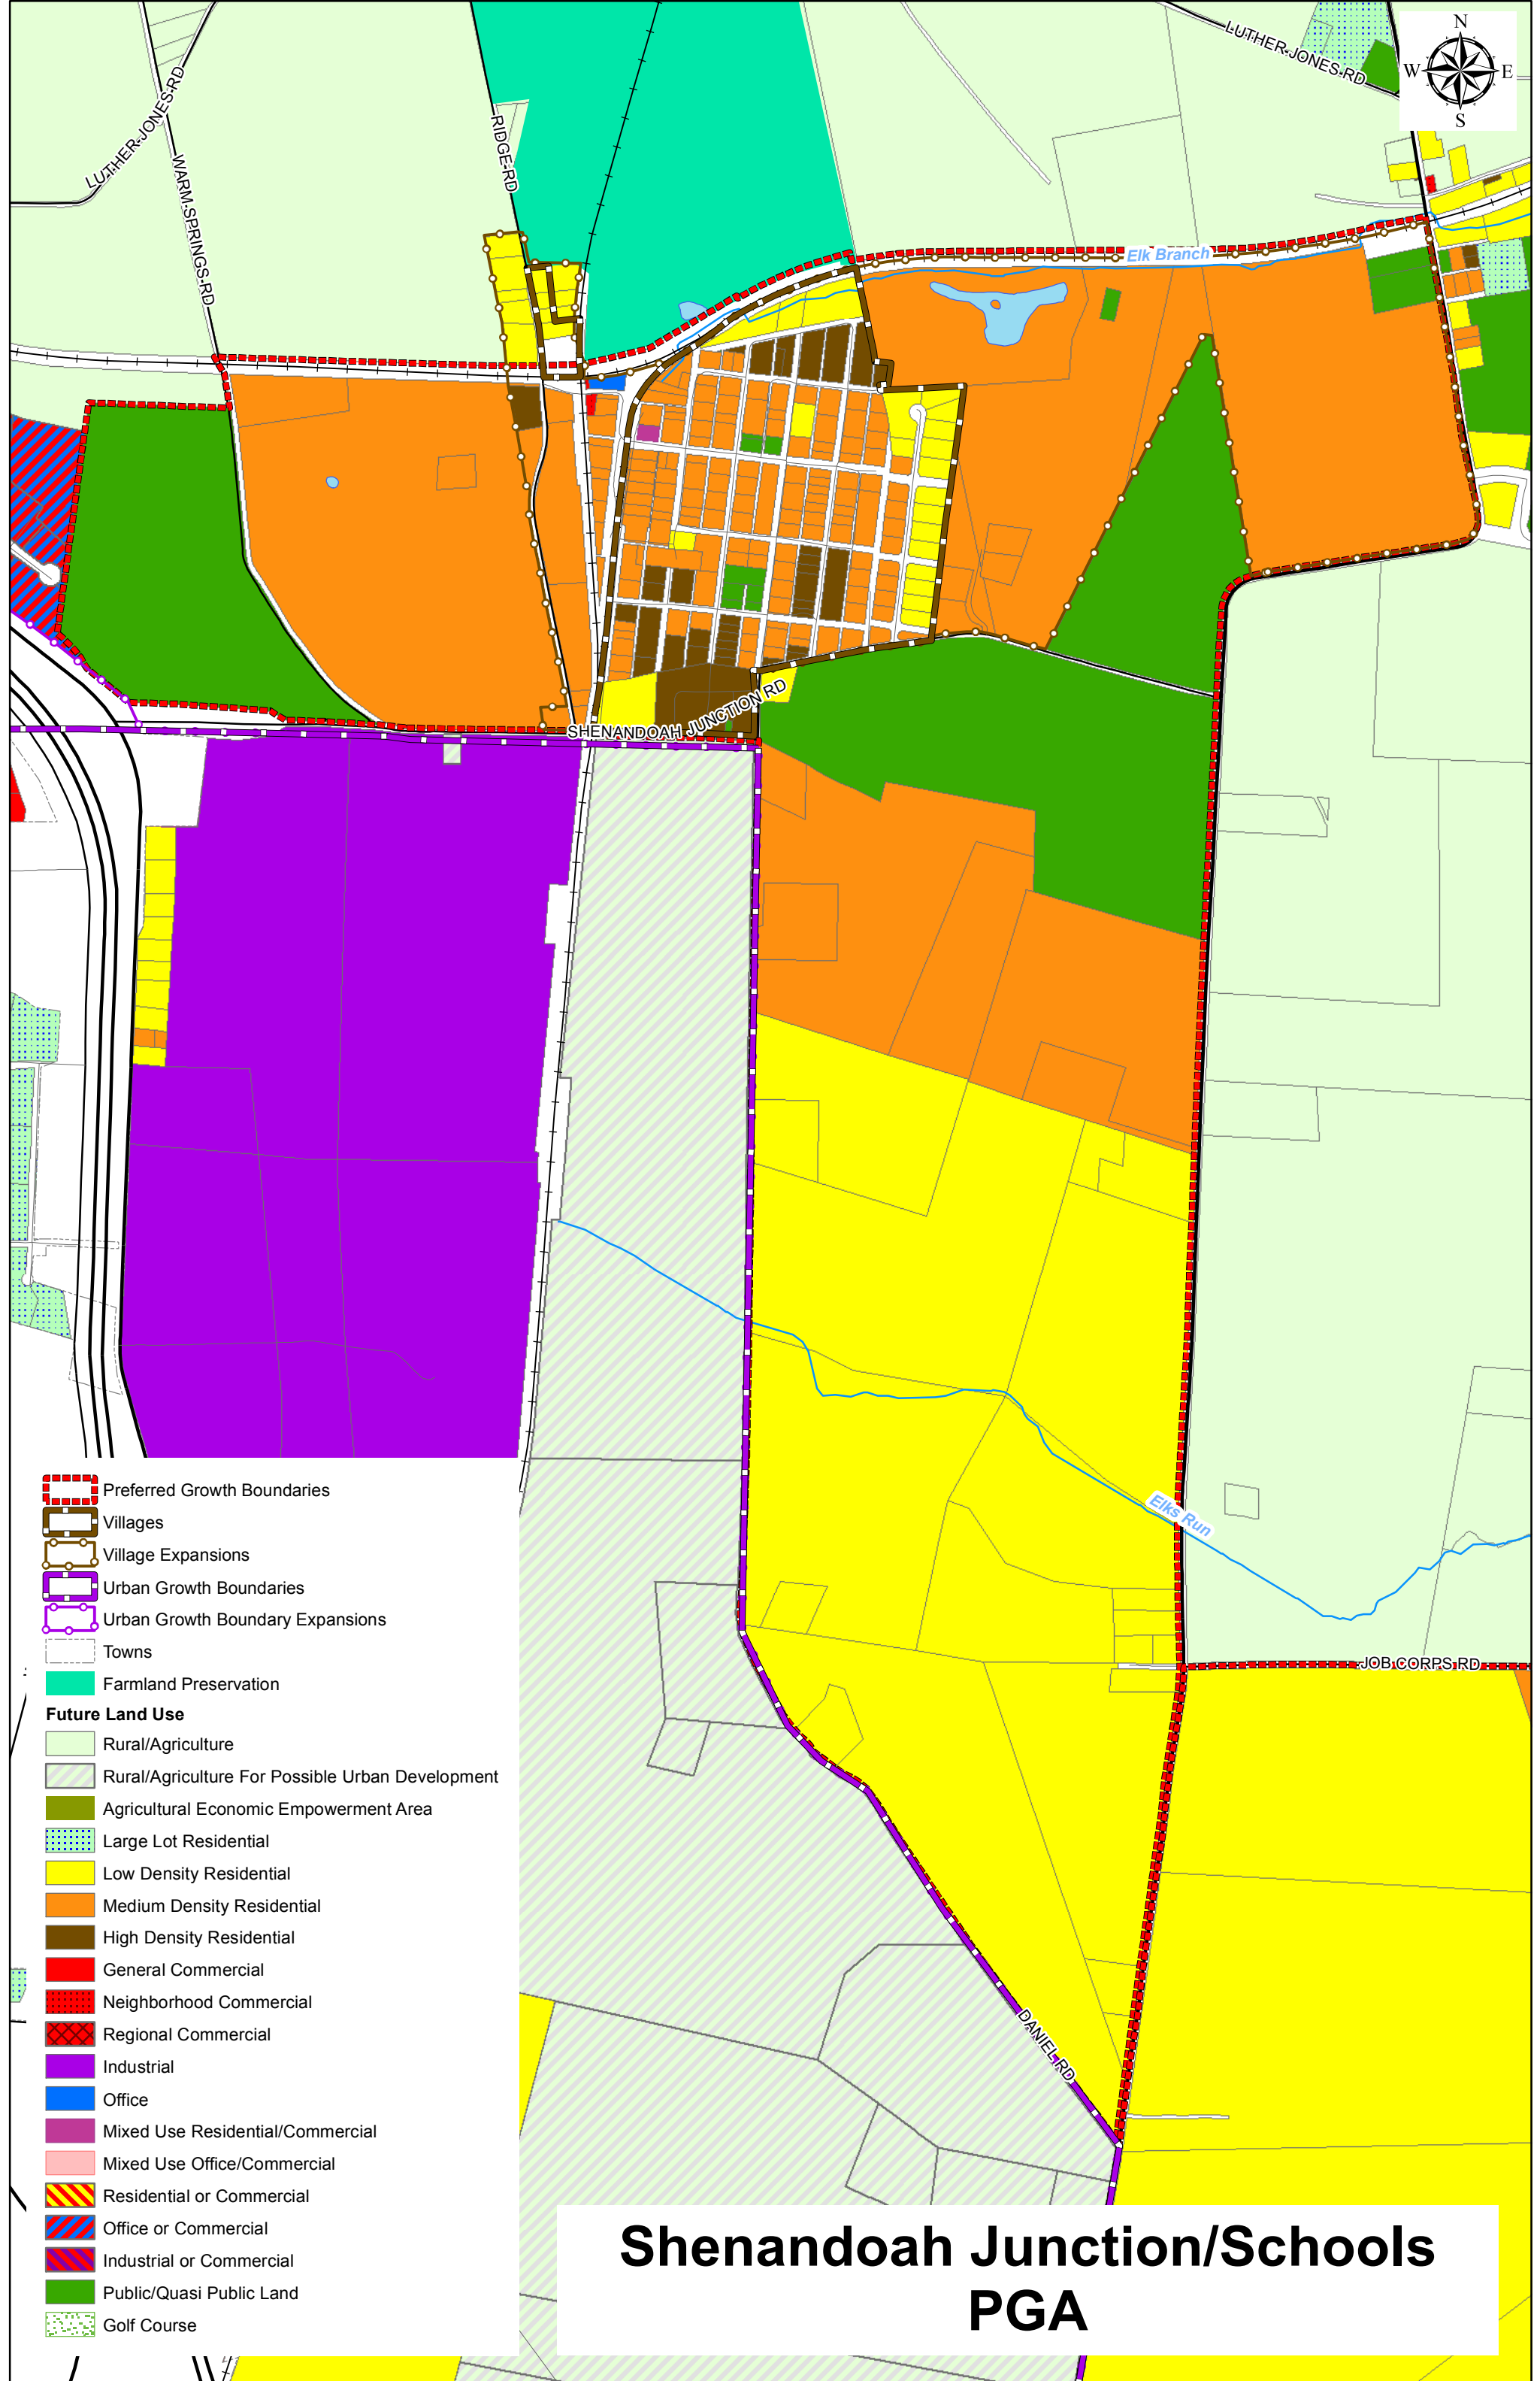

The following must be attached to this application:

A plat or sketch shall include the entire original parcel as it appeared on the date this Ordinance took effect. The property proposed for development shall be drawn to a reasonable scale (eg. 1" = 50', 1" = 100', or 1" = 200'). The sketch plan shall show, in simple form, the proposed layout of lots, parking areas, recreational areas, streets, building areas, and other features in relation to each other and to the tract boundaries. Contour lines, as shown on the appropriate U.S.G.S. Topographic Quadrangle Map or other data source approved by the Department, should be superimposed on the sketch plan. The source of all contour lines shall be noted on the plan. Natural features such as woods, watercourses, prominent rock outcroppings, sinkholes, and quarries shall be delineated.

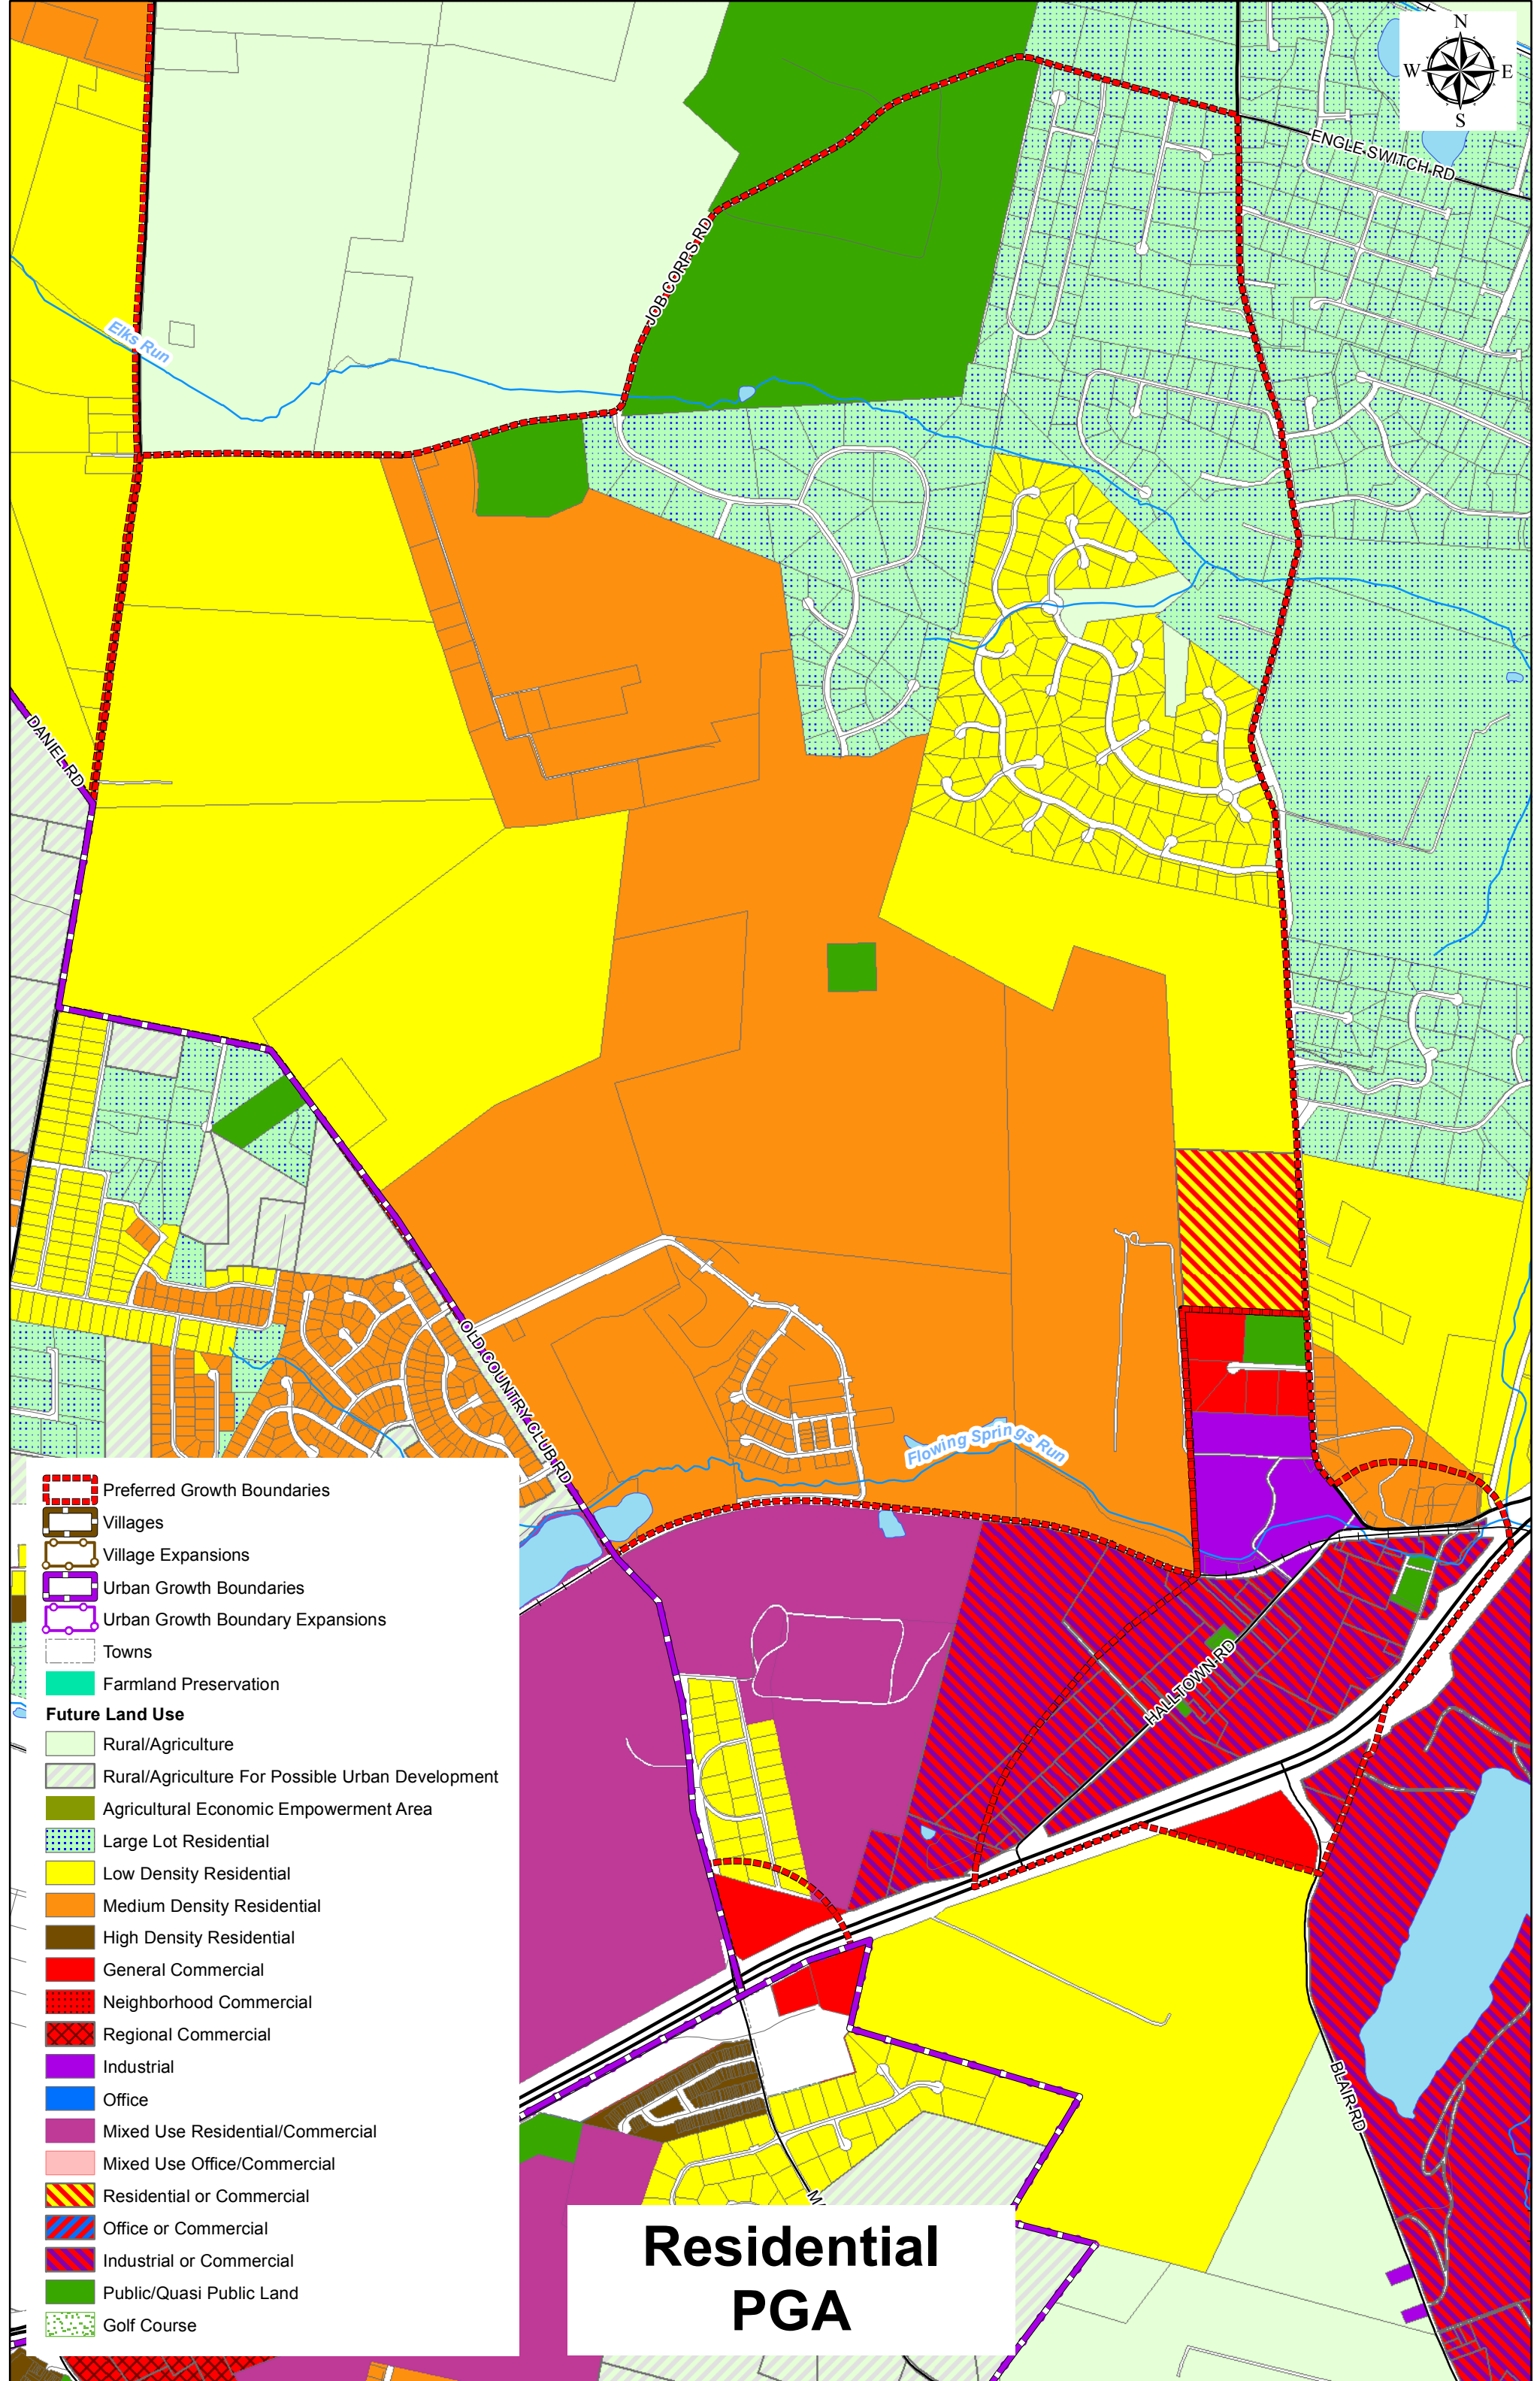

The required sketch is attached for reference: Harvest Hills Subdivision, Phase II - Concept Plan. Please see the comprehensive list of attachments below.
