

JCESA

TRAINING ANNOUNCEMENT

Synthetic Drugs

Date: February 3, 2015
Time: 6pm to 9pm
Location: JCESA - Station 11

Synthetic drug use is on the rise and presenting new challenges for law enforcement and medical providers. This course is intended to help participants identify and treat patients who are under the influence of, or have overdosed on, synthetic drugs.

There is no cost to the student for this course. This course is open to all Jefferson County volunteers. For questions or additional information, contact Beth Jeffries or Bob Burner.

To attend this session you **MUST** call 304-728-3287 or go to jcesa.org to register no later than January 28th at 4pm.

Required Textbook: None
