MEMORANDUM

TO: County Commission
FROM: Jennifer Brockman
DATE: March 8, 2012
RE: DRAFT U.S. 340 Corridor East Gateway Plan

Attached please find the U.S. 340 Corridor East Gateway Plan DRAFT, being presented at 7 pm on March 8, 2012. This working draft includes a summary of the public input received to date and the draft recommendations for review and consideration by the Planning and County Commissions.

Note that this draft is a preliminary form of the future final document. As such, the draft may still contain aesthetic, contextual and grammatical edits that need to occur; however, no significant content changes are anticipated. While there has been extensive public input into this process, this written draft has not been vetted by the Commissions and has not had public review and input. As the review and approval process occurs there will be opportunities for further refinement of the text and layout of the plan.

Because this is a DRAFT working document and there will be subsequent versions, readers are cautioned not to use the document as a reference, or, if they cite it, to refer to it as a work in progress.

As the County Commission and Planning Commission public hearings are held and consensus among the Members of the County Commission and Planning Commission is achieved, the DRAFT working document will transition to final status.
